Lakeside Church and School Bells

$52.49

Lakeside Church Bells are made of a special composition metal, producing a clear, rich, mellow sound. The larger the bell, the deeper and richer the tone, which improves as the bell ages. Large, clear-sounding bells for less money than smaller brass bells would cost.
Lakeside Church Bells produce a clear, deep, mellow tone that can be heard a great distance, and are complete with tolling hammer.
Lakeside School and Factory Bells are of the same quality as our Church Bells but do not have a tolling hammer and are designed for schools, court-houses, and small churches.
Note: We will replace free any Lakeside Bell that may break within five years.
Prices are for bells complete with wood sills and iron wheels. Sizes over 36 in. have wood wheels. Fitted with smooth, easy running bearings.
284E4648—Church Bells complete with Tolling Hammer.

A complete line of shot guns and rifles on pages 554 and 555

Serviceable and Rust-Resisting Eave Troughs

The Slip Joint Makes It Easy

The Slip Joint makes it easy for any man to put up this Trough. Simply push it together. No Tinner needed. Makes a neat, tight job and requires no soldering at the joint. Always state whether right or left hand trough is wanted, or send sketch showing position of outlets, etc. We recommend the extra heavy 26 gauge. Costs no more to put up, lasts twice as long as standard gauge and at our prices will afford a big saving.

Galvanized Eave Trough

Made of best grade Galvanized Sheet Steel in 10 ft. lengths without a seam. One end of each length is made with a slip-joint which is quickly put together and requires no soldering. **Not Mailable.**

In two grades. Standard and Extra Heavy.

Standard Gauge

	184E5120—Right Hand.			184E5121—Left Hd.
Size, in. (inside width at top)	3½	4	5	6
Ship. wt., per length, lbs.	4½	5	6½	7½
Per 10-ft. length	44c	54c	63c	80c

Extra Heavy 26 Gauge Eave Trough

	184E5122—Right Hand.			184E5123—Left Hd.
Size In. (inside width at top)	3½	4	5	6
Ship. wt., per length, lbs.	5	5½	7½	9½
10-ft. length	63c	72c	84c	$1.00

Galvanized Eave Trough Corners
Extra Heavy 26 Gauge. Slip Joint

	84E5148—Inside Bead.			84E5149—Outside Bead
Size, In.	3½	4	5	6
Ship. wt., oz.	14	16	19	22
Each	21c	22c	24c	29c

84E5156—For slip-joint eave trough. Ship. wt., 10 to 15 oz. Galvanized steel.

Galvanized Drop Outlet

Trough	Outlet	Each
3½ In.	2 In.	18c
4 In.	2 In.	19c
5 In.	3 In.	22c
6 In.	4 In.	26c

Wire Eave Trough Hangers

84E5164—For attaching eave trough to roof. Made of heavy galvanized wire.

Size, In.	Ship. Wt.	Doz.
3½	19 oz.	25c
4	20 oz.	27c
5	26 oz.	30c
6	28 oz.	35c

Conductor Pipe Hooks

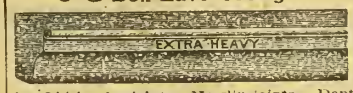
84E5168—Malleable iron, galvanized.

Size	Ship. Wt. Doz.	Dozen
2 In.	2 lbs.	$ .58
3 In.	2½ lbs.	.75
4 In.	3 lbs.	1.10
5 In.	4½ lbs.	1.50

Hinged Conductor Hooks

84E5169—To fasten corrugated conductor pipe on wood buildings. Malleable iron, tinned. Ship. wt., 2 to 5 oz.

Size, In.	2	3	4	5
Dozen	95c	$1.20	$1.65	$2.50



End Caps

84E5155—For split-joint trough, either right or left. Galv. steel. Ship. wt., 2 to 5 oz.

3½ In.	7c
4 In.	8c
5 In.	9c
6 In.	10c

O-G Box Eave Trough

184E5128—A fine finish for the eaves of the roof. Extra heavy, 26 gauge galvanized steel. In 10-ft. lengths: allow 2½ in. for joints. No slip-joints. Depth, front 5-in.; width, 3½ in. Ship. wt., 10 lbs. Per 10-foot length..... $1.25

Hangers for O-G Trough

84E5166—Length about 12 in.; width, 1 in. Heavy No. 16 gauge galvanized steel; punched for nails. Ship. wt., doz., 3½ lbs. Dozen..... 77c

Drop Outlet Tube for O-G Eave Trough

84E5157—Diam. 3 inches. Ship. wt., 10 ounces. Each..... 10c

O-G Trough Ends

84E5160—For O. G. box trough. Require soldering to trough-ends. Extra heavy No. 26 galv. steel. Ship. wt., ½ lb. Each..... 18c

O-G Eave Trough Corners

84E5161—Extra heavy No. 26 galvanized steel. Require soldering to trough ends. Depth, front, 5 in.; width, 3½ in. Ship. wt., 1 lb. Each..... 88c

Corrugated Conductor Pipe

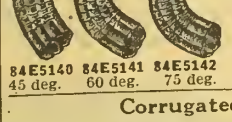
Galvanized steel, corrugated to allow for expansion and contraction and will not burst, even if full of ice.

We suggest that you use 2-inch conductor pipe with 3½ and 4-inch eave trough. Use 3-inch pipe for 5-inch trough and 4 or 5-inch pipe for 6-inch trough.

Strongly made of best galvanized steel. Allow 2½ inches on each length for joint. **Not mailable.**

Standard Gauge Conductor Pipe

184E5132—This is the grade commonly used, but for long service we recommend the extra heavy grade.



Size, in.	2	3	4	5
Ship. wt., lbs.	5	5	8	10
Per 10-ft. Length	54c	66c	89c	$1.10

Extra Heavy 26 Gauge

184E5133—Very durable conductor pipe.

Size, inches	2	3	4	5
Ship. wt., lbs.	7	8	11	12
Per 10-ft. Lgth.	72c	80c	$1.08	$1.30

Galvanized Round Corrugated Elbows

For conductor pipe.

Three different angles at same price. Made of galv. steel. (Give No. and Size.)

Size, in.	2	3	4	5
Ship. wt., oz.	6	8	11	20
Each	16c	20c	30c	70c

84E5140 45 deg. **84E5141** 60 deg. **84E5142** 75 deg.

Corrugated Shoes

84E5143—For bottom end of conductor pipe. Made of galvanized steel. **Give size.**

Size, in.	2	3	4	5
Ship. wt., oz.	7	8	14	23
Each	26c	30c	48c	96c

Wide Girth Slip Joint Eave Trough

Galvanized steel, Standard gauge, with slip joints. In 10-ft. lengths. Fits under the shingles near the eaves. Allow 2½ in. on each length for the joint.

184E5124—Right Hand.
184E5125—Left Hand.

Width of girth, 14 in. Has roll 3 in. high. Flat surface, 9 in. wide. Ship. wt., 8 lbs. Price.. $1.40

Galvanized Slip Ends

Right or left hand. Illustration shows left hand. Shipping weight, 14 to 19 ounces.

84E5158—14-Inch girth. Each..... 28c

Galvanized Spout Ends

Right or left hand. Illustration shows right hand. Ship. wt., 10 to 12 ounces.

84E5159—Girth, 14 In. Outlet, 2 In. Each..... 28c

Conductor Pipe Cut-Off

84E5174—Has safety spring to turn water from one pipe to another. Heavy galvanized steel.

Size	Ship. Wt.	Each
2 In.	1 lb.	$ .55
3 In.	1¼ lbs.	.58
4 In.	2 lbs.	.80
5 In.	2½ lbs.	1.48

Galvanized Funnel

84E5172—Size means diameter of lower outlet. Heavy galvanized steel.

Size	Ship. Wt.	Each
2 in.	12 oz.	24c
3 in.	18 oz.	30c
4 in.	20 oz.	42c

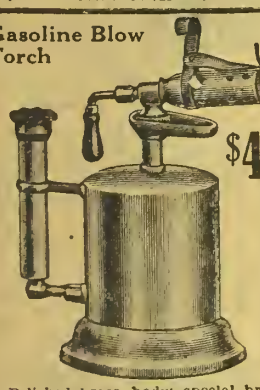
Drop Outlet Strainer

84E5170—Galv. wire. Ship. wt., 4 to 12 oz. each.

Size, In.	2	3
Each	10c	13c
Size In.	4	5
Each	20c	22c

Charcoal Rainwater Filter

Keeps your cistern clean. Removable top-strainer. Lower compartment to be filled with charcoal. A great purifier.



184E5180—For 3-in. Conductor Pipe. Diam. 12 In.; height, 30 in. Requires 15 lbs. charcoal. Ship. wt., 20 lbs. Each..... $7.35

184E5181—For 4-in. Conductor Pipe. Diam., 16 in.; height, 30 in. Requires 20 lbs. charcoal. Ship. wt., 24½ lbs. Each..... $9.35

184E5183 — Charcoal, 20-lb. bag. Price..... 65c

184E5184—Charcoal, 15-lb. bag. Price..... 45c

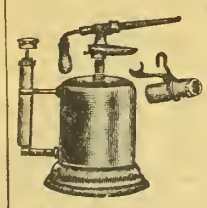
Gasoline Blow Torch

$4.50

Polished brass body; special bronze burner and improved air pump.

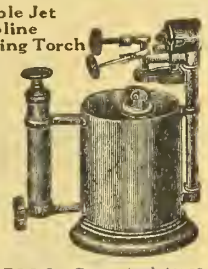
Gives intensely hot blue flame. Easily regulated and indispensable for paint burning, soldering, thawing out of pipes. Removable solder-iron holder.

84E5220—Capacity, 1 pint. Hgt., 7 in. Ship. wt., 3 lbs. Each... $4.50



84E5221—Capacity, 1 quart. Hgt., 9 in. Ship wt., 4 lbs. Each.. $5.48

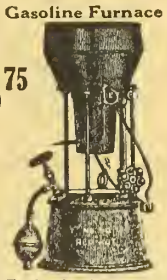
Gasoline Auto Torch



84E5224—Brass body, flat oval shape for use in narrow places. Powerful burner. Folding support on bottom prevents tipping over. Fitted with soldering iron holder. Pump is contained in the handle. Capacity, 1 pint; height over all, 9 in. Ship. wt., about 4 lbs. Each..... $6.25

Gasoline Torch and Sprayer

84E5222—Burner gives hot flame. Separate nozzle throws fine stream of gasoline for cleaning machinery, destroying bed bugs, etc. Well made and finely finished. Capacity, 1 quart. Height 9 in. Ship. wt., about 5½ pounds. Each..... $5.95



Double Jet Gasoline Brazing Torch

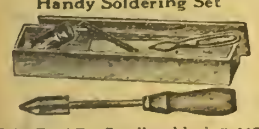
84E5226—Generates intense heat of about 3,000 degrees (Fahrenheit). Will produce large or a small, pointed flame.

Fine for brazing, tempering, etc. Capable of doing work heretofore deemed impossible with a blow torch. Made of heavy brass and bronze. Pump is in handle. Capacity of tank, 1 quart. Height over all, 9 in. Ship. wt., about 4 lbs. With directions. Each..... $8.65

Gasoline Furnace

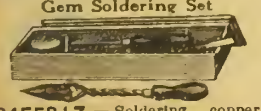
$6.75

484E5232—Produces a very hot flame. Has shield to hold melting pot. Melting pot not included. With heavy galvanized iron gasoline tank. Rubber pressure bulb. Small castings are malleable iron and brass. Burner is extra heavy copper pipe. Consumption, 1 pint of gasoline per hour. Height over all, 17¾ in. Diameter, 8¼ in. Ship. wt., abt. 10 lbs. Each..... $6.75



$10.95

Combination Gasoline Torch



484E5234—With steel gasoline tank painted. Removable hood. Burner can be swung in any position. Produces a hot flame. Will heat a pot of lead and a pair of soldering coppers at the same time. Burner is not affected by wind or weather. Well made and durable. Capacity, 3 quarts. Height over all, 12 in. Diameter, 8¼ in. Ship. wt., abt. 12 pounds. Each. $10.95

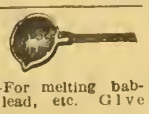
Handy Soldering Set

84E5215—Small soldering copper, scraper, box resin and piece of solder in paper box. Useful but has smaller capacity than the other sets. Ship. wt., 12 oz. Set..... 35c

Gem Soldering Set

84E5217—Soldering copper, scraper, and bar of solder and box of resin in wood box. Often pays for itself on one home repair job. Ship. wt., 1¼ lbs. Set.. 98c

Soldering Coppers



84E5208—Square points, for tinners' use. Without wood handle. Ship. wts., are 1 to 3 lbs. above actual weights. Weights given are for one copper.

Wt., ea., lbs.	¼	1	1½	2
Each	32c	38c	53c	68c

Prices subject to Market Changes.

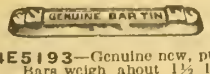
84E5209 — Wood handles. Wt., 2 oz. Each..... 4c Dozen..... 42c

Iron Melting Ladles

84E5206—For melting babbitt metals, lead, etc. Give size.

Diam. In.	3	4	5
Ship. wt. lbs.	1	1½	3
Each	22c	35c	48c

Soldering Salts



One of the cleanest and most effective soldering fluxes made. Dissolved in water, and applied with brush. Causes solder to flow readily, and insures tight joints or seams. Non-corrosive, and will not injure hands. With directions.

84E5210 — In ½-lb. bottle. Ship. wt., 1¼ lbs. Each..... 34c

84E5211 — In 1-lb. bottle. Ship. wt., 3 lbs. Each..... 58c

Bar Tin

84E5193—Genuine new, pure tin. Bars weigh about 1½ lbs. Ship. wt., 2 lbs. Bars..... 80c

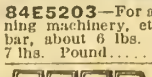
Wire Solder

84E5192—Half and half tin and lead. Diameter about ⅛ in. Ship. wt., per lb., 18 oz. Price subject to change. Pound..... 29c

Tinners' Solder

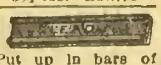
84E5190 — Made of pure tin and lead. Guaranteed 50 per cent pure tin and 50 per cent pure lead. Bars weigh about 1½ lbs. Ship. wt., 2 lbs. Price, Per bar (about 1½ lbs.) subject to change..... 39c

Genuine Babbitt Metal



84E5202—Pure tin, copper and antimony. For all classes of work. Weight, per bar, about 4¾ lbs. Ship. wt., 6 lbs. Pound..... 45c

No. 1 Babbitt Metal



84E5203—For all light, fast running machinery, etc. Weight, per bar, about 6 lbs. Ship. wt., 7 lbs. Pound..... 12c

No. 3 Babbitt Metal

84E5204—For pulleys, line shafting, etc. Wt. per bar, 5¼ lbs. Ship. wt., 6½ lbs. Lb.... 9c

Bar Lead

84E5195—Put up in bars of about 4 oz. Ship. wt., per pound, 18 oz. Pound.... 9½c

Magnolia Babbitt Metal

84E5201—Adapted to high and low speed machinery. Weight, per bar, about 6½ lbs. Ship. wt., 8 lbs. Per pound..... 29c

Lakeside Babbitt Metal

84E5200—Suitable for either light or heavy bearings—will not cut or heat journals. Weight, per bar, 5 lbs. Ship. wt., 7 lbs. Per pound..... 23c

84E5196 Plumber's Pig Lead Bars, 6½ lbs. Ship. wt., about 8 lbs. Pound..... 8c

Prices on Metals subject to market changes.

For Permanence, Use Metal Roofing and Siding

Corrugated Steel Roofing

Can be applied direct to studding or over sheathing or old shingles.
It makes an effective, economical and fire resisting cover. Especially popular for barns, garages, grain sheds, and similar out buildings. Easy to apply. A hammer and tinner's shears are the only tools needed.
Made of open hearth sheet-steel. The 1¼ inch and 2½ inch corrugated sheets are 26 inches wide and both have a covering width of 24 inches when lapped one corrugation.
The painted roofing has a coat of red mineral paint (on both sides), but should receive an additional coat after being laid. Galvanized roofing should also be painted, as this adds to its durability. When ordering by the square, be sure to add enough for the side and laps, and give length of sheets wanted.
Prices quoted are for roofing only and do not include paint or nails. Order 1 pound mineral paint and one pound 1¾-inch barbed nails for each square of roofing. Made in two thicknesses, heavy 26 gauge and Standard gauge.
A square of roofing equals 100 square feet of material. (Side and end laps not included.)

Painted Roofing 2½-inch Corrugations Sheets are 26 inches wide	Per 5-ft. Sheet	Per 6-ft. Sheet	Per 7-ft. Sheet	Per 8-ft. Sheet	Per 9-ft. Sheet	Per 10-ft. Sheet	Ship. Wt. 6 Sq.	Price Per 100 Sq. Ft.

V-Crimped Steel Roofing

Made of open hearth sheet-steel, in sheets with a V-crimp at both edges, or with crimp in center and on both edges. Can be laid over sheathing, old shingles or direct to rafters.
For any roof with a pitch of 2 inches or more to the foot. Sheets cover 24 inches after lapping one crimp over the other. Should be nailed through the wooden V-strips listed below. The roofing is painted red and should have an additional coat of mineral paint after being laid. Galvanized roofing should also be painted as this adds to its durability.

284 E 5005—Wood V-strips for V-Crimped Roofing. Requires 50 feet for a square of two-V roofing; 100 feet for three-V roofing.
Price, per 100 lineal feet..... **75c**

Prices Quoted Below Are for Roofing only.

It requires 1 pound mineral paint, 50 lineal feet wood strips and 2 pounds 1¾-inch nails for each square of 2 V-crimped roofing. One pound mineral paint 100 lineal feet strips and 2 pounds nails for each square 3 V-crimped roofing. Made in 2 thicknesses. Heavy 26-gauge and Standard gauge. Square of V-crimped roofing equals 100 square feet of material.

Beaded Steel Ceilings and Sidings

Made of annealed sheet steel, standard gauge. Painted both sides with red mineral paint. With small beads or corrugations ¾-inch deep ½-inch wide and 3 inches from center to center, running lengthwise. Width of sheets, from center to center of the outside beads, 24 inches. When ordering allow for end lap. Only supplied in 8 foot sheets.
284E5010—Per 100 square feet **$4.25**
Price for 8 foot sheet..... **.68**
Ship. wt., 69 lbs. per 100 sq. ft.
Shipped from Central Ohio or Iowa.

Sheet Zinc Roofing

Made of pure sheet zinc, resists fire, rust and weather and will last as long as the building. Zinc roofing has been extensively used in Europe for over one hundred years, and we are now able to supply you with this high quality, durable roofing material at a price but little in excess of a heavy galvanized steel roofing. It will outlast any steel or iron roofing, needs no paint, care or attention.

Corrugated Zinc Roofing

The 2½ in. corrugated roofing is 26 in. wide, and the 1¼ corrugated is 25 in. wide, and both have a covering width of 24 in. where lapped at corrugation.

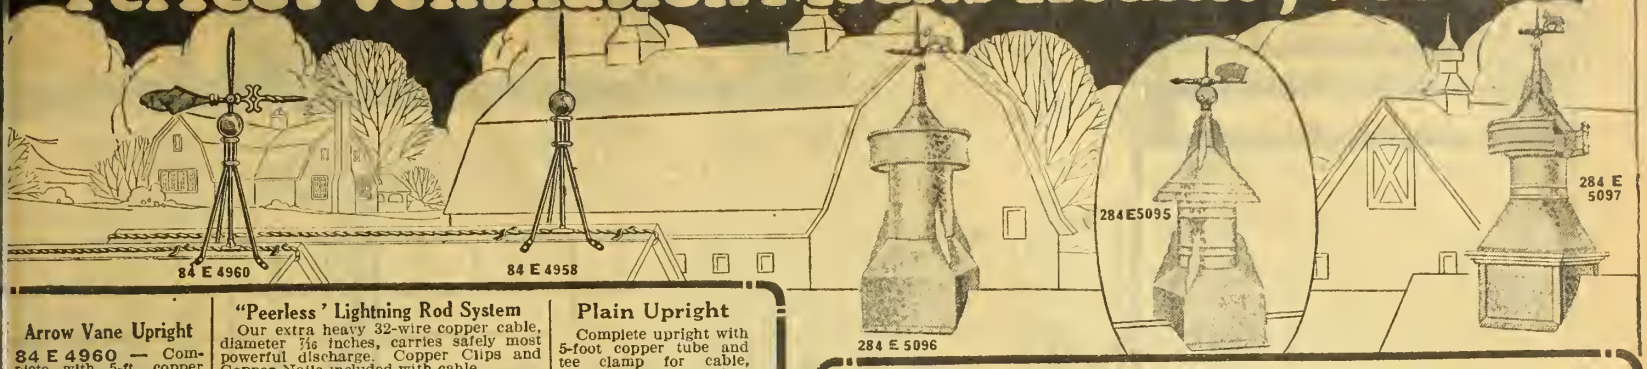
Fire Retarding Metal Ceiling



284E5100

Metal Ceilings are Fire Proof, Dust Proof, Sanitary and Economical. Adapted for use in Churches, Halls, Lodge Rooms, Theatres, Hotels, Restaurants, and Private Homes, eliminating all danger of falling plaster. They cannot crack or fall off; last a life time, and a fresh coat of paint changes entire appearance.
Metal Ceilings are easy to apply. With each order we furnish complete directions and a regular detailed drawing, showing where each piece belongs. A small amount of fitting, such as around chimneys and corners must, of course, be done by the person doing the work. Prices include wood-brackets for Cornice and Over-Head Ceiling Nails. Furring Strips not included. Painted light gray, both sides.
In ordering Metal Ceilings, be sure to send a rough pen or pencil sketch of the Room, showing size, shape, and location of off-sets, this will enable us to arrange the pattern to fit the room properly. Metal Ceilings, carefully packed for shipment, weight, about 65 lbs. per 100 sq. ft. **Shipped from Northern Illinois or Eastern Ohio.**

284E5100—Steel Ceiling, center design plate only. Per 100 sq. feet..... **$4.95**
284E5101—Cornice moulding, as shown. Per foot..... **.08**
284E5102—Mitres. (Corner sections)..... **.40**
All prices subject to change. Send sketch of your rooms and write us for complete estimate.
284E5104—Steel Ceiling, with Filler, Cornice and Mitres Complete per square of 100 sq. ft **7.25**
To arrive at the total cost of 284E5014 ceiling design for a complete job—add 18 inches to the exact length and width measurements of room before estimating square footage. This allows drop of Cornice on side wall in this design. All ceiling shipped with sufficient quantity of nails to erect. Send sketch of room showing all projections and write us for complete estimate. Ask for our Building Material catalog which contains various patterns to select from.

Perfect Ventilation Means Healthy Stock

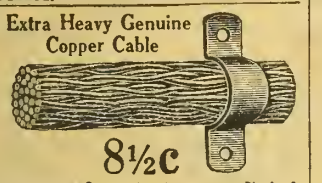
Arrow Vane Upright

84 E 4960 — Complete with 5-ft. copper tube and tee clamp for cable, silvered tip and galvanized brace. Arrow Vane and Ornamental Glass Ball — Opal, blue, ruby, silver or gold. Give color wanted. Ship. wt., about 10 lbs. **$1.95**

$2.40

Animal Vane Upright

84 E 4962—Complete with 5-foot copper tube and tee clamp for cable, silvered tip and galvanized brace. A gilt animal figure (horse, cow or rooster). State which. Give color of ornamental hall wanted. Ship. wt., about 10 lbs. **$2.40**



"Peerless" Lightning Rod System

Our extra heavy 32-wire copper cable, diameter 7/16 inches, carries safely most powerful discharge. Copper Clips and Copper Nails included with cable.

Place uprights on highest points of building beside chimneys, on top of cupolas, gables, etc., not over 20 feet apart, at least three on every building.

Tack with staple every few feet to serve as guide—then branch to everything of metal on or near roof, gutters, cornices, etc., then down on opposite end of building. Pull out string and measure, adding enough to make all bends full rounding (not sharp) and add 10 feet for each end grounded.

Extra Heavy Genuine Copper Cable

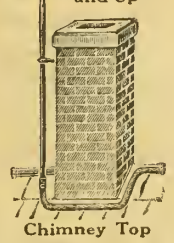
8½c

184 E 4950—Full size heavy 7/16-inch 32 strand cable. Shipping weight 25 pounds per 100 feet. Price per foot (subject to market changes) including clips and nails. **8½c**

Cable Connectors

84 E 4952—Solid Brass Prongs hook over the main cable where desired and fasten by hammering shut. Branch cable clamped by a screw Ship. wt., 3 oz. **12c**

84 E 4953—Solid brass. Two screws clamp the two ends of cable to be joined. Shipping weight, about 2 ounces. **10c**



Plain Upright

Complete upright with 5-foot copper tube and tee clamp for cable, silvered tip and galvanized brace.

84 E 4958 — With glass hall, opal, blue, ruby, silver or gold. Give color wanted. Ship. wt., about 10 lbs. **$1.50**

84 E 4959— Without ball. **1.30**

$1.25 and Up

Chimney Top

84 E 4964 — Used where 5-ft. uprights are not high enough, to reach about 1½ ft. over top. Copper tube with cable clamp and silvered tip. With eyebolt for attaching. Shipping weight, 5 pounds.

Lgth, ft.	6	8	10

84 E 2362 — Tinners' snip for cutting sheet metal, rope, wire, etc. High-grade. Blades laid with tempered cutlery steel. Forged steel, japanned handles. Size cut, 3 in. Lgth. 12 in. Ship. wt., 2 lbs. **$1.84**

Size cut, 3½ in. Length, 14 inches. Shipping wt., 4 lbs. **$2.19**

Burglar and Fireproof Strong Steel Safes

Strong, Scientific Construction

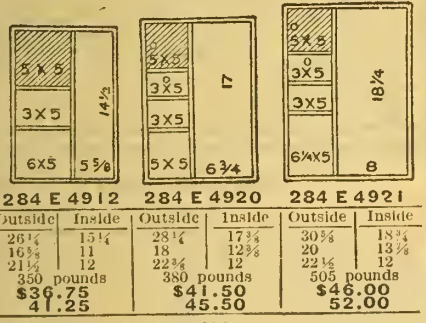
The walls of our Safes are made of one continuous heavy steel plate, electrically welded to heavy steel front and back. This gives remarkable strength as well as attractive appearance, and eliminates separate angles and easily-broken rivets.

Front doors are massive and strong. Heavy hinges, with nickeled tips. Secure bolts and tenon and groove arrangement hold the door securely even if hinges are knocked off.

Non-pickable Yale Combination Lock on door, which practically eliminates the chance of any one not knowing the combination, from gaining entrance. Cabinet work and drawers are genuine oak, nicely finished.

Fireproof Steel Safes

A special cement filling between the walls solidifies them and makes them fire-resisting. Many of our safes have gone through very severe fires with contents in perfect condition.



Safes are shipped fresh and bright, direct from factory, and are finished and decorated after order is received. This usually causes a delay of 15 to 30 days, but shipment is made at the earliest possible moment. We guarantee delivery in perfect condition and we can furnish many testimonials on request.

NOTE: We put your name on safe in gold letters without extra charge when so ordered. (Our name does not appear.)

Prices subject to change.

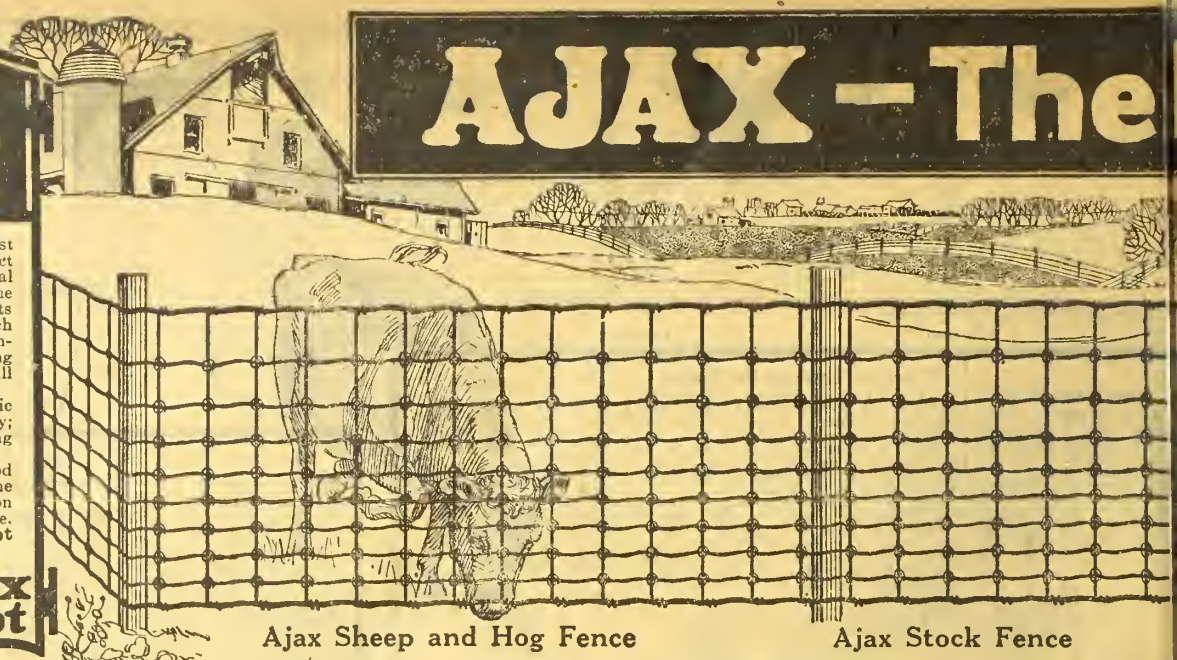
Metal Lath—Fireproof

Expanded Metal Lath for interior or exterior work; holds mortar or plaster secure. Made of 26 Gauge steel, painted; sheets 27 inches wide and 8 feet long, thus permitting the use of either 12 inch or 16 inch spacing of joint.

Cracking or failing of plaster is usually due to the expansion or contraction of wood lath, which breaks the key or some of the plaster covering, permitting it to crack and fall. Metal lath absorbs no moisture from the first wet plaster hence does not swell then dry out and later on draw away from the plaster. Metal lath walls and ceilings dry out quickly and evenly and there is no moisture from the metal to stain the plaster, or no slightly alternating light and dark streaks such as are so often noticeable when wood lath is used. Furthermore, the decoration can be applied directly to the finished coat of plaster doing away with the necessity of leaving it in an unfinished state for weeks or even months as was formally considered necessary. Metal lath is equally satisfactory for exterior plastering or stucco work, or for interior work, such as walls, ceilings, partitions, stairs and elevator enclosures. It is easily formed around openings, corners or angles, or bent to any desired shape without breaking the strands.



One sheet contains 18 square feet — (Price subject to market changes.)

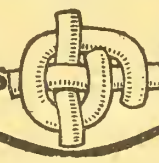
AJAX—The

Wire Sizes



HERE is a fence which will stand the test of time and which is giving perfect satisfaction on thousands of farms. The real cost of fencing is not the first cost. It is the cost per year of service. The expense for posts and labor is the same whether you stretch a light weight inferior fence, or a good substantial one like our Ajax. Our Heavy Ajax Fencing lasts longer than ordinary fencing and it will give you superior service.

The wire in our Ajax Fence is made of basic open hearth steel, is hard, tough, and springy; of a temper and quality best suited for making a high-grade, durable fence.

All wires are heavily galvanized with a good coating of zinc spelter, to prevent rust. The line wires are crimped, to allow for expansion or contraction due to changes in temperature.

Supplied in full bales only. We cannot cut bales.

The Famous Ajax Knot

Ajax Sheep and Hog Fence

20-In. 24c per rod

Height, 20 inches, with six line wires. Top and bottom wires, heavy Number 9½ gauge; stays and intermediate line wires, Number 12½ gauge. Galvanized tough steel wire. Spaced 3-inch mesh at the bottom, gradually widening to 5 inches at the top.

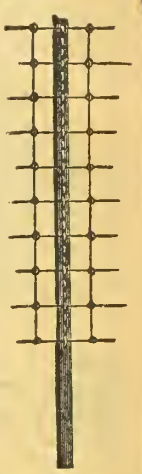
Steel Fence Posts

Can be easily moved from field to field

Heavy all steel fence posts, made of angle steel, size 1½x1½x⅛ inches thick. Total length, 7 feet.

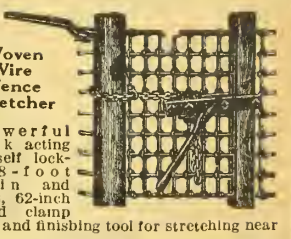


They can be quickly driven into any kind of soil, and can be taken out just as quickly when you relay your fields or pastures. No staples are required, as there are hooks or prongs punched out of the steel upon which the wire rests.

These hooks are close together so as to take woven wire fencing of any size mesh, and suitable for fencing any height up to 60 inches.

Painted with weather - resisting black paint. Approximate weight, each 9 pounds.

284 E 5410— **39c**



Shipped from Factory in Northern Illinois with Ajax Fencing.

Wire Grip

84 E 5476— Can be attached to any wire-stretcher. For smooth or barbed wire. Heavy cast iron. Shipping weight, 1 pound. **39c**

Woven Wire Fence Stretcher

Powerful quick acting and self locking 8-foot chain and hooks, 62-inch wood clamp bars, and combination crank and finishing tool for stretching near the last post.

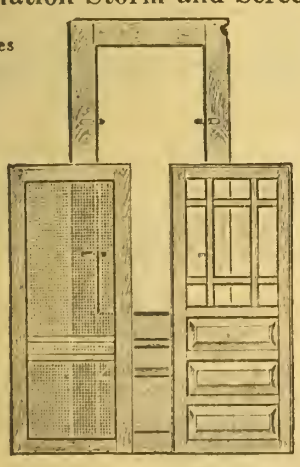
184 E 5482—Single stretcher. Shipping weight, 38 pounds. **$5.75**

184 E 5483—Double stretcher, with two chains, tighteners and crank. Shipping weight, 70 pounds. Set..... **$9.95**

Tackle Block Wire Stretcher

84 E 5470—For smooth or barbed wire, and woven wire fencing. Self-locking at any point. Malleable iron. Makes a good tackle block or rope hoist, lifting 500 pounds. Complete, with about 15 feet of ⅜-inch rope. Shipping weight, 5 pounds. **98c**

Fence Finishing Tool



84 E 5478 Easily stretches line wires around last post, which is always a difficult part of fence to staple. Made of malleable iron. Japanned finish. Length, 19½ inches. Shipping weight, 3 pounds. **95c**

Combination Storm and Screen Door

ne Door Frame Serves the Purpose of Two Door Frames

No need to do the onblesome work of moving the screen or in the fall and atching the storm door. his combination does way with all the work putting unnecessary rew holes in the reh twice a year—ecause it is the "Perauent" door. By erely taking out the movable screen and tting in the sash you ve changed it from a reen to a storm door. Held firmly in place y a patent metal lock, uickly and easily adsted with a screwriver.

$8.75

Costs little—is long lasting, the door once adjusted stays fitted and doesn't have to be planed down or readjusted twice a year. Removable panels fit flush with door frame. Either door for you in a moment or two.

Door frame is made of selected white pine 1⅛ inches thick, sanded and smoothed.

No amount of jarring can loosen the screen or storm sash. Just as solid as if built in. Plain white finish. Screen panel wired with fine 14 mesh galvanized wire cloth. Storm sash glazed with strong clear glass.

For Complete Outfit

Indispensable for Garages, Blacksmiths, Sheet Metal Workers, Plumbers, Electricians, Saw Mills, Factories, and Farmers who do their own repairing.

Anyone, with little practice, can accomplish results that seem marvelous. Follow the instruction book furnished with each outfit. It takes only a few minutes for ordinary jobs.

Lakeside Oxy-Acetylene Welding Outfits are the most practical and improved upon the market—with one you can weld the most delicate or the heaviest pieces of Iron, Steel, Brass, Aluminum, or in fact any metal that melts. You can also remove Carbon from a 6-cylinder car in a few minutes.

A Cutting Tip Number 184E6652 can be provided that will cut steel up to 3½ inches in thickness—all that is necessary is to remove the welding tip, place the cutting tip in the torch, increasing your oxygen pressure to 75 or 80 pounds, leaving your acetylene pressure the same as for welding.

Lakeside Acetylene Outfit

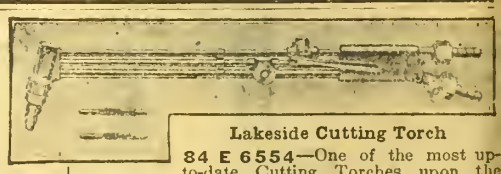
Any ordinary workman, after reading the instructions furnished with the outfit, can go to work in a very short time. Large profits are made from welding for others.

184 E 6550—This outfit contains: 1 Lakeside Welding Torch with six tips. This Welding Torch has been passed upon by the Underwriters; it is a non-flash torch made of heavy brass.

1 Carbon Removing Torch
1 Safety Torch Lighter
1 Number 30 Safety Front Oxygen Regulator, with one 3000-pound U. S. Gauge, regular cubic feet and one 300-pound U. S. gauge
1 Number 35 Acetylene Regulator, equipped with one 300-pound U. S. Gauge and one 50-pound U. S. Gauge
1 Length of 5-ply Oxygen Hose, 12½ feet
1 Length of 5-ply Acetylene Hose, 12½ feet
4 Hose Clamps
1 Pair Welding Goggles
1 Instruction Book
1 Adapter
8 Cast Iron Rods
3 Brass Rods
3 Aluminum Rods
10 Steel Rods
1 Pound Cast Iron Flux
1 Pound Brass Flux
1 Pound Aluminum Flux

Price, per complete outfit in wooden box..... **$49.00**

Torch and safety torch lighter; 1 Oxygen Regulator with 50-pound gauge; 1 Acetylene Regulator with 50-pound gauge; 2 10-foot lengths of hose and hose connections; 1 pair of welding goggles; 1 instruction book.



Adapter, hose, clamps, rods and flux, same as in outfit 184E6550.

84 E 6551—Outfit, complete..... **$39.00**

Packed in a box—shipping weight, 30 pounds.

84 E 6551—A Welding and Carbon-burning Outfit that will do anything that can be done with any outfit, except that the oxygen and acetylene regulators have only one gauge upon them, the gauge giving the welding pressure only and does not compute the gas.

1 Lakeside Welding Torch with 5 welding tips; 1 Carbon-burning

Lakeside Cutting Torch

84 E 6554—One of the most up-to-date Cutting Torches upon the market, cutting from the lightest steel up to 8 inches in thickness and can be attached to any make of Welding Equipment. Lakeside Cutting Torch with 3-copper cutting tips. Packed in a box. Shipping weight, 6 pounds. Each..... **$21.50**

Lakeside Cutting Tip

184 E 6552 — Cutting Tip for above outfit will cut steel up to 3½ inches. Each..... **$4.50**

Forges, Blowers and Blacksmiths' Tools

$7.95 Lever Forge

184E6500—Champion No. 150. For farm and plantation use. Round cast iron hearth. Diam., 18 in. Depth, 3¼ in. The ratchet lever motion is simple and positive. Diam., fan case, 8 in. Four braced steel pipe legs. Sheet steel shield. Total height, about 41 in. Ship. wt., about 82 lbs. **$7.95**

New Blacksmiths' Forge $10.45

184E6504— Needed on every farm and in repair shop. Produces strong blast and is exactly what you need for all ordinary repair work. Nicely painted.

Heavy iron hearth, diam., 18 in. Four braced tubular steel legs. Direct geared fan. Operated by turning large gear wheel with handle. No clutch to slip or get out of order. Fan case, diam., 7 in. Total ht. of forge, 54 in. Ship. wt., 80 lbs. **$10.45**

Blacksmiths' Midway Heavy Geared Forge

Heavy Cast Iron Hearth

$47.25

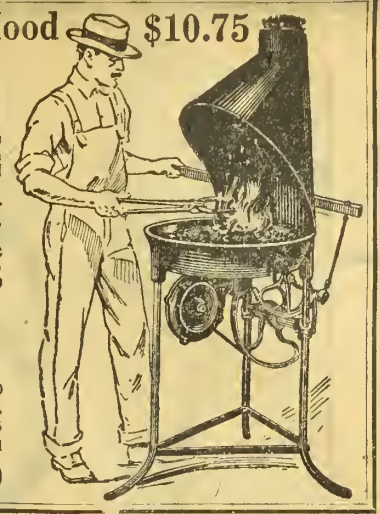
Champion Number 71. For general blacksmithing. Roomy, extra heavy cast iron oblong hearth—specially shaped to take plow shares, etc. Size, 32x45 inches. Depth, 3¾ inches. With tool rest. Coal box cast into hearth; inside measurement, 24x9x5 inches deep. Heavy, adjustable-blast tuyere iron Powerful, smooth running spiral geared blower with adjustable crank. Diameter fan case, 12 inches. Strong, open hood. Four steel pipe legs. Total height, about 64 inches. Nicely painted.

184 E 6527—With water tank, as illustrated. Inside measurement, 24x9x6½ inches deep. Shipping weight, about 380 pounds. **$47.25**

184 E 6526—Without water tank. Shipping weight, about 350 pounds..... **$42.85**

$41.90 Geared Heavy Forge

Heavy Cast Iron Hearth



Blacksmiths' Lancaster Geared Heavy Forge

Champion Number 41. For general blacksmithing. Roomy, cast iron oblong hearth—specially shaped to take plow shares or other large work. Size, 32x45 inches. Depth, 3 inches. With toolrest. Coal box cast into hearth; inside measurement, 24x9x5 inches deep. Heavy, adjustable-blast tuyere iron. Powerful plain geared blower, with adjustable crank. Diameter, fan case, 12 inches. Has strong, open hood. Four steel pipe legs. Total height, about 64 inches. Nicely painted.

184 E 6524—With water tank, as illustrated. Inside measurement, 24x9x6½ inches deep. Shipping weight, about 330 pounds. **$41.90**

184 E 6525—Without water tank. Shipping weight, about 300 pounds. Price, each shipped from Stock at Chicago **$37.50**

Blacksmith Forge With Hood $10.75

A strong, compact, well constructed forge. Will enable you to do all ordinary farm blacksmith work. Heavy cast iron hearth. Diameter, 22 in.; depth 3½ in. The heaviest and most substantial farmers' forge of this type that is built.

The ratchet lever motion is positive, never slips and produces a strong blast with only a slow motion of the lever. Diameter of fan case, 9 in. Three steel pipe legs, securely braced. Nicely painted.

The hood can be connected with a stove pipe making the forge suitable for indoor use. Ship. wt., about 105 pounds.

184E6502—Champion No. 101. With sheet steel hood. Total height, about 54 in. **$10.75**

$9.80 With Shield

184E6503—Champion No. 100 with sheet steel shield. Total height, about 41 in. Ship. wt., about 95 lbs. Excellent for repair work and a big bargain at our price. **$9.80**

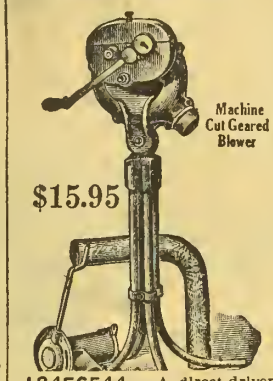
Lancaster Geared Forge

$25.95

184E6520—Champion No. 43. Hearth, size, 23x36 in. Depth, 3¼ in. Crank can be turned either direction. Diam., fan case, 10 in. Strong sheet steel hood. Four steel pipe legs. Total ht., about 55 in. Nicely painted. **$25.95**
Ship. wt., about 180 lbs.

184E6521—Same as above, but sheet steel shield, instead of hood. Ship. wt., about 170 pounds..... **$23.75**

Famous Champion 400 Blower



Phosphor Bronze Spiral Gears

$28.75

184E6540—Highest grade of workmanship and material. Phosphor bronze spiral gear on tool steel shaft, meshes 8 full teeth continuously which forever makes lost motion or noise impossible. Ball bearing throughout. Crank turns either direction. Diameter of fan case 12 inches. Shipping weight, 110 pounds. Complete with famous Whirlwind Tuyere Iron and Piping as illustrated. Height, 47½ inches. **$28.75**

Lancaster Geared Blower

Machine Cut Geared Blower

$15.95

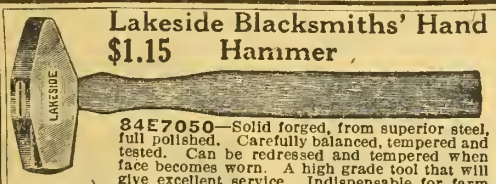
184E6544 — A direct-driven low-priced blower with extra large cut gears. End thrust ball bearing on spindle. Crank can be turned in either direction. Adjustable head. Diameter of fan case 12 inches, with tuyere iron and pipe as illustrated. Height, about 46 inches. Shipping weight, 116 pounds. **$15.95**

Midway Geared Blower

$22.75

184 E 6542 — Champion's Midway Blower has a helical spiral gearing, ball bearings on high speed shaft. Other bearings are bushed. Crank can be turned in either direction. Diameter of fan case 12 inches, with heavy 50-pound Nest Ball Tuyere Iron and Piping as illustrated. Height, about 46 inches. Shipping weight, 168 pounds. **$22.75**

Lancaster Geared Forge



Round Hearth

$19.90

184E6514—Champion No. 46. Recommended for farmers' use. Cast iron round hearth. Diameter, 22 in. Depth, 3½ in. A strong, light running forge. Diameter fan case, 10 in. Sheet steel hood. Total height, about 53 in. Nicely painted. Ship. wt. about 130 lbs. Price each **$19.90**

184E6515—Same as above, but with sheet steel shield, instead of hood. Ship. wt. about 120 lbs. Each **$18.90**

Lakeside Blacksmiths' Hand Hammer $1.15

84E7050—Solid forged, from superior steel, full polished. Carefully balanced, tempered and tested. Can be redressed and tempered when face becomes worn. A high grade tool that will give excellent service. Indispensable for farm and shop use. With second growth hickory handle. Ship. wts., 3 to 4½ lbs. (Give size.)

Champion Post Drills for Heavy Work

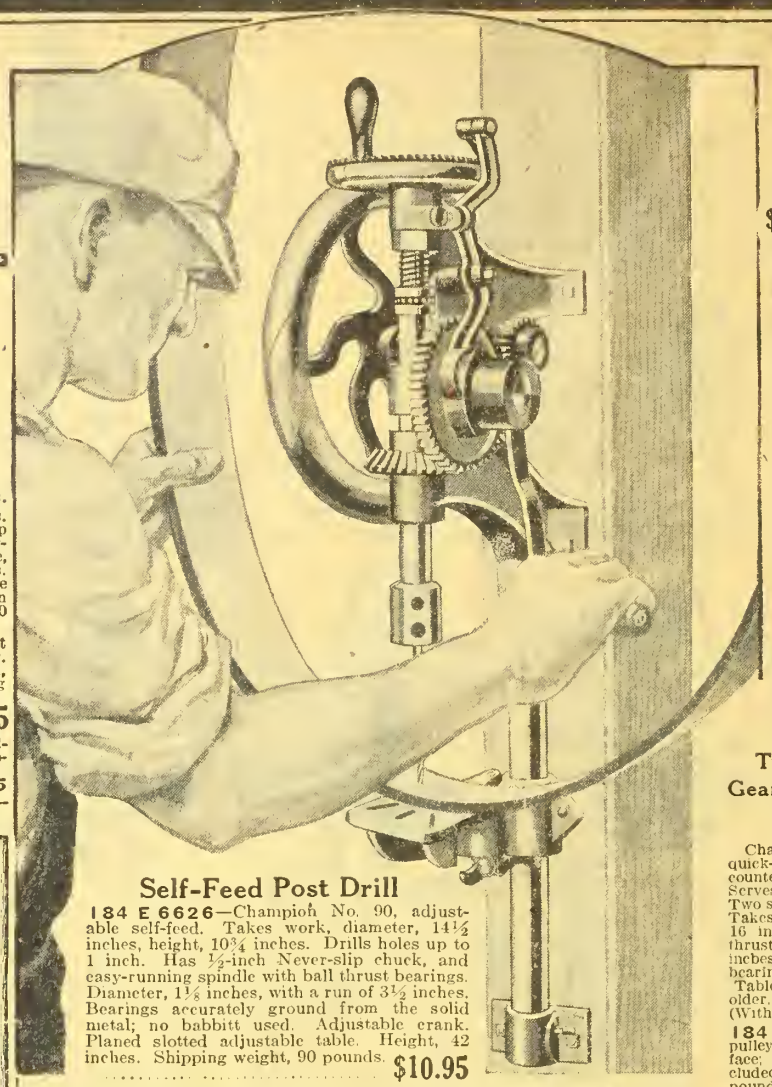
Self-Feed Post Drill

Champion No. B. B. Adj. Self-feed and two speeds; takes work, diameter 16 inch; height, 9 inches. Drills holes up to 1¼ inches. Has ½-inch Never-slip chuck.

Ball thrust bearing. Spindle diameter, 1⅛ inches. Run, 3 inches. All bearings ground from solid metal. Smooth gears. Adjustable slotted table. Mounted on heavy board. Height, 46 inches.

184 E 6630 — (Hand crank adjustable (no pulleys). Shipping weight, 117 pounds. **$16.75**

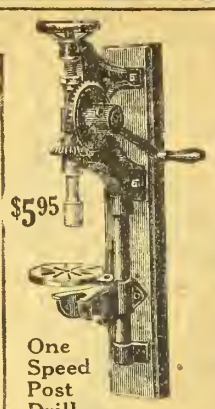
184 E 6631—Tight and loose pulleys. Size 6x2 inch face. Speed 250 r. p. m. Shipping weight, 127 pounds. **$20.75**



Quick-Return Self-Feed Post Drill

Champion No. 97, Self feed and Wheel hand feed for raising or lowering drill bit. Two speeds. Takes work, diameter 16½ inches, height, 13¼ inches.

Drills holes 1½ inches. Has ½-inch Never-slip chuck. Ball thrust bearing. Diameter, spindle, 1⅛ inches; run, 5½ inches. Smooth gears. Adjustable slotted table. Mounted on heavy board, height, 50 inches.



184 E 6638—Tight and loose pulleys for power. Size 6x2 inch face. Speed, 250 r. p. m. Shipping weight, 180 pounds. **$28.25**

184 E 6639—Crank adjustable (no pulleys). Shipping weight, 170 pounds. **$25.85**

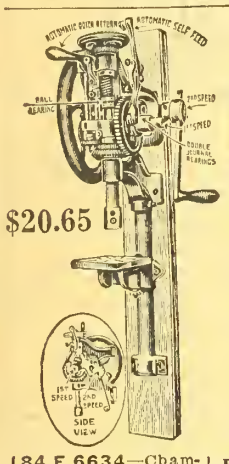
Self-Feed Post Drill

184 E 6626—Champion No. 90, adjustable self-feed. Takes work, diameter, 14¼ inches, height, 10¾ inches. Drills holes up to 1 inch. Has ½-inch Never-slip chuck, and easy-running spindle with ball thrust bearings. Diameter, 1⅛ inches, with a run of 3½ inches. Bearings accurately ground from the solid metal; no babbitt used. Adjustable crank. Planed slotted adjustable table. Height, 42 inches. Shipping weight, 90 pounds. **$10.95**

$5.95

One Speed Post Drill

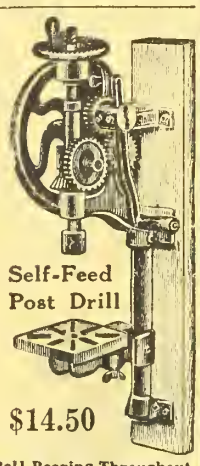
184E6622 — Champion No. 92. Hand feed Drill. Takes work, diam., 12 in.; height, 8¼ in. Drills holes up to ¾ in. Has ½-in. Never-slip chuck. Spindle has ball thrust bearing. Diam. ⅞ in., with a run of 3 in. All bearings are accurately ground from the solid metal (no babbitt used), and need no adjustment. Adj. crank, smooth gears. Slotted adjustable table. Mounted on heavy board. Ht., 36 in. Ship. wt., 55 lbs. **$5.95**



Self-Feed Post Drill

184 E 6628

Champion 102 drill. Takes work up to 12 inches diameter, 8 inches high.



Spindle is ball bearing with up and down run of 3 inches. Automatic self-feed. Never-slip chuck holds drill with regular ½-inch round shanks. Bearings ground from solid metal. Smooth gears. Adjustable crank. Adjustable slotted table. Drill is mounted on heavy board. Height, 34 inches. Shipping weight, 65 pounds. **$8.35**

$20.65

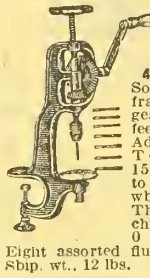
184 E 6634—Champion No. 96. Adjustable self-feed, and very convenient Quick Return attachment which draws bit out of hole to the desired height and then unshifts. Two speeds: ratios, 1.53 to 1. and .53 to 1.

Takes work, diameter 15 inches; height, 9 inches. Drills holes up to 1¼ inches. Has ½-inch Never-slip chuck. Spindle has easy-running, ball thrust-bearing. Diameter 1⅛ inches run, 2¼ inches. Bearings ground from solid metal. Smooth gears. Adjustable crank. Adjustable, slotted table. Mounted on heavy board. (Without drills.) Total height, 46 inches. Shipping weight, 126 pounds. **$20.65**

Self-Feed Post Drill

$14.50

Ball Bearing Throughout



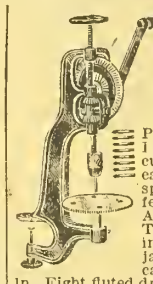
184E6620— Champion two-speed, self feed post drill. Takes work, diam., 15 in. Ht., 10½ in.

Drills holes up to 1¼ in. Has ½-in., Never-slip chuck. Spindle easy-running, ball thrust-bearing. Diam., 1⅛ in.; run, 3½ in. Bearings ground from solid metal. Smooth gears. Adj. crank. Adjustable slotted table. Mounted on heavy board. Ship. wt., 110 lbs. **$14.50**

Millers Falls Drill Press

184E6674— Double gears, extension handle, three-jawed chuck, taking round shank drills up to ½ in. Bench clamp vise rest and frame all clamped to main standard, and fully adjustable. Total height, about 24 in. Vise hung off center so as to give variety of positions. Ship. wt., 28 lbs. **$12.45**

Bench Drill



484E6664

Solid iron frame, cut gear, steel feed screw. Adj. table. Total ht., 15 in.; table to feed wheel, 13 in. Three-jawed chuck, cap., 0 to ¼ in.

Eight assorted fluted drills. Ship. wt., 12 lbs. **$5.95**

84E6665

Drill Vise. Used in place of table. Jaws open 1⅜ in. Ship. wt., 2 lbs. **$1.65**

Bench Drill

484E6662

Goodell-Pratt drill. Iron frame, cut gears, two easily shifted speeds. Steel feed screw, Adj. table. Total ht., 18 in. Three-jawed chuck, cap., 0 to ⅜ in. Eight fluted drill bits. Ship. wt., 18 lbs. **$8.95**

84E6663

Drill Vise. Used in place of table. Jaws open 2 in. Ship. wt. 4½ lbs. **$2.40**

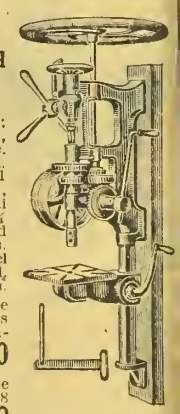
Champion Bench Drill

184 E 6675

Sensitive drill for light and rapid drilling. Belt driven. Cone pulleys for two speeds. Belt shifter. Adjustable spindle stop.

End thrust ball-bearing. 3 jawed chuck holds drills up to ⅜ in. Tight and loose pulley, 4x1½ in. Table, 8 in. diameter. Speed of drive pulley 550 r.p.m. Height, 27½ in. Ship. wt., 75 lbs. **$25.75**

Blacksmiths' Bench Drill



184 E 6650—

Heavy iron frame, with steel spindle and chuck for square shank bit stock drills. Length, 26 inches; height, 7¾ inches. Shipping weight, 22 pounds. **$2.45**

(For suitable drill bits see No. 84E1050 on page 799 of this book).

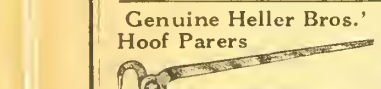
Two Speeds by Sliding Gears Combined Lever and Self-Feed

Champion No. 7 Imp. Adj. Self-feed; quick-acting, lever feed for reaming, counter-sinking, wood boring, etc. Serves also as quick-return for drill. Two speeds, ratios, 2.4 to 1 and 8 to 1. Takes work, diameter 21 inches; height, 16 inches. Has ⅝-inch chuck. Ball thrust bearing. Diameter, spindle, 1¼ inches; run, 5¼ inches. Solid ground bearings. Machine cut, covered gears. Table has quick-acting rack with wheel older. Mounted on heavy board, (Without drills) Total height, 69 inches.

184 E 6644—With tight and loose pulleys for power. Size, 11x2½ inches face; speed, 80 R. P. M. Crank included. Shipping weight, 350 pounds. **$49.90**

184 E 6645 — With adjustable crank; no pulleys Shipping weight, 328 pounds. **$44.90**

Set of Drill Bits **84 E 1058**—Made with ½-inch round shank, milled flat on one side. Fit post drills shown on this page. Will drill metal or wood. Sizes, ¼, 5/16, ⅜, ½ inches. Weight, 12 ounces. Genuine Cleveland Twist Drill Cos. Per set of four. **$2.15**



Hoof or Cutting Nippers

84E7008—Made of forged steel, finely finished. Jaws highly tempered and intended for cutting only. Should not be used for prying or twisting. Ship. wts., 1¾ to 3 pounds.

Lgtb., 10 in. **$1.38**
Lgth., 12 in. **1.75**
Lgth., 14 in. **2.05**

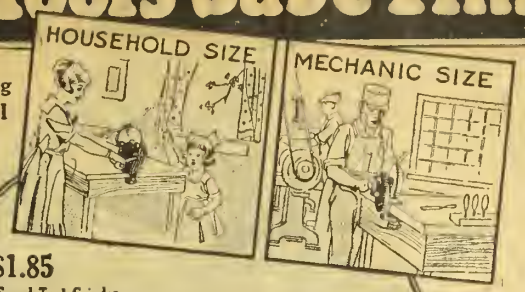
Well Sharpened Tools Save Time and Labor

13.75

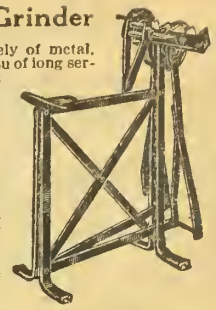
Steel Frame Power Grindstone

84 E 6785 — A substantial machine with Steel Frame, easy running Ball Bearings and heavy Galv. Iron Pan, or trough. Has steel shaft with pulley. Size of pulley, 6 inches by 3 inches. Best grade Ohio grindstone. Smooth, even grit. Diameter, about 22 inches and 2½ inches thick. An excellent grinder for the farm or shop. Shipping weight, about 170 pounds. **$13.75**



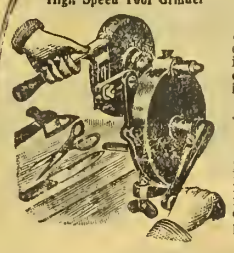
Bronze Bearing Tubular Steel Grindstone

$7.95



For All General Sharpening

184 E 6781—Heavy Steel Tubular Frame. Legs are firmly braced and clamped to main brackets at top. Has hard bronze self-aligning bearings with oil cups. Bearings run easily and smoothly. Fitted with a smooth, Ohio grindstone, diameter, about 20 inches; thickness, 2 inches. Shipping weight about 100 pounds. **$7.95**



Sickle and Tool Grinder

184 E 6691—Made entirely of metal, bolted and trussed, assuring you of long service. This grinder has spiral cut gears (like a fine cream separator), and is designed for all classes of grinding on farm tools. Has steel pinions and a shaft with full allowance for adjustment. Equipment includes a 3½x3½ sickle cone and one medium grit corundum tool wheel size 5x1⅝ inches; also one sickle holder attachment and adjustable work rest. An exceptionally fast cutting grinder. Shipping weight, 55 pounds. **$12.50**

$1.85

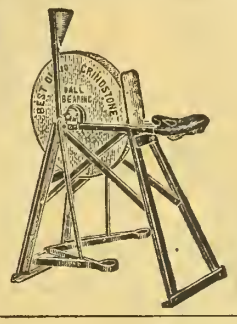
High Speed Tool Grinder

Household Size

484 E 6680—Puts keen edge on knives, scissors, etc. Will fit into drawer or cupboard. Clamp on table or sink. Wheel, 4x⅞ inch. Shipping wt., 5 lbs. **$1.85**

Mechanic Size

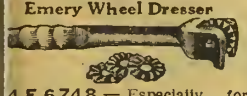
484 E 6681—Will fit handily into tool chest, but is big enough for all tool-grinding required by mechanic who goes out on the job. Grinding wheel, 5x1 inch. Shipping weight, 6½ pounds. **$2.65**



Shop or Garage Size

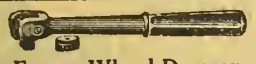
484 E 6682—For work bench in repair shop or private garage. Mechanics like it for sharpening their tools. Grinding wheel, 6x1 inch. Shipping weight, 10 pounds. **$3.85**

Factory Size



484 E 6683—A big, powerful grinder for Machine Shops, Lumber Camps, Ranches, etc. Large, yet smooth-running; heaviest grinding is easily handled. Grinding wheel, 7x1 inch. Shipping weight, 13½ pounds. **$4.95**

Easy Running Ball Bearing Steel Frame Grindstone



184 E 6780—Steel Frame Grindstone with easy running Ball-Bearings. Fitted with a smooth, even grit, best quality Ohio grindstone. Frame is made of angle Steel, strong and rigid, with comfortable steel seat all neatly painted. Diameter of stone, about 20 in.; thickness, 2 inches. Shipping weight about 90 pounds.
Each **$5.95**

Emery Wheel Dresser

4 E 6748 — Especially for large wheels or grindstones. Diam. cutters, 1½ in. Ship. wt., 2 lbs. With two sets of cutters. Set **80c**

4E6749—Extra cutters. Ship. wt., 2 oz. Set **10c**

Emery Wheel Dresser

84 E 6745—Shipping weight, 2 pounds. With two sets of cutters. Set **55c**

84 E 6746—Extra Cutters. Shipping weight, dozen sets, 1¾ pounds. Set, 7c; dozen sets **75c**

Lakeside Emery Corundum Wheels

Made from best grades of pure corundum and emery.

Note.—Give diameter, thickness, size of hole, shape of face and purpose or class of work. We will select the wheel best adapted for your work.

84 E 8510—Square face wheels. **Shipped from Stock at Chicago Store.**

284 E 8512—Round face wheels. **Shipped from Factory in Northern Illinois. Give size hole wanted.**

Madison, Indiana.

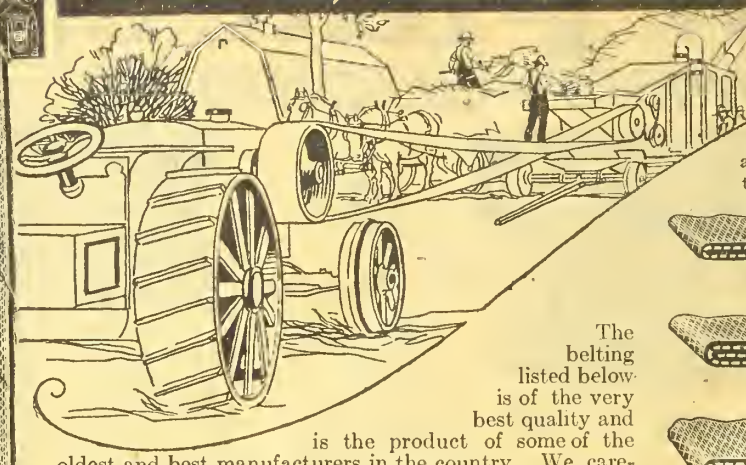
Gentlemen:

The "Lakeside" Saw is one of the best I ever had. I have used six other standard makes but the Lakeside beats them all.

Yours very truly,

C. J. Gaskill.

Letter printed by customer's permission.



Steel Wire Flue Brush

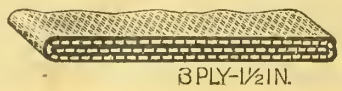
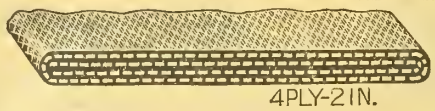
Canvas, Rubber and Leather Belting

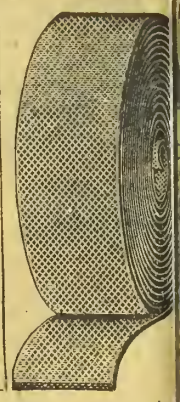




The belting listed below is of the very best quality and is the product of some of the oldest and best manufacturers in the country. We carefully guard the quality and workmanship, and we know it will give you perfect satisfaction.

How to Order Special Endless Belt

Any special length belts not listed here are made to order only and require two or three weeks to make at the factory. Include the price of seven feet of the belt for the cost of making the lap. For example, if you want an endless belt 100 feet long, send money enough for 107 feet. Be sure and give the net length of belt you want, after being made endless, and allow price of 7 feet extra for making the lap. Use the following order numbers:



384 E 7687—Endless Rubber Belts. Made in Extra Standard grade and "Redman" brands only.

384 E 7693—Endless Canvas Belts. Made in four or six ply. See 184E7700 and 184E7702 for stock lengths. Special Endless Belts are shipped from Illinois Factory.

Red Friction Surface Rubber Belting

Our "Red-Man" brand is the very highest grade of rubber belting Use this belt for heavy duty, high speeds and on small diameter pulleys and you will get longer, better and more economical service than from any other kind of belting. The belting is red in color to distinguish it from ordinary belting and is sold with our full guarantee to give entire satisfaction under the most severe usage. It is constructed of a tough and closely woven cotton Duck, with a high grade friction between the plies and a friction surface which absolutely takes hold of the pulleys with a full contact from edge to edge. The friction compound is forced into the fabric under great pressure, the plies will not separate, and all the undesirable stretch is taken out of the belt.

84E7694—Four-ply.

Leather Belting

Standard Grade is a good medium quality. Will give good satisfaction. For ordinary mill, factory and farm machinery.

Extra Standard Grade is made from selected, short lap, oak tanned stock, cut from the center of the hide. Recommended for thresher belts, high-speed pulleys, and for hard factory or mill usage.

If belts are wanted, endless, state actual length of belt wanted after spliced, and allow price of 3 ft. of belt extra for lap and labor of splicing.

Notice—In very damp or wet places, use rubber or stitched canvas belting.

Red Stitched Canvas Belting

High Grade—Full Weight

Our Stitched Canvas Belting is unaffected by atmospheric changes, uninjured by water or steam, and may be subjected to a degree of heat that would be ruinous to other kinds of belting. It is therefore the best belting for outdoor use and for damp or hot places. Made of long fibre cotton duck, carefully and closely stitched. Thoroughly stretched and inspected. Thoroughly saturated in oil, which makes it permanently water-proof and flexible. Covered with a special red paint which gives the belt an excellent, non-slipping surface. Always remains flexible in hot or cold weather.

84E7690—Four Ply Belting.

Endless Canvas Thresher Belts

Made in the same manner as our Red stitched canvas belting. Especially adapted for threshers, saw mills, stone crushers, and similar severe uses. It requires three feet to make the lap, therefore, each belt will measure just three feet short. For example, the actual net length of a 100-ft. belt will be 97 ft. We carry in stock for prompt shipment, the following standard lengths and sizes.

184E7700—Four-ply Belts.

Ship wt., per foot; 6 in., 11 oz.; 7 in., 12 oz.; 8 in , 14 oz.

Line Shaft Outfit

Our Universal Line Shaft Outfit will transmit 2½ H. P., and will drive your cream separator, churn, pump jack and washing machine independent of each other, or all together, at the proper rates of speed, without changing the speed of your engine. With this speed governing line shaft outfit you can run several light machines at various speeds from the same engine or motor. A turn of the hand wheel will stop the shaft while the engine continues running. A turn of the hand wheel in the reverse direction will start the shaft and it will pick up speed gradually.

Each outfit consists of shaft, 1 in. in diameter, speed governor with 9x6 drive pulley; one 4x3; one 6x2½; and one 8x2½ in. pulley; all mounted on a substantial 2-in. plank and supported by three hangers. Grease cups provide lubrication. Shaft can be driven at a speed of from 200 to 300 r. p. m. Speed of pulleys can be varied from 50 to 300 r. p. m. No belt is included in the price.

Shipped from Factory in Iowa.

284E7600—6-ft. Line Shaft Outfit as above described. Shipping weight, about 110 lbs. **$21.85**

284E7601—8-ft. Line Shaft Outfit as above described. Shipping weight, about 115 lbs. **22.55**

284E7602—12-ft. Line Shaft Outfit as above described. Shipping weight, about 125 lbs. **28.15**

Full Finished Cast Iron Pulleys

Keys listed are known as Belt Pulleys. Furnished key seats or set screws as ordered. Unless otherwise ordered. Will be furnished with ring face and set screws. Pulleys made to order. Ship. about 5 to 10 days after order received. Pulleys under 6-inch wider and narrower than 3 in. cost more than 6x3-inch sizes due to special hand molding and turning.

We must give all dimensions—diameter, face and bore, whether key seat or set screws, before we can fill order.

These pulleys are made to order and cannot be returned. Special hubs, spokes or rims cost extra costs.

We sell you tools for installing heating and water systems at half price

One Fire Heats the Whole House

Send for this Book

This Special Catalog gives Prices-Terms, Sizes and Detailed Information and Instructions on all Ward's Heating and Plumbing Systems

Turn Winter Into Summer with a Sterling Windsor Heater

HERE is a new, economical way to heat your home with hot water without going to the expense of digging a basement. The **Sterling Windsor** boiler may be placed in any room on the first floor of your home. It is small and compact, 48 inches high, and in sections which permit it to be increased in size by the addition of other sections to meet any alterations in the home. It is of a neat design and by painting to match the furniture or color scheme of the room, a very attractive and pleasing fixture will result. It is far more attractive than any stove and is much easier to keep clean. Its simple operation and fuel economy added to its low cost makes this heating system the ideal method for the average home.

See page 675 for additional information.

As the requirements for no two homes are alike it is impossible to exactly estimate the cost of installing a Sterling Windsor in your home. However, we can assure you that the very low price which has made this system so popular will apply to your case as well as others and the costs listed below will give you an idea as to the average.

Sold on Easy Monthly Payments

If you so desire this system may be purchased on easy monthly payments thereby enabling you to derive all the benefits offered by this equipment without any large outlay of cash. Pay for it as you use it.

We carry a staff of engineers for the purpose of helping our customers to determine the proper heating systems for their homes. Let these engineers work for you. Their services are absolutely free. Send in a floor plan sketch of your home, or, better still, fill in the chart which we furnish in our Plumbing and Heating Book and let us figure the exact cost of installing this heater in your home. This service places you under no obligation to us whatever.

Below are some actual costs of **Sterling Windsor** systems installed in homes of 5 to 6 rooms.

	Cash Price	Time Payment Price (Remember we have no extra interest charges)
5 Room Bungalow	$225.00	$254.00
6 Room Bungalow	270.00	303.50
5 Room, Two Stories	248.00	279.30
6 Room, Two Stories	297.50	328.25

Cottage Windsor Pipeless Furnace

For Small Homes

Sold for Cash Only

Material and Construction

Has a cast iron fire pot, steel radiator, roomy combustion chamber, triangular revolving grates, and a galvanized steel casing adjustable for any basement with a 6 to 8 foot ceiling. Large feed door. Prices include floor register, damper chains and pulleys, shaker, and cement to make all the joints gas and air tight. Smoke pipe is not included.

You can set up a **Cottage Windsor Furnace** yourself, in less than a day. Can be installed in an old house as well as in a new one. Cold air can be taken direct from the basement, or from the outside through cold air duct connected to a basement window.

Size 20 and 22-inch fitted for 8-inch smoke pipe. The 24-inch for 9-inch pipe. (Pipe not included.) **For Wood Burning Grate Plates, Smoke Pipes, Elbows and Dampers see page 833.**

High Quality Fixtures at New Low Prices

Our Porcelain Enameled Fixtures are of the highest quality. Tbey are genuine, white porcelain enameled, perfectly smooth and puro white. Coat after coat of fine white porcelain enamel is fused to the iron at an intense heat until a glistening and impervious finish is obtained. The fittings used are made of high quality brass, heavily nickel-plated and highly polished.

Before leaving the factory, each piece is carefully inspected. There is no chance of this high-grade porcelain enamel chipping, cracking or peeling with ordinary usage, and each and every piece is backed by Montgomery Ward & Company's iron-clad guarantee of "Satisfaction or Your Money Back."

Windsor Folding Bath Tub—No Running Water Required

The Windsor Folding Bath Tub is a real comfort for outlying homes, not provided with plumbing facilities.

Easy to operate—compact, neat and serviceable. Mounted on ball bearing casters. Occupies about 30 inches square when folded. Will last a life time. Fifteen minutes after lighting the burner, the copper coils produce sufficient hot water for a hot bath. In time of sickness, will pay for itself a hundred times over.

281 E 6424—Tub is 5 ft. long, 30 in. wide. Heavy sheet steel. White enamel paint finish. Hardwood rim—no other wood parts—frame and platform durably built of steel. Nickel-plated heater, with heavy galvanized steel lining. Water is heated by copper coils, installed directly over the burner and completely absorbing all the heat in the flame. State whether wanted for gas, kerosene or gasoline. Furnished with 4 ft. of hose and hose connection. Soap dish not furnished. Ship. wt., about 170 lbs. Price complete as described..... **$38.90**

Shipped from Factory in Southern Michigan.

Anti-Freezing Lift Pump

$6.90 and up

A substantial pump for windmill or hand use, with 4 feet set length, for either open or dug wells up to 30 feet in depth. Prices are with iron cylinder. Stroke, 6 in. Average shipping weight, 70 to 80 pounds.

181E5821—Cylinder 3 in.; for pipe 1¼ inches. Each..... **$6.90**

181E5822—Cylinder, 3½ in.; for pipe 1½ inches. Each..... **$9.50**

181E5823—Cylinder, 4 in.; for pipe 2 inches. Each..... **$9.60**

Standard Only

Without Set-Length

For wells up to 100 feet deep. Fitted for 1¼, 1½ or 2 inch pipe. Shipping weight, 52 and 60 pounds.

181E5848—With 6 in. stroke. Each..... **$4.75**

181E5849—With 10 inch stroke Each..... **$5.10**

Check Valve Leathers

81E5985—Sizes are for both the outside diameter of the leathers and corresponding size of the cylinder. Shipping weight, 6 to 14 ounces per dozen.

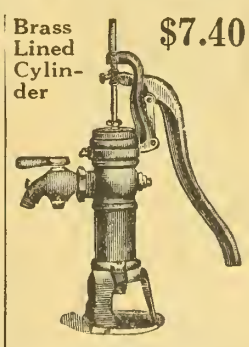
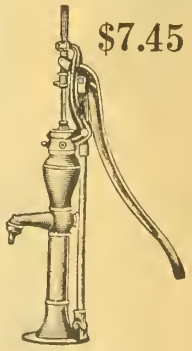
Windsor Air Moisteners



Do you suffer from sore throat and have frequent colds? Probably you could relieve yourself of much of this trouble by putting a Windsor Air Moistener behind each radiator in your home. It keeps the right amount of moisture in the air.

Lack of moisture, warm dry air from your heating plant will often cause furniture to separate at the joints and the varnish to check. The remedy is to moisten the warm air as it comes from the radiator.

Hang the Moistener back of the radiator where it is out of sight, yet easily filled with water. Can also be placed above or in a hot air register.



81E7936 — Gold-bronzed, galvanized steel Holds four quarts. Large evaporating capacity Shipping weight, 5 pounds. Each..... **95c**

Brass Lined Cylinder

$7.40

181E5919 — Throws a large volume of water For cistern and wells not over 20 feet deep. Heavy iron cock spout with ¾-inch hose coupling. Back of spout tapped for 1-inch pipe. Has 3-inch brass-lined body. Fitted for 1¼-inch suction pipe. Shipping weight, 30 pounds. Each..... **$7.40**

$7.45

Force Pump Standard Windmill Top

Oscillating fulcrum, link, pivoted at base, relieves the cap from strain. For wells up to 100 ft. deep. Back of spout tapped for 1¼-inch pipe. Fitted for 1¼, 1½, or 2 inch pipe. With ¾-inch hose coupling on spout. Shipping weight, 66 and 75 pounds.

Power Pumps

Geyser Centrifugal Pump

For irrigation, drainage and contractors' use. Used extensively for drainage and irrigation service and other work where a moderate lift of a large volume of water is desired. Recommended for all service where the total head does not exceed 65 feet and where the pump can be placed not more than 20 feet from the surface of the water. Large pulley, supported on either side by long bearings provided with grease cups. Extra long packing gland with grease cup reduces friction in the stuffing box to a minimum. Careful attention must be given to the following: Pumps must be run at the speed indicated, at which speed they will deliver the volume of water shown, to an elevation of 40 feet above the source of supply. Extra allowance must be made for long horizontal pipe lines. Lower heads or elevations require less H. P. and lower speeds; higher heads more power and higher speeds. Centrifugal pumps must be primed, that is, the suction pipe and pump must be completely filled with water before the pump is started. Unless the water being pumped flows to the pump by gravity, a foot valve should be used having a free area equal to that of the suction pipe. Use graphite or lead and oil on the suction pipe threads so the joints will be absolutely tight. Use a good grade of graphite or other piston packing around the shaft. Be sure the packing gland is well lubricated and drawn tight. When facing the inlet side, the impellor wheel turns counter clockwise. Write us for any information concerning the H. P., speeds, etc., of this or any other power pump.

Shipped from Factory in Northern Indiana.

Geyser Junior Hand or Power Pump

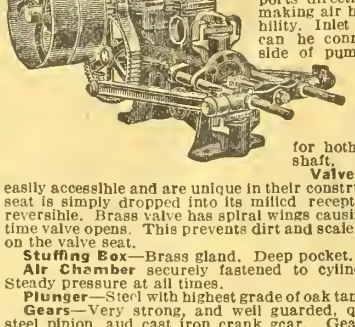
For pressure not over 75 pounds or not over 175 feet total head (lift and force). Must not be placed more than 20 feet above the surface of water. Requires from ¾ to 1½ H. P. according to speed and total head or pressure. Latest design. To use as hand pump, pull out pin which connects side crank arms to cross head and connect up hand lever. Has machine cut gear and pinion. Waterways are short, direct and of large area. The suction valves are placed slightly below suction openings so pump will hold its priming. All parts are accessible. Reversed head allows suction or discharge to be taken from either side. Cylinder 3 in. diam.; tight and loose pulleys for 2-inch belt. Cap. 12 gal. per min. at 40 r.p.m. Fitted for 1½ inch suction and 1¼ inch discharge. Tapped with ¼-inch opening for air valve if pump is used with pressure tank. Ship. wt., 145 lbs. **$41.20**

281 E 5844—Price **$41.20**

281 E 5845—Price, with air pumping attachment for pneumatic water supply systems..... **$42.55**

Shipped from Factory in Northern Ohio and from Chicago Store.

Automatic Hydraulic Ram



Will pump water continuously to a tank or a reservoir. Requires a fall of 2 ft. or more between the source of water supply, lake or stream, and location of ram. The ram will then automatically deliver a large proportion of water a great distance. Amount of water delivered depends upon the height of the fall and delivery.

Large size rams are best where there is an abundant water supply. Very durable. Fresh water constantly in your home, stable, garden or watering trough without inconvenience and cost. **Write for our ram circular.** Mention size.

Windsor Power Pump

Cylinder — Brass lined; 2 heavy guide rods supports crosshead. Large free water ways are provided with outlet ports directly above the inlet, making air binding an impossibility. Inlet and discharge pipe can be connected from either side of pump.

Power Head Very strong and substantial, securely bolted to head of cylinder with long bearing for both pinion and crank shaft.

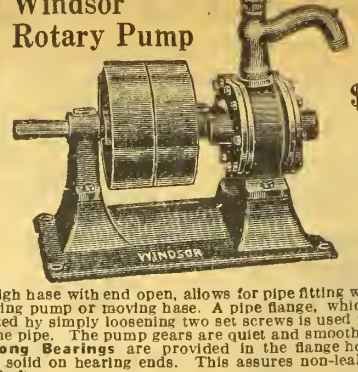
Valves are all quickly and easily accessible and are unique in their construction. Brass valve seat is simply dropped into its milled receptacle. The seat is reversible. Brass valve has spiral wings causing it to rotate every time valve opens. This prevents dirt and scale from becoming fast on the valve seat.

Stuffing Box—Brass gland. Deep pocket.

Air Chamber securely fastened to cylinder by four bolts. Steady pressure at all times.

Plunger—Steel with highest grade of oak tanned cupped leather.

Gears—Very strong, and well guarded, quiet running. Has steel pinion, and cast iron crank gear. Gear ratio, five to one on all sizes but 6x12, which is six to one.



Crank Arms—Heavy and well ribbed to withstand heavy work.

281 E 5986—Mention diam. and stroke when ordering.

Prices of pumps fitted for pneumatic water supply systems on request. **Shipped from Factory in Northern Illinois.**

Windsor Rotary Pump

$15.60

High base with end open, allows for pipe fitting without disconnecting pump or moving base. A pipe flange, which can be removed by simply loosening two set screws is used to connect on to the pipe. The pump gears are quiet and smooth running.

Long Bearings are provided in the flange housing and are cast solid on bearing ends. This assures non-leaking from end of shaft.

Independent Side Plates are used so that it is necessary to remove the plates only in case of wear.

Used for irrigating, fire protection, etc. Moves a large volume of water with a minimum of power.

For pumping acids, bronze pumps should be used, and metal valves when used for hot liquid.

Horizontal Force Pumps

For Water Supply Systems

Easy working, compact and substantially designed. For pumping water from cisterns, shallow wells, etc., to elevated tanks, pneumatic water supply systems, etc. Also adapted for fire protection, filling boilers, as a deck pump and for many other purposes.

Has a geared drive. A smooth, easy operating pump. Has a cushion air chamber, brass piston rod and valve seats. Tapped for 1¼-in. suction pipe and 1-in. discharge. Mounted on board base, about 7½x24 in. Ship. wt., 58 lbs.

181 E 5937—With 3-inch brass lined cylinder. (Without air attachment.) Each..... **$14.25**

With Air Attachment

181 E 5938—With 3-inch brass lined cylinder and air attachment as shown above. Will pump water and air, or water only, as desired. For pneumatic water-supply system. Ship. wt., 6 lbs. Each..... **$17.25**

$14.25

Hand Pumps

A Suction Lift Pump is one that raises the water to the level of the pump spout.

A Force Pump is one that raises the water, and also forces it to any reasonable altitude above level of pump.

A Set-Length Pump is a pump standard fitted with 4 feet of pipe and a cylinder (see 181E5809, etc.), and such a pump is ready for use in a well not exceeding 30 ft. in depth.

The Cylinder or working barrel of a pump should never be more than 25 to 28 feet from surface of water or else it will not operate.

Write us if in doubt of which type of pump to use.

Anti-Freezing Lift Pump

$4.98

181 E 5800—Medium Weight Pump. With 4 ft. set length. For wells not over 30 ft. deep. 3x10 in. iron cylinder with wrought iron set length. Stroke, 6 in. Fitted for 1¼ in. suction pipe. Ship. wt., 55 lbs. Each..... **$4.98**

Heavy anti-freezing well pump 4 ft. set length, for wells up to 30 ft. deep. Prices are for pump with iron cylinder. Stroke, 6 in. Ship. wt., 63 to 75 lbs.

181 E 5804—Cylinder, 2½ in.; for pipe 1¼ in. Each **$6.85**

181 E 5805—Cylinder, 3 in.; for pipe 1¼ in. Each. **$6.90**

181 E 5859 — Stroke, 10 inches. Each..... **$7.50**

Anti-Freezing Force Pump Wind Mill Top

$10.25

With 4 ft. set length. For wells up to 30 ft. deep. Has cock spout with ¾ inch hose coupling so that water can be forced in tank or discharged at spout. Back of spout tapped. Tapped for 1¼ in. pipe. Stroke 6 in. Cylinders are polished iron. Av. ship. wt., 85 to 90 lbs.

181 E 5829 — Cylinder, 3 in.; pipe 1¼ in. Each..... **$10.25**

181 E 5830 —Cylinder, 3½ in.; pipe 1½ in..... **$12.40**

181 E 5831—Cylinder, 4 in.; for pipe 2 in. Each..... **$12.60**

Windmill Force Pump With Three-Way Valve

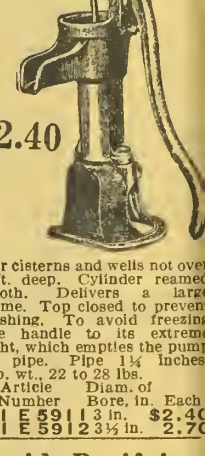
$12.75

Anti-freezing Pump, with improved vertical distributing valve for any depth well. The distributing lower valve is operated the same as an ordinary globe valve, and by turning wheel handle the water may be directed through underground pipe.

Price includes pump standard only, with extension below pump base including three-way valve as shown. Spout of pump is fitted with ¾ in. hose coupling. Pump is tapped for 1¼ in. discharge pipe and 1¼, 1½, or 2 in. suction pipe. Give size of suction pipe. Length, from platform to lower elbow, 4 ft. 10 in. Width of set length, 11 inches. Ship. wt., 100 lbs. Give pipe size.

181 E 5875— Stroke 6 in. Each..... **$12.75**

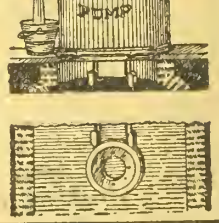
181 E 5876—Stroke 10 in. Each... **$13.40**



Kitchen Force Pump

$6.60

481 E 5915 — Strongly built, well finished. Brass cylinder, 3 in. diameter. For wells and cisterns not over 20 feet deep. Fitted for 1¼-inch suction pipe and 1-inch discharge. Faucets threaded for ¾-inch hose connection. Pipe can be connected to top outlet for pumping to a storage tank. Ship. wt., 20 lbs. Each..... **$6.60**



Pitcher Spout Pump

$2.40

For cisterns and wells not over 20 ft. deep. Cylinder reamed smooth. Delivers a large volume. Top closed to prevent splashing. To avoid freezing raise handle to its extreme height, which empties the pump and pipe. Pipe 1¼ inches. Ship. wt., 22 to 28 lbs.

Article Number	Diam. of Bore, in.	Each

Each.....	$13.00	$16.10 $17.9

181E6137—Iron platform for above. Size, 33x40 in. Ship. wt., 9 lbs. Each..... **$8.7**

Well Cylinders

Size cylinder for wells 20 to 40 feet deep, 3½ to 4 inches.
Size cylinder for wells 40 to 80 deep, fect 3 to 3½ inches.
Size cylinder for wells deeper han 80 feet, 2½ to 3 inches.
For windmills a somewhat smaller cylinder should be used, but this will depend on the size of your mill.

The 10 inch and 12 inch cylinders have a 6 inch stroke, and the 16 inch cylinders have a 10 inch stroke. They are usually fitted with 1¼ inch pipe for all cylinders smaller than 3½ inch, and 1½ inch or 2 inch pipe for cylinders 3½ inch to 4 inch. Give pipe size when ordering.

481 E 5956—Iron Well Cylinders. Smooth iron ground and polished. Shipping weight, 9 to 25 lbs.

481 E 5957 — Brass Lined Cylinders, iron body with polished brass lining, iron caps. Brass valve seats. Ship. wt., 9 to 25 lbs.

Drive Well Points

Brass Screen and Jacket

Made of high-grade heavy wrought iron pipe. Perforated and galvanized; covered with a durable perforated brass jacket. We have these points in two grades. The point in common use is No. 60 gauze. The very fine No. 100 gauze is used for quicksand, etc. The terms No. 60 and No. 100 refer to the number of wire meshes to the inch. Made in sizes ranging from 24 to 48 inches, with pipe diameters from 1¼ to 2 inches.

481 E 5990—No. 60 Gauze.

481 E 5991—No. 100 Gauze.

Pipe and Fittings

Standard Wrought Pipe

Always Sold at Lowest Prevailing Prices

Prices on pipe are subject to market changes. You will at all times have the benefit of the very lowest prices ruling at the time your order is received. Write for latest prices.

Prices are for pipe in random lengths, from 16 to 20 feet. Threaded both ends, coupling on one end.

Pipe cut to exact lengths and ends threaded is charged extra. For instance if you order 10 feet of 1¼-inch pipe cut and threaded, there would be a charge for cutting and threading of 6 cents. Any couplings will be extra. **Pipe over 6½ ft. not mailable.**

Winter Comfort Throughout the Home

The outside of all furnaces look alike but what really counts is what is inside. It's the large amount of effective heating surface scientifically proportioned and arranged, quality materials that last for years and give you a greater number of years of heating comfort, that distinguish Ward's PERFECTION Super Heater from all others.

Above is Ward's PERFECTION Super Heater with casting or jacket cut away to show the construction and relative position of the castings. Notice the deep channels or corrugations that provide extra heating or radiating surface and allow the air to pass up over top of firepot, adding to the strength and radiating power.

Ward's Perfection Super Heater

Furnishes a Rapid Flow of Hot Air for Winter

to Keep Your House Warm in Coldest Weather, or

Provides a Slow, Gentle Heat for Spring or Fall

Easy to Install—Easy to Operate
Satisfaction Guaranteed

10 MONTHS TO PAY—NO INTEREST

IT'S comfort you want when you buy a furnace — pleasing, healthful warmth and comfort. You will get it, and reduce the size of your fuel bill at the same time—when you put Ward's PERFECTION Super Heater in your home.

Ward's PERFECTION Super Heater is more than a furnace. It is a complete heating plant—complete in itself and guaranteed to heat your home to 70 even in the coldest weather.

In Mid-Winter, in the bitterest, coldest weather of the year—when you want heat and lots of it—Ward's PERFECTION Super Heater can be fired to the limit. It is big enough and strong enough to stand it, and its special construction—with extra heating surface and more rapid circulation of warm air—will send up a rush of heat to keep your home always warm and comfortable.

Yet it can be throttled down in mild weather to a slow gentle heat, providing just enough heat to keep the house warm and comfortable, and you hardly know that the furnace is going. It is always easy to control Ward's PERFECTION Super Heater.

And **most important,** even with the hardest firing, you get **the greatest possible amount of heat from the fuel used.** The fire travels all the way up through the four smoke arms and even in and around the top radiator (see illustration at top of opposite page) consuming gases and smoke so that all heat possibly obtainable is extracted before the smoke reaches the flue.

You've probably noticed the heavy black smoke belching from your neighbor's chimney. That means that the gases from the coal have not been properly ignited—it is only good heat going to waste. In Ward's PERFECTION Super Heater the smoke, except perhaps for the first few minutes after firing, is always light gray—you burn practically all the combustible material usually wasted in the smoke—you get MORE heat from LESS fuel.

Constant Circulation of Warm, Healthful Air

The extra large heating or radiating surface of Ward's PERFECTION Super Heater is more than double the amount of that in the ordinary type of pipeless furnace (see illustration at bottom of opposite page). It gives off a tremendous volume of heat and the extra free air space (49% more than in the ordinary type of pipeless furnace) provides a greater volume of air. The result is a constant, rapid circulation of warm air, travelling 49% faster in Ward's PERFECTION Super Heater than in the ordinary pipeless furnace.

This insures your rooms being kept at a pleasant, even temperature all the time. The extra volume of air circulating around and along the extra large radiating surface, absorbs a greater percentage of heat. The currents of the air are strong and positive, and as the heat is increased, the flow becomes stronger in direct proportion to the heat applied. For this reason, the air never becomes intensely hot and "parched" but a constant, more rapid flow of mild, balmy, summer-like warm air is always maintained.

The large water pan conveniently placed provides the proper amount of moisture in the air. With the PERFECTION Super Heater you do not have that hot dry feeling so common to many furnaces, but rather the mild balmy warmth of Spring.

Will Heat All Your Rooms Evenly

Ward's PERFECTION Super Heater comes nearer being a perfect pipeless furnace than any we ever saw or of which we ever heard.

Of course, any pipeless furnace is superior to stoves. You get a better and wider circulation of warm air. Instead of only the air around the stove being hot, leaving the rest of the room cold, the pipeless furnace keeps the **whole house** warm. It draws the cool air from the floors and returns a steady draft of warm air which is kept in constant circulation. Then too, there is less dirt from a pipeless furnace. The ashes and dust are kept in the basement where they belong.

In Ward's PERFECTION Super Heater you find not only these features but many others.

In the first place the air in Ward's PERFECTION Super Heater travels 49% faster than in the ordinary type of pipeless furnace. This means a more rapid and healthier circulation of air through your rooms.

Then there is actually less dirt. There is very little soot in the furnace itself, because the flames in travelling up through the smoke arms and upper radiator consume practically all of the gases and soot. And when it comes to cleaning out what little soot does collect in the upper smoke channels of Ward's PERFECTION Super Heater, all you have to do is run a little brush (provided with each heater) around **inside** the top radiator and brush the soot **down into the fire.** No soot or dust is drawn into the basement. Instead of having to rake the soot out into the cellar, you simply burn it up inside the furnace. It's no trick at all, you don't even have to get your hands dirty.

The diagram at the left shows how the warm air, discharged through the register set in the floor of the living room, circulates all around the downstairs rooms and travels upstairs, warming the entire house.

Ward's Guarantee with Every PERFECTION Super Heater

You can see why we call it the perfect heating plant—because of its extra heating powers and its economy in use. We are firmly convinced it is one of the best heaters on the market today and gladly back it with our guarantee.

In design, material and construction, Ward's PERFECTION Super Heater is first class and highest quality in every way. We guarantee it to give complete and thorough satisfaction, to operate easily and economically, heat readily and in every shape, form and manner give you the service you have a right to expect. **Your Money Back if Not Entirely Satisfied.**

Easy to Install—Directions Furnished

A man and a boy can install one of Ward's PERFECTION Super Heaters in less than a day's time. You can't go wrong— one part fits into another with exact precision. **Everything** fits just right.

About ordering—you will notice we list three Ward's PERFECTION Super Heaters in 3 sizes—heating 20,000, 25,000 or 30,000 cubic feet. To determine the right size for **your** home multiply the width of the house by the length and then multiply the result by the height of the ceiling (or two ceilings if a 2-story house). That will give you the number of cubic feet to be heated. It is always well to remember that the larger the furnace you buy the more heat you can get up in cold weather and that a furnace larger than absolutely necessary lasts longer because it never needs to be fired to the limit.

A size larger should be installed where wood is used as fuel. In determining the size of your furnace make allowance for exposure to high winds, large outside doors and windows. Allowance should also be made for temperatures much below zero.

When ordering on time payments, use Special Order Blank on page 826.

Ward's PERFECTION Super Heater is backed by Ward's strong guarantee

More Heat from Less Fuel

Special Features of Ward's Perfection Super Heater

Double the Amount of Heating Surface
In the Ordinary Type of Furnace

49% Larger Volume of Warm Air
Due to Greatly Increased Free Air Space

49% More Rapid Circulation of Air
Insuring a Steady, Healthful Flow of Even Heat

Larger Grate Surface—Special Fire Pot
Gets the Maximum Amount of Heat from Fuel Used

WHEN you put a new heating system in your home—you want one that will last for years and heat your rooms satisfactorily in the coldest kind of weather. Ward's PERFECTION Super Heater is far superior to the ordinary type of pipeless furnace. Even though it may cost slightly more, it is well worth it. And remember, you have our absolute guarantee to protect you in every way.

Below we mention a few of the special features in the construction of Ward's PERFECTION Pipeless Furnace.

Radiating Surface — Ward's PERFECTION Super Heater has more than twice the amount of radiating surface of the ordinary type of furnace. After the heat is created, it rises to the top of the radiator and is deflected down along the side. It again rises and after heating all surfaces in this direct or first radiator, it passes up into the indirect radiator. Here again, the heat units are absorbed as the smoke and fire travels horizontally along the chamber. After this, it passes into the third indirect radiator, where the same process occurs. This means that all the heat created by the fire must pass through 3 distinct heat traps before entering the flue, instead of just one, as in the ordinary furnace. The flame is admitted to the radiator through 4 and 5 different passages, igniting and burning all gas or smoke. It is practically a smokeless furnace.

Grates—Made in 3 sections, each one movable separately or together. Each part of the grate surface may easily be cleaned and kept clean. No unmovable parts for ashes to collect on. (See grate comparison below.)

Ash Pit—Large and roomy. Will accommodate a large amount of ashes allowing plenty of room to attend to fire.

Dust Flue—Keeps all the dirt and dust out of the basement when shaking fire or removing ashes.

Feed Door—Fitted with large leak-proof feed door which will accommodate any kind of fuel. Has air space between door and plate eliminating all danger of gas explosion.

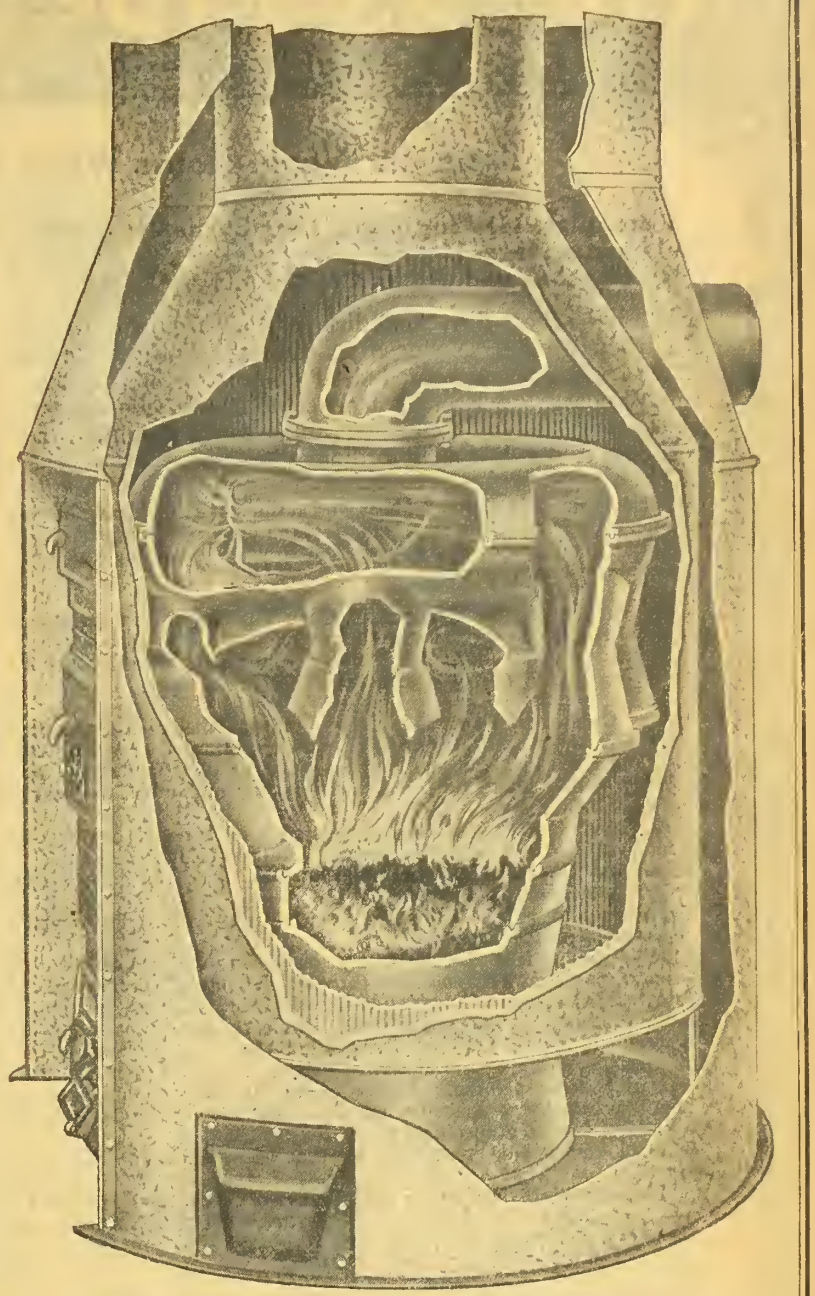
Hot Blast — Damper in feed door provides a hot blast for burning soft coal or lignite. Prevents smoking of chimney when using this fuel.

Firepot—Made exceptionally strong. Highly improved style. No chance for ashes to collect on the sides and reduce the heating efficiency.

Joints—All joints are deep cut and filled with a special asbestos cement. Will hold for years without leaking.

Casing—Made of high grade galvanized steel, lined with asbestos and polished bright corrugated tin. Keeps the heat inside and makes the basement a cool place for fruit and vegetable storage.

Water Pan—All furnaces fitted with water pan of sufficient capacity to insure proper humidity in all the rooms. This is a very important feature, as it promotes the health and longevity of every member of the family.



Drafts and Checks — Fitted with most improved drafts and checks which can be controlled from the basement or living rooms.

Easy to Clean—The construction of this modern furnace makes it easy to keep clean. The flexible handled cleanout brush is of invaluable assistance. A woman can clean this furnace easily and keep clean doing it. No need to drag the soot out into the cellar. You simply brush **down into the fire** what little soot collects in the top radiator.

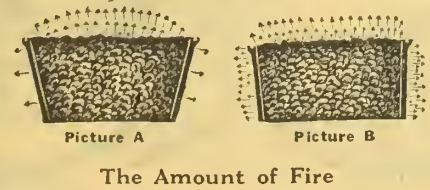
Firing Tools—With every furnace are included the necessary firing tools, consisting of a heavy, bent-end poker, a long handled, strong coal and ash shovel and a long flexible handled, cleanout brush. We also furnish complete instructions for operating.

Water Heater—For $2.75 additional we can equip your furnace to supply plenty of hot water for kitchen, bath and lavatory.

Floor Register—Very strong and heavy. Insures a steady supply of extremely warm air which passes up through the center of the register. Cold air is drawn down into the furnace through the outer section.

Above is Ward's PERFECTION Super Heater with casing and castings cut away. Instead of going directly from the firebed to the smoke outlet, all the fire, smoke and gas in Ward's PERFECTION Super Heater must travel along this extra radiating surface, giving up nearly all their heat before they are permitted to escape up the chimney. Notice that even the smoke pipe itself passes through the top of the air space, forming an extra radiating surface to provide more heat. Ward's PERFECTION Super Heater will burn hard or soft coal, wood, coke or anything else combustible.

Study these Important Comparisons



Picture 1 Picture 2

The Rate the Fire Burns

Of first importance on any furnace, is the grate. It is this that controls the amount of draft to the fire, and which therefore controls the rate at which the fire burns. To be efficient, the grate should at all times be perfectly clean. As soon as ashes or clinkers are allowed to accumulate on any part of the grate's surface for any period, the passage of air is stopped, causing a dead spot to appear on the surface of the fire. This most commonly occurs along the outer edge of the firepot and results in loss of heat and naturally a great waste of fuel.

Owing to the construction of the average grate, many obstructions, which are not movable, appear, offering many inviting places for ashes to collect. It is impossible to remove them without the aid of a poker and then, very often, these spots are found to be inaccessible while the fire is burning.

The above illustrations show the grates used in the average furnace (picture Number 1) now in use, while picture Number 2 shows the grate with which Ward's PERFECTION Super Heaters are equipped. Being made of three sections, any part of the grate's surface may easily be cleaned, or if desired, the entire surface may be moved at once. These sections tip left and right, and as they extend to the outer surface of the firepot, all stationary parts are eliminated and there is no possibility of ashes collecting on any part of the grates. Then too, the surface of the grate is almost equal to that of the top of the firepot (see following paragraph).

Picture A Picture B

The Amount of Fire

The next thing of importance on any furnace, is the firepot. Not only is the shape of this part of tremendous importance, but as it is the part that is subjected to the greatest strain by reason of the red hot fuel it continually holds, it is usually the part that is first to wear out. Ward's PERFECTION Super Heaters are prepared for this. The firepots used in these furnaces are oversize—extra strong, heavy, and fire-resisting.

Compare the two pictures shown above. Picture Number A shows the average firepot used in 90% of all furnaces today, while picture Number B illustrates the style firepot furnished with Ward's PERFECTION Super Heaters. The former has a capacity only of 125 pounds of fuel while the latter has a capacity of 150 pounds. This is due to the fact that the grate surface of Picture Number 2 is 380 square inches against 254 square inches in Picture Number 1.

You will notice on these illustrations the amount of dead fire space along the sides of Picture Number 1. This is caused by insufficient draft, due to the small grate and also to the ashes which have collected on the unmovable outer section of the grate. In this way much heat is lost as the only portion of the fire which can generate any heat is in the center.

Ashes cannot collect on the sides of the PERFECTION firepot.

To obtain the best results and to have a warm house, the firepot must radiate heat from its sides as well as from the fire surface. Without sufficient draft this is impossible and to obtain this necessary air space, a grate surface almost equal to that of the top of the firepot is necessary.

Compare WARD'S PERFECTION SUPER HEATER with the Ordinary Furnace

The illustration below compares Ward's PERFECTION Super Heater with the average pipeless furnace. The dotted lines are the outline of the ordinary furnace. The black is the heavy metal portion of the PERFECTION and the solid lines are its outer casings. See how much larger is Ward's PERFECTION Super Heater, how much more heating surface. See how much larger is Ward's PERFECTION Super Heater, how much more metal with which the air comes in contact, meaning that much more heating surface. See how much additional free air space is provided which means more and better circulation of the air and notice how the air travels all around and along all the corrugations in Ward's PERFECTION Super Heater instead of passing upstairs before being thoroughly and evenly warmed.

The reason why so many furnaces made today do not measure up to Ward's PERFECTION Super Heater and are so extravagant of fuel, is not only due to their grates and the firepots, but to their lack of the PERFECTION'S facilities for capturing and distributing the heat after it is generated. In most of the furnaces in use today this important factor has been ignored and a great amount of fuel is being wasted annually. In such inferior furnaces, the course which the smoke and fire follows is so very short that as much or more heat escapes out the chimney as enters the rooms through the central register.

In Ward's PERFECTION Super Heater the heat rises from the fire, is deflected down along the sides of the firepot, then rises again, heating the entire radiating surface which is more than twice that in the ordinary type of furnace. After leaving this radiator, the heat passes into the indirect radiator above where more of it is absorbed and turned to use. From here, whatever heat still remains in the gases and smoke, passes into the third radiator, where the same process occurs.

Thus, all the warm air must pass through three distinct heat traps before it could reach the flue. That reduces all chances of wasted heat to a minimum. The scientific construction of Ward's PERFECTION Super Heater provides 50% more free air space than the ordinary furnace. Free air space is that between the heavy cast radiators and the outer casing. You obtain half again more warm air from the same amount of fire. Don't forget these important features in comparing Ward's PERFECTION Super Heater with the ordinary type of furnace.

Ward's Pipeless Furnace

Keep the Whole House Warm with a Windsor Pipeless Furnace

A complete Heating Plant that burns little more fuel than a stove.
Keeps ashes and dirt out of the Living Rooms.

KEEP ashes, dust and dirt in the basement, where they belong! No need to run two or three stoves to warm even a good-sized home of 7 or 8 rooms. The Windsor Pipeless Furnace combines immense heating capacity in one convenient unit, easily installed and as simple to regulate as an ordinary heater.

It gives you a big volume of heat, and at the same time draws down the cooler air from the living rooms into the heater. This gives you a perfect circulation of air All Over The House—something which is impossible with stove heat.

Cost considered, the Windsor Pipeless Furnace is the cheapest method of heating an entire house that we know of. The price in itself is not great—hardly more than some of the higher priced heaters that can warm only one or two rooms at best.

Heavy Cast Iron Radiator in the Windsor Pipeless Furnace is much better than ordinary steel radiators, which soon rust or warp, and leak smoke and gas. Fire and smoke must travel around the entire surface of the radiator, thus giving off the greatest possible amount of the heat before going up the chimney.

Fire Pot is of heavy cast iron, corrugated to increase the heating surface, and made in two sections with deep-cup, gas-tight joints.

Revolving Triangular Grates will burn all fuels, and make it easy for you to keep a clean, bright fire.

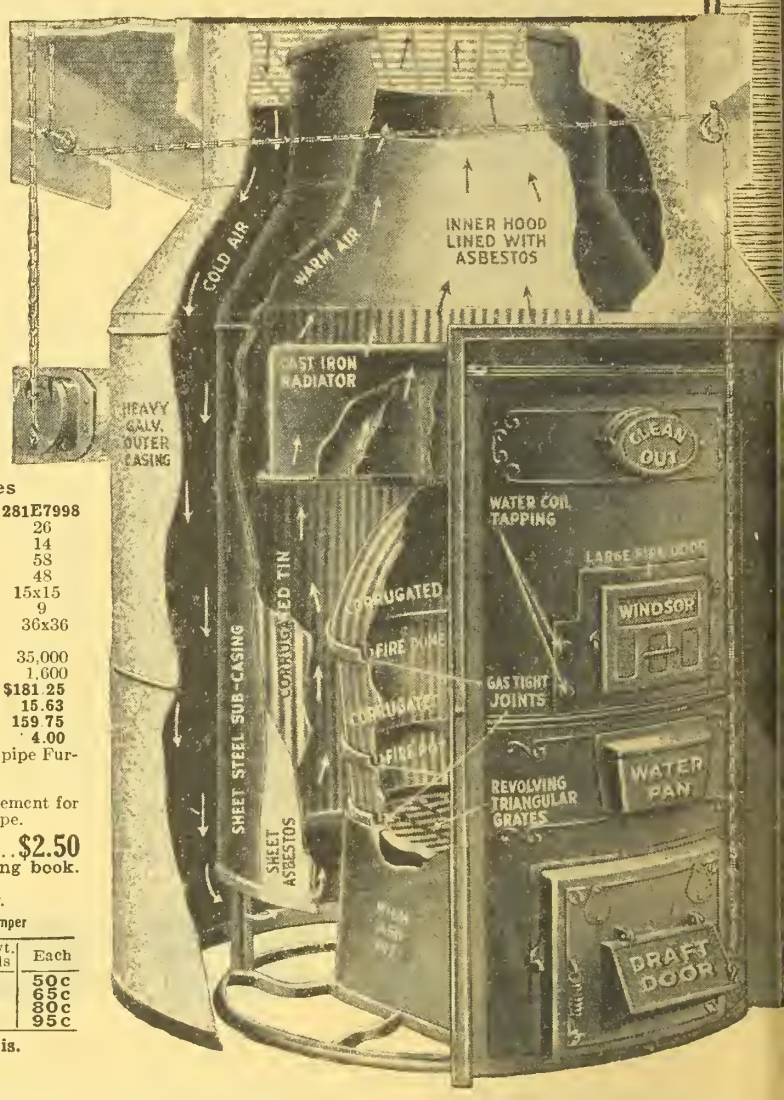
Casing has an asbestos lining and a corrugated tin reflector which increases the heating efficiency.

Floor Register is strong and heavy, discharges the heated air through the center, and draws in cold air through the outer section of the same register. Furnace has a heavy all-cast solid front, high ash pit, large feed door and ash doors, and water pan. Made to install in basement with 8-foot ceiling; but can easily be fitted to a lower ceiling by cutting the galvanized casing at the top to the desired height. These can also be furnished to set in basement having higher ceiling by ordering a longer throat. A small extra charge is made for this. See detailed measurements of five sizes of furnaces, in table below.

Shipped knocked down in sections that will go through any ordinary doorway.

Heats all your Rooms evenly.
No piping needed; you can put it up easily and quickly.

There's real economy, too, in a good pipeless furnace. Ward's Windsor requires little more fuel than a good heating stove; and as little care and attention. The whole plant is in your basement, out of the way. No coal to carry upstairs; no ashes to strew around; no dust and dirt circulating in your living room.



Ward's Windsor Pipeless Furnace is strong, durable, scientifically designed to get the greatest possible amount of heat energy from a minimum amount of fuel. First class materials and thorough workmanship insure years of steady, satisfying service.

We guarantee perfect service and complete satisfaction on the Windsor Pipeless Furnace; you are fully protected in every way. Prepare now for cold winter days, install a Windsor before the snow flies; make sure of homey, comfortable heat all over the house.

Order on either the cash or Easy Payment Plan whichever you prefer.

For economy and long service we recommend the sizes and capacities listed when burning hard coal, increasing to the next larger size for soft coal and two sizes larger for wood. Always use a wood-burning grate plate when wood is burned. Make allowances for exposure to high winds, poorly fitted doors, windows, etc. Heating capacities shown are based on an ordinary slow burning fire and and an outdoor temperature of zero. Make extra allowanee if the temperature falls below zero. A furnace a size larger than is actually required is more economical in fuel and will last longer than one just large enough, which is fired hard in extremely cold weather. Be sure to order your furnace large enough.

Easy Monthly Payments. No Interest. $7.49 Per Month

Gentlemen: Please ship me Windsor Pipeless Furnace Number _____ Price $ _____, on the following terms:

I enclose $25.00 with this order as my first payment. Within one month after receiving the furnace I promise to pay you $_____ (which shall be not less than one-tenth of the balance of purchase price) and on each succeeding month thereafter I promise to pay you the same amount until full purchase price has been paid. **I am to pay no interest.** Title to the furnace is to remain in you until fully paid for; when it is to become my property.

I assure you I am worthy of your confidence, keep my promises faithfully, pay my obligations promptly, and make the following answers for the purpose of inducing you to ship the furnace to me upon the conditions herein mentioned.

Name _____

Post Office _____ State _____ Occupation or Business _____

R. F. D. _____ Street and No. _____ I have lived here since _____

Shipping Point _____ Do you own the property in which your furnace will be installed? _____ Mortgaged? _____

County _____ R.R.Co. _____ Name of party holding legal title or mortgage _____

Please give references, including bank you do business with.

1. _____

2. _____

Write for our free wall paper sample book

Newport, Michigan.

I received the harness I ordered from you in first class condition, and want to thank you for shipping so promptly.

I think I saved at least $20.00 buying this harness from you.

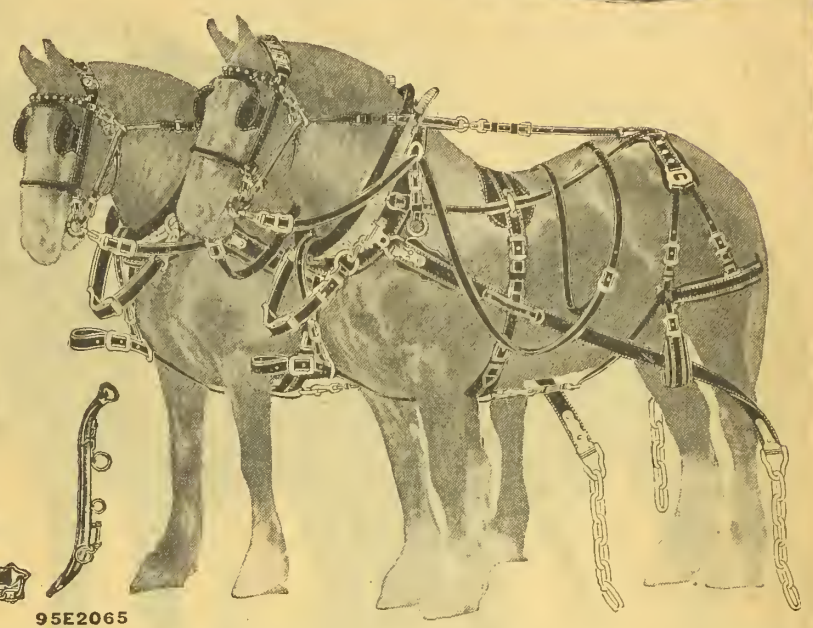
J. William Fox

We never print letters from our customers without permission.

Wardway Quality Harness

$60.95

Triumph Team Harness



Made with 1⅛ inch Hip and Back Straps
Round side check and center check-up Strap
Equipped with Folded Ring Crown Bridle

Bridles—⅞-inch cheek, folded ring crown, combination double and stitched winker brace and front single noseband, round side check, gag swivels with center check-up straps.
Lines—1½ inches x 18 feet with security buckles and with snaps.
Traces—1½ inches x 6 feet double and stitched. 6-link chain clipped on, scalloped safe at front, jointed clips at front, 1¼-inch billet.
Pads—5-inch harness leather top, no spots, felt bottom, 1¼-inch reverse billets, brass bows.
Breechings—Folded with layer, without lead-ups, lazy straps 1 inch to reverse and with 1¼-inch liner. 1½-inch single reverse side straps.
Back and Hips—1¼-inch hip straps to reverse into breeching made 3-ring style with metal trace carrier on side. 1½-inch back strap through to hame. Brass Conway loops on hip and back strap.
Bellybands—Folded with 1¼-inch buckles.
Breast Straps—1½ inches x 4¼ feet with metal loops, with snaps and slides.
Martingales—1½-inch heavy, with ⅞-inch collar strap.
Hames—95E2050 oiled bolt, with ¾-inch riveted spread straps, duranoid rings, 1-inch hame straps.
Trimmings—Japan (black) buckles and brass spotted fronts.

Weight, boxed for shipment, about 80 pounds.
For horses up to 1,400 pounds.

95 E 1414—Without collars and hitch reins, per set..... $60.95
95 E 1415—Same as 95E1414 except with 1¾-inch traces..... 62.90
For 1½-inch x 20-feet lines, in place of regular, add..... .60
For 95E2065 steel bolt hames, large brass balls in place of regular, add..... $2.50
For 95E6010 crupper forks, and cruppers, add per set 1.25
Extra for 95E5780 style of trace in place of regular, add..... 2.00

95E5780

95E2065

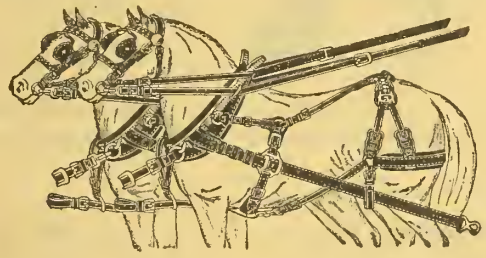
Dandy Team Harness

This is a fine all-around harness. It is built with the same care as our other harness and only the best materials are used.

Bridles—¾-in. Folded Ring Crown, short cheek with bit strap and noseband, face drop, combination winker brace and front, flat side check.
Lines—1½ in. x 18 ft. with buckle and billet and snaps.
Traces—Heavy 1½ in. x 6 ft. double and stitched, with 6-link heel chain sewed in, jointed front clips.
Hames—95E2050 oiled Concord bolt, 1-in. sewed hame straps, ¾-in. spread straps, bellybands folded.
Back and Hip—1-in. straps, 3-ring style, side trace carrier, 1-in. back strap to 1¼-in. market tug and with 1-in. shoulder straps.
Breeching—Heavy folded, 1⅛-in. single reverse side straps, ⅞-in. lazy straps.
Breast Straps—Heavy and sewed loops, 1½ in., snaps and slides.
Martingales—1½ inches double and stitched around loop and ⅞-in. collar straps, with leather loops.

For horses up to 1,500 pounds.
Weight, boxed for shipment, about 80 pounds.

95 E 1151—Japan (black) trimmed, without collars and hitch reins, per set..... $65.50
95 E 1152—Same as 95E1151, only with 1¾-in. traces. 68.00



Thornward Team Harness

This is our highest grade pad harness equipped with our new Folded Ring Crown Bridle; has roller buckles and leather loops throughout. Note description carefully.

Bridles—⅞-inch folded ring crown, short cheek with bit straps and noseband, face drop, combination winker brace and front, round side check.
Lines—1½ inches x 18 feet, with buckle and billet and snaps.
Traces—Heavy 1½ in. x 6 feet with sewed in heel chain and jointed clip at front, 1¼-inch billets, and folded bellybands with layer.
Hames—95E2044, XC ball top, bolt hames with 1-inch hame straps, ¾-inch spread straps with wooden rollers.
Pads—All harness leather, extra wide and flexible, layer over top and hair stuffed, with terrets and hooks and with 1¼-inch market straps.
Back and Hip—1½-inch hip straps with scalloped safes and trace loops, 1½-inch back strap to pad, folded crupper to buckle.
Breast Straps—1½ inches x 4½ feet, with snaps and slides.
Martingales—1½ inches, heavy, and double and stitched around front loop, and ⅞-inch collar straps.

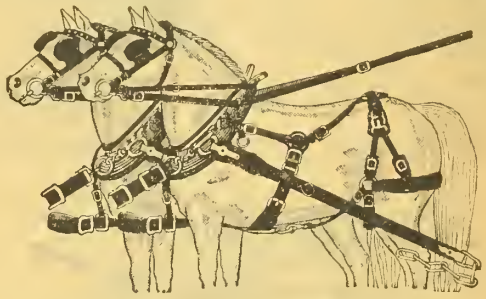
Made to fit horses up to 1,400 lbs.
Weight, boxed for shipment, about 70 pounds.

95 E 1297—XC (white metal) trimmed, without collars and hitch reins. $59.90
Per set..... 61.95
95 E 1298—Same as 95E1297 only with 1¾-inch traces. Per set.....

Perfection Team Harness

Bridles—⅞-in. heavy cheek, folded ring crown, short cheek style with nose band, combination winker brace and front.
Lines—1½ inches x 18 ft. with buckle and billet and snaps.
Traces—1½ inch x 6 ft double and stitched, cockeye sewed in.
Hame Tugs—1½-in. spaced loop folded, made for bolt hames No. 95E2050 oiled Concord bolt hame, 1-inch sewed hame straps, ¾-inch spread straps, bellybands folded.
Back and Hip—1-inch straps, 3-ring style, side trace carrier, 1-inch back strap, to 1¼-inch market tug and with 1-inch shoulder straps.
Breeching—Heavy folded, 1⅛-in. single reverse side straps, ⅞-inch lazy straps
Breast Straps—Heavy, and sewed loops, 1½ inch, snaps and slides.
Martingales—1½ inch and doubled and stitched around loop and ⅞-inch collar straps.

For horses up to 1,500 pounds.
Weight, boxed for shipment about 80 pounds.



95 E 1134 — Japan (black) trimmed, without collars and hitch rein. Per set..... $66.75
95 E 1135 — Same as 95E1134, only with 1¾-inch traces and hame tugs. Per set..... 69.25
Add for 95E2065 steel bolt hames with 2-inch brass ball top, in place of regular, per set..... 2.25

Pointer Team Harness

Bridles—⅞-in. check, folded ring crown, double and stitched combination front and winker brace, sensible blinds, flat reins
Lines—1 in. x 18 ft. with security buckles and with snaps.
Traces—1½ in. x 6 ft. double and stitched, chains clipped on Jointed clips at front, 1¼-in. billets and folded bellybands
Pads—4-in. harness leather top and spotted, felt bottom, 1¼-in. reverse billets.
Breeching—Folded with layer. Lazy straps, ⅞ in., side straps, 1 in., single reverse.
Back and Hips—1-inch hips to reverse into breeching, 1-inch back straps.
Breast Straps—1½ in. with snaps and slides.
Martingales—1½ in., with ⅞-in. riveted collar strap.
Hames—95E2050 heavy oiled Concord bolt, with 1-in. riveted hame straps and ⅞-in. riveted spread straps.
Trimmings—Japan (black) buckles with brass spots and rosettes.

For horses up to 1,350 pounds.
Weight, boxed for shipment, about 75 pounds.

95 E 1716—Without collars and hitch reins. Per set $53.50
95 E 1717—Same as 95E1716, only with 1¾-in. traces. Per set..... 55.45
For round side checks and gag swivels, add, per set..... 1.25
For center check-up strap, add, per set..... 1.00
For 1¼-in. x 18-ft. lines, in place of regular, add, per set .60

Popular Team Harness

Here is a moderately priced harness which is popular where the work is rough and hard.

Bridles—⅞-inch cheek, folded ring crown, double and stitched combination front and winker brace, sensible blinds, flat reins.
Lines—1 inch x 18 ft. with security buckles and snaps.
Traces—1½ in. x 6 ft. heavy double and stitched, chains clipped on. Jointed clips at front, bellybands folded.
Breeching—Folded, lazy straps ⅞-inch with 1¾-inch liner. Side straps 1 inch single reverse.
Back and Hips—1-inch hips, 3-ring style metal trace carriers on side.
Back Straps—1 inch with shoulder straps, 1¼-inch billets.
Breast Straps—1½ in. x 4½ ft. with metal loops, slides and snaps.
Martingales—1½ inches and ⅞-inch riveted collar strap.
Hames—95E2050 — Heavy oiled Concord bolt, with 1-inch riveted hame straps, and ¾-inch riveted spread straps with duranoid rings.
Trimmings—Japan (black) buckles with brass rosettes and spots.

Made to fit horses up to 1,400 lbs.
Weight, boxed for shipment, about 80 pounds.

95 E 1416—Without collars and hitch reins, per set.. $57.50
95 E 1417—Same as 95E1416 only with 1¾-inch traces 59.45
Add for 1¼-inch x 18-ft. lines in place of regular..... .60

Ajax Team Harness

Bridles—⅞-in. heavy long check, sensible blinds, round winker brace, flat side checks and with ring face piece.
Lines—1 in. x 18 ft. with security buckles and snaps.
Traces—1½ in. x 6 ft. heavy double and stitched and with scalloped safe in front, with jointed clip attachment at front end and 6-link heel chain clipped on back end, folded bellybands.
Pads—Double and stitched harness leather top with 1¼-in. layer and reverse billets.
Back and Hip—1-in. hip straps and 1¼-in. single back strap through to hame straps both sewed into metal trace carrier on top.
Breeching—Folded with 1-in. layer, 1-in. lead-ups, 1-in. single reverse side straps and ⅞-inch lazy straps.
Breast Straps—1½ in. x 4½ ft. with metal loop, snaps and slides.
Martingales—1½ inches, with ⅞-in. collar straps.
Hames—Oiled Concord bolt, 1-in. riveted hame straps and ¾-in. spread straps. Made for horses up to 1,350 lbs. Weight, boxed for shipment, about 75 pounds.

95 E 1318—Japan (black) trimmed, brass ball hames, without collar and hitch reins, per set..... $54.85
95 E 1319—Same as 95E1318, only with 1¾-in. traces. Price, per set..... 56.80
For 1¼-in. x 18-ft. lines in place of regular, add..... .60
For 95E2065 Monarch Steel Hame in place of regular, add 2.50

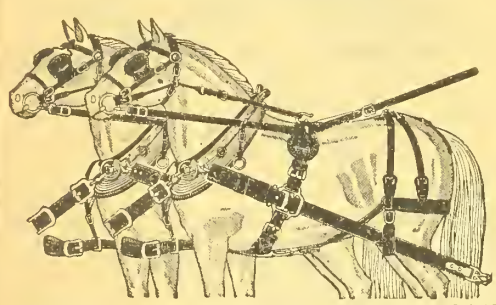
Wardway collars are made to fit the horse.

Ward's Durable Harness

Wardway Harness is Made in Our Own Factory

THIS enables us to take advantage of every economy provided by manufacturing and marketing conditions. We sell direct to you with only one small profit added to actual manufacturing costs.

And you get better harness, too, because our careful methods and rigid inspection of every step in the process of manufacture insure you of well built, extra strong, service-giving qualities.



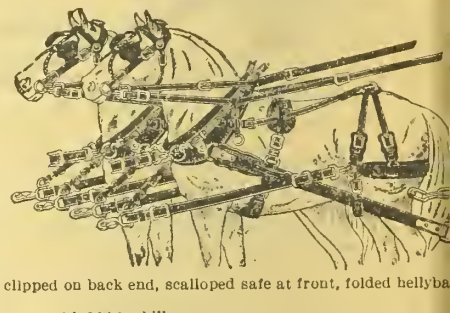
Bridles—7/8-in. heavy cheek with bit straps and noseband, wide folded ring cro sensible blinds, round side check with gag swivels, combination double and sti ed winker brace and front spotted, and lace drop, 1/2-inch center check-up st
Lines—1 in. x 18 ft. with buckles and snaps.
Traces—Heavy 1 1/2 in. x 6 ft. double and stitched with sewed-in. heel chain, joi clip at front, folded belly bands.
Pads—6 in. swell double and stitched, harness leather top, felt-lined and spotted.
Breeching—Heavy folded, 1 1/4-in. single reverse side straps, 1-in. lazy straps with wide lin
Back and Hip—Heavy 1-in. hip straps, 3-ring style with 1-in. back straps to hame, with cru fork and crupper.
Breast Straps—Heavy 1 1/2-in. sewed loops, with snaps and slides.
Martingales—Heavy 1 1/2 in. double and stitched around loop with 3/8-inch collar straps.
Hames—95E2046 Red, wood, iron clad bolt, 2-in. Chicago brass ball top, 1-in. hame str 8/4-in. spread straps with wood rollers.
Trimming—Japan (black) buckles with brass ball hames, brass shields and brass spots. horses up to 1500 lbs. Weight, boxed for shipment, about 90 lbs.

95 E 1303—Without collar and hitch reins. Price, per set ..... **$74.**
95 E 1304—Same as 95E1303, only with 1 3/4-in. heavy traces. Per set ..... **76.**
If pads are not wanted, deduct, per set ..... **7.**
For 95E2065 Monarch steel bolt hames with 2-in. brass ball top in place of regular, add, per set .....

Hercules Extra Large Team Harness

Extra large harness for 1700 to 1800-lb. horses. Same style as 95E1303, only made extra la and extra heavy, with 1 3/4-in. breast straps and martingales. 1 3/4-in. x 6 ft. 4-in. extra heavy tra Lines 1 3/8 in. x 20 ft. 1 1/2-in. back and hip straps. Weight, boxed, about 100 lbs.

95 E 1332—Without collars and hitch reins. Price, per set ..... **$90.**
95 E 1333—Same as 95E1332, only 2-in. x 6 ft. 4-in. traces. Per set ..... **93.**



Detachable Breeching

Bridles—3/4-inch long cheeks with noseband, sensible blinds, long round side cheeks and winker brace.
Lines—1 in. x 18 ft. with buckles and snaps.
Traces—1 7/8 in. x 6 ft., heavy double and stitched with clip cockeye.
Hame Tugs—1 1/2 inch, folded three-loop, clip style, with 95E2015 black iron over top clip hames, with 3/4-inch riveted spread straps. 1-inch riveted hame straps. Folded bellybands.
Pads—All leather flexible hair-stuffed swell shape, with terrets and hooks and 1 1/4-inch market straps.

Our Best Wardway Harness

We Make Sure of Quality

HARNESS can't be better than the leather that is put into it. That's why we claim Wardway Harness is one of the best grades of harness made—because we know the leather in it is absolutely reliable. It's good because our methods make it good. We have our own factory and we know.

Quality is never sacrificed to obtain a low price, and for this reason the strength and lasting qualities of Wardway Harness make it most economical when judged from a standpoint of length of service.

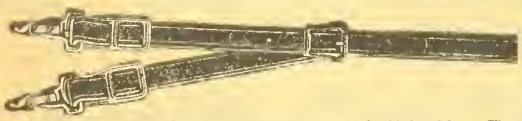
What Wardway Quality Means



A Sensible Purchase

The increase of sales in our collars is due to the facts that they contain a superior class of workmanship and are made of the best of leather stock. Another feature in most of them is the Hair Pocket, and it assures your horse the greatest comfort. We want you to try our collars, because we know you will be more than satisfied. You will never regret your purchase.

An ill-fitting collar causes many sore spots from rubbing and pressure; it does not allow the animal to p its full strength into the work. Be fair to each horse, and when ordering make sure to get the right measur ments. The size of a collar is found by measuring the length in inches from top (A) to bottom (B measurements taken on the inside, as shown in the illustration. The draft of a collar is found by measurin the circumference in inches, the heavy part of the collar (C) and (D) as illustrated. Be careful to take e actly figures, for our collars are made accurately, and we give you just what you ask for.

Most of our collars have an added feature, the hair pocket allows the collar to fit snugly. All collars havi a hair pocket are so specified. Our full kip collars are made of the best grade collar leather obtainabl Stuffed with seasoned long rye straw. When ordering collars, add 2 to 2½ pounds for packing.

Cut from good stock. Made up with Jap (black) buckles. Has safety buckles on ends and best grade flat spring snaps. Reinforced laps. A good grade line throughout. Sewed laps.

Article Number	Width, In.	Lgth., Ft.	Wt., Lbs.	Price, per Set

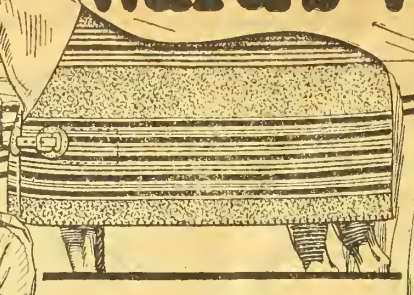
Ward's Well-Made



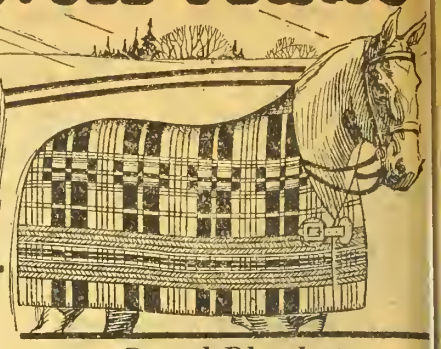
Northern Blanket $4.95

This is the warmest, heaviest and fluffiest blanket ever offered by us at such low prices. It is cut from heavy stock, making it extra warm, and exceptionally good wearing.

95 E 4500—Size, 84x90 inches. Weight, about 8 pounds. **$4.95**

95 E 4501—Size, 90x90 inches. Weight, about 9 pounds. **$5.65**

95 E 4502—Size, 90x96 inches. Weight, about 10 pounds. **$6.60**



Empress Blanket

An ideal Blanket for large horses. Body is of rich brown wool mixed stock, warm and fluffy, with beautifully blended broad border and body stripes.

95 E 4663—Size, 84x90 inches. Wt., about 7 pounds. **$5.60**

95 E 4664—Size, 90x90 inches. Wt., about 9 pounds. **$6.85**

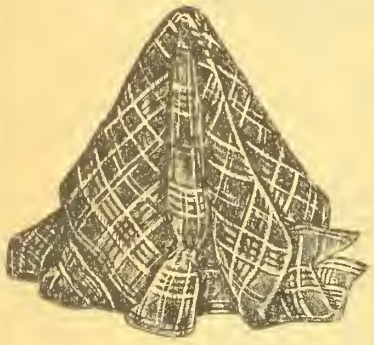
Royal Blanket

Reversible box plaid pattern. Looks and feels like an all wool blanket. The warps are well woven and the pattern one of the most attractive plaids we have ever seen.

95 E 4579—Size, 80x84 in. Weight, about 6 pounds. **$5.45**

95 E 4580—Size, 84x90 in. Weight, about 7 pounds. **$6.45**

There are times when your horse needs protection from the cold rains. Ward's Oiled Drill Covers keep the horse dry and warm in any kind of weather. Turn to pages 842-843 and note the extra good values.

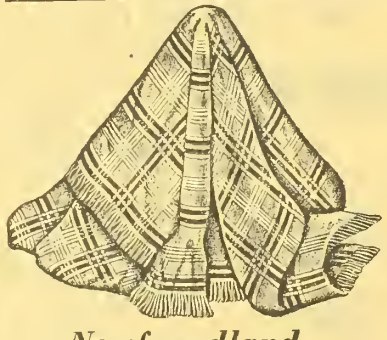


Windsor Rain Protector Covers

The duck used in these covers is known as 12-oz. sail duck, very durable and close woven. The waterproofing is a chemical process by which every fibre of the cloth is rendered water-repellent. The cover finished in a deep tan color, like Army Khaki. Attractive in appearance and will stand hard wear. Extra strong hame leathers with line rings, leather trace carriers with snaps, reinforced breast piece, line pocket and adjustable front straps.

95 E 4340—Cover to head. Weight, about 5 lbs. (For 1 horse) **$6.25**

95 E 4341—Cover over hames. Weight, about 4 lbs. (For 1 horse) **5.75**



Avondale

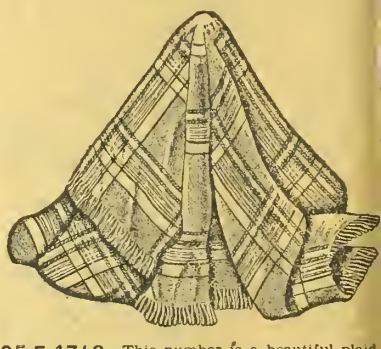
A very satisfactory robe and one that will give long wear. The workmanship is excellent—a close weave making this robe as warm as a much heavier one.

It is of rich dark brown and beautiful shades of plaids and stripes; 1 in. turned lay all around and three rows of stitching; back is plain dark brown. Can be used either side, about 80 per cent wool.

95 E 4708—Size, 54x74 in. Weight, about 5½ lbs. **$9.85**

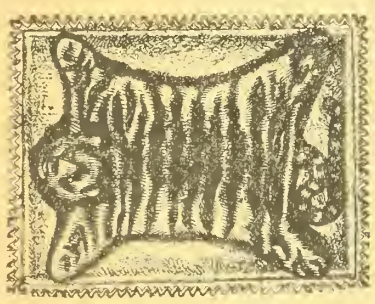
Newfoundland

This robe is about 60% wool, has the remarkable asset of being light weight and yet sufficiently warm to keep out the cold. It is a plaid design made up of three shades of gray and alternate stripes of green. This robe is of washable wool and therefore can always be kept clean. It can be used as an auto or steamer rug, and is also quite desirable for the tent or camp. Size, 60x80 inches including fringe on two sides only. Weight, 4 pounds.



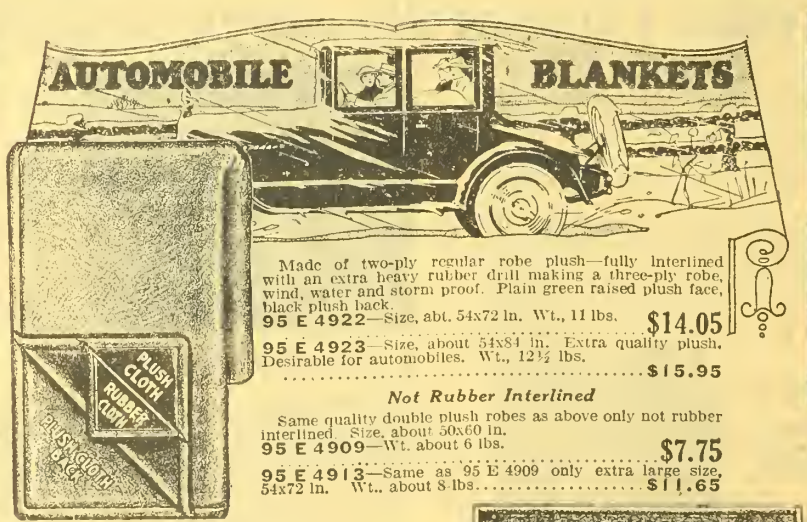
95 E 4715— **$7.65**

This is a beautiful robe as well as a serviceable one. Has pockets for two people. Choice of Leopard skin or Mink pattern. Made of extra quality plush with a plain plush back, scalloped border and a good grade of rubber interlining, making a 3-ply robe. Generous size and suitable weight. Size, about 54x74 inches. Weight, about 10½ pounds.



95 E 4931—Leopard skin pattern. **$20.50**

95 E 4932—Same as above, but Mink pattern. **$20.50**



95 E 4718—This number is a beautiful plaid, made up of a dark green background with harmonious stripes of red, blue, yellow, and black. It is 60x80 inches including fringe. Weight, about 5 lbs. **$12.75**

95 E 4717—Same as 95 E 4718 only blue background with red, white and black stripes. Size 60x80 inches including fringe. Weight, about 5 pounds **$12.80**

Long Mohair plush, fancy tiger pattern, rubber interlined in center, and plain plush back. Pliable and practically storm-proof. Double felt border. A very beautiful and high grade robe.

95 E 4750—Size, 54x66 in. Wt., about 9 lbs. **$16.75**

Made of two-ply regular robe plush—fully interlined with an extra heavy rubber drill making a three-ply robe, wind, water and storm proof. Plain green raised plush face, black plush back.

95 E 4922—Size, abt. 54x72 in. Wt., 11 lbs. **$14.05**

95 E 4306—Width, 84x90 in. Weight, about 9 pounds (For 1 horse) **$5.65**

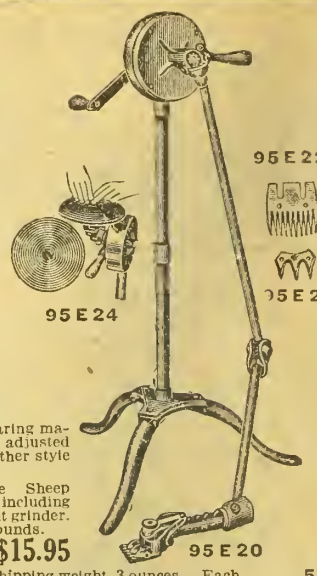
Ward's Lakeside Shearing Machines

Clip Your Horses to Keep Them Healthy

WHEN you work your horses regularly and let them get numerous hard sweats that can't dry over night because of a long coat of hair — you know the result. They lose flesh; are open to numerous horse ailments; and drop off in energy generally.

Shearing horses regularly keeps them in fine trim for any job; keeps them well conditioned; prevents trouble.

The Lakeside Shearing Machine costs little; can be run by anyone; and will pay for itself even on a "one-horse" farm.



If you have sheep and cattle—so much the better; put the Lakeside to greater use and profit.

Ward's Lakeside is smooth-running; strongly built; practically fool-proof; the speed at which it will work is entirely up to how fast you operate it. Complete, simple instructions for operating and caring for the blades accompany each machine.

95 E 13—Improved Lakeside Horse Clipping Machine, without grinder. Shipping weight, 40 pounds. Price, each.....**$11.25**

95 E 14—Combination Sheep Shearing and Horse Clipping Machine. Without grinder. Shipping weight, about 60 pounds. Price, complete.....**$21.95**

95 E 11 — Sheep Shearing Attachment, ready to attach to 95E13 horse clipping machine. Shipping weight, 9 pounds. Price.....**$10.90**

In the shearing head of our shearing machines, the knives are easily adjusted and stay sharp longer than any other style of knife.

95 E 20 — Improved Lakeside Sheep Shearing Machine, complete including four cutters and four combs without grinder. Boxed, shipping weight, about 50 pounds. Price, each.....**$15.95**

95 E 22—Extra Lower Plates. Shipping weight, 3 ounces. Each.....**55c**
95 E 23—Extra Upper Plates. Shipping weight, 1 ounce. Each.....**20c**
95 E 24—Price of Grinder only, packed and shipped separately. Shipping weight, 12 pounds. Price.....**$5.75**

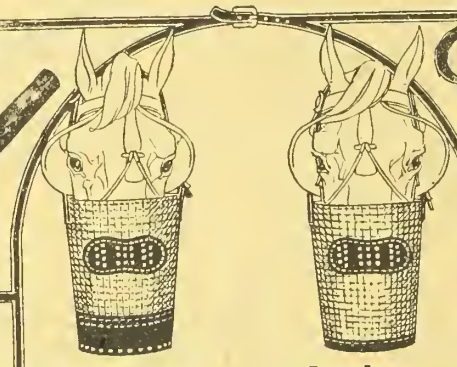
Complete instructions for operating Grinder 95 E 24 and sharpening of the blades, are enclosed with each machine. Customers if they prefer can send the blades to us by mail packed securely, and we will do the work at a minimum cost. Comb and cutter for sheep shear, per set, 50c; horse clipper, per set, 70c. Be sure to include the necessary return shipping charges. When ordering new plates, return your old ones to us as a sample.

95 E 40—Horse Clipper Handle, complete with Knives. Ship. wt., 18 oz. Price.....**$3.65**

95 E 50—Horse Clipper Top Plates. Shipping weight, 6 ounces. Each.....**1.05**

95 E 61—Horse Clipper Lower Plates. Shipping weight, 8 ounces. Each.....**1.40**

Handy Clippers

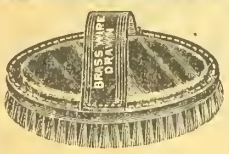


95 E 6763— Nickel-plated steel. Suitable for one having only occasional use for clippers of this style. Weight, each, 6 ounces. **$1.88**
Each.....
Extra top plates. Each.....**65c**
Extra bottom plates. Each.....**85c**
Extra springs, each.....**20c**

High Grade Clippers

95 E 6764 — New Market pattern our high-grade Horse or Dog Clippers. A practical and durable clipper. Wt., each, 17 ounces. Each.....**$3.00**

Extra top plates. Each.....**$1.00**
Extra bottom plates. Each.....**$1.75**

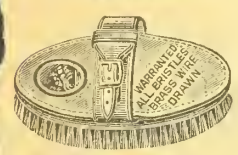


Horse or Mule Shears

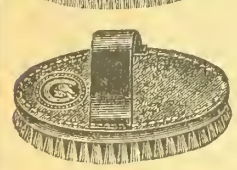
95 E 6780 — Made with curved blades for trimming manes, tails, etc. Half polished blades; made from a high grade of shear steel. Weight, each, about 6 ounces. Each.....**48c**

Roaching Shears

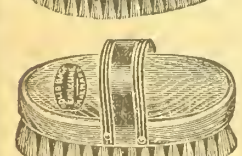
95 E 6785— Made of laid steel and perfectly uniform in temper which makes them keep an even cutting edge. Especially made for trimming horses' manes, tails, fetlocks, etc. Length, about 7½ in. Wt., ea., 7½ oz. Each.....**$1.95**



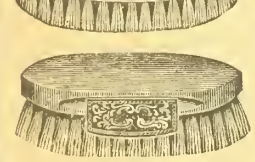
95 E 6615—This style of brush has an oval shape, leather back heavy harness leather strap. 11 rows of stiff black, imported tampico. Size of brush, 9x4¾ in. Wt., 9 oz. Each.....**60c**



95 E 6670—Guaranteed all bristles brass wire drawn, russet leather back stitched around edge, wide leather handle. Size of brush about 8¾x4⅝. Wt., each about 12 oz. Each.....**$1.95**



95 E 6665—This Brush is made on a genuine leather back with fifteen rows of stiff black Chinese bristles, brass wire drawn. The back and strap are made of heavy black grain leather. This is the best all-bristle brush we ever sold for the money. Size of brush, 9x4½ in. Wt., each, 8 oz. Each.....**$1.20**



95 E 6675 — Extra quality, solid russet leather back, buckle on hand strap. Large oval face, with nineteen rows of stiff natural yellow Russia bristles brass wire drawn. All the material in this brush is first, class in every way. Size of brush—8¾ in. by 4½ in. Wt., ea., 12 oz. Each.....**$3.65**

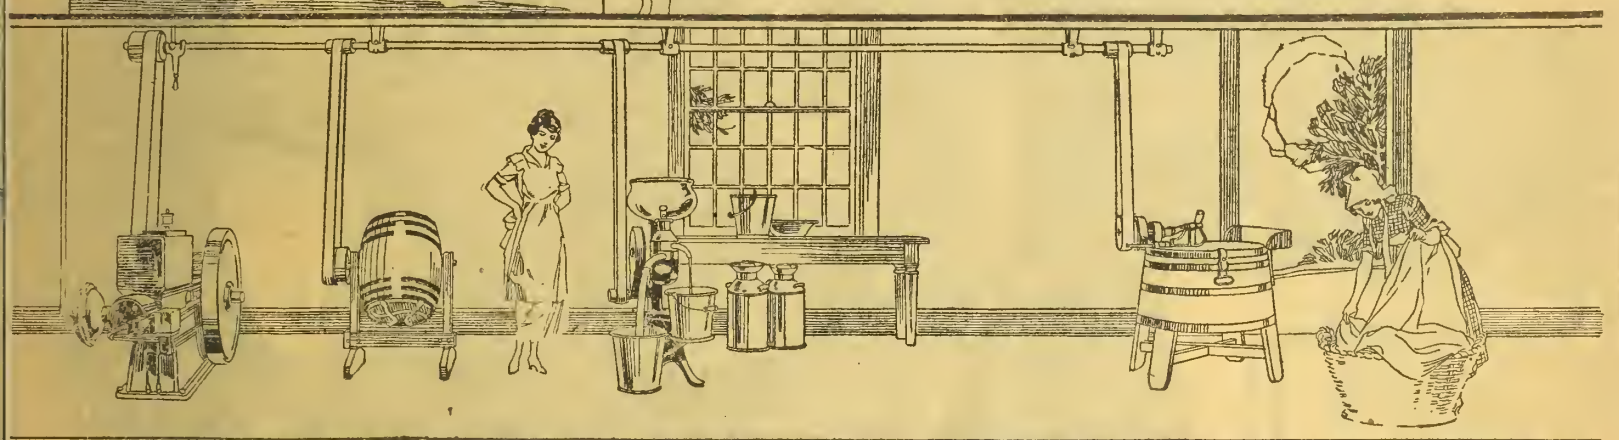
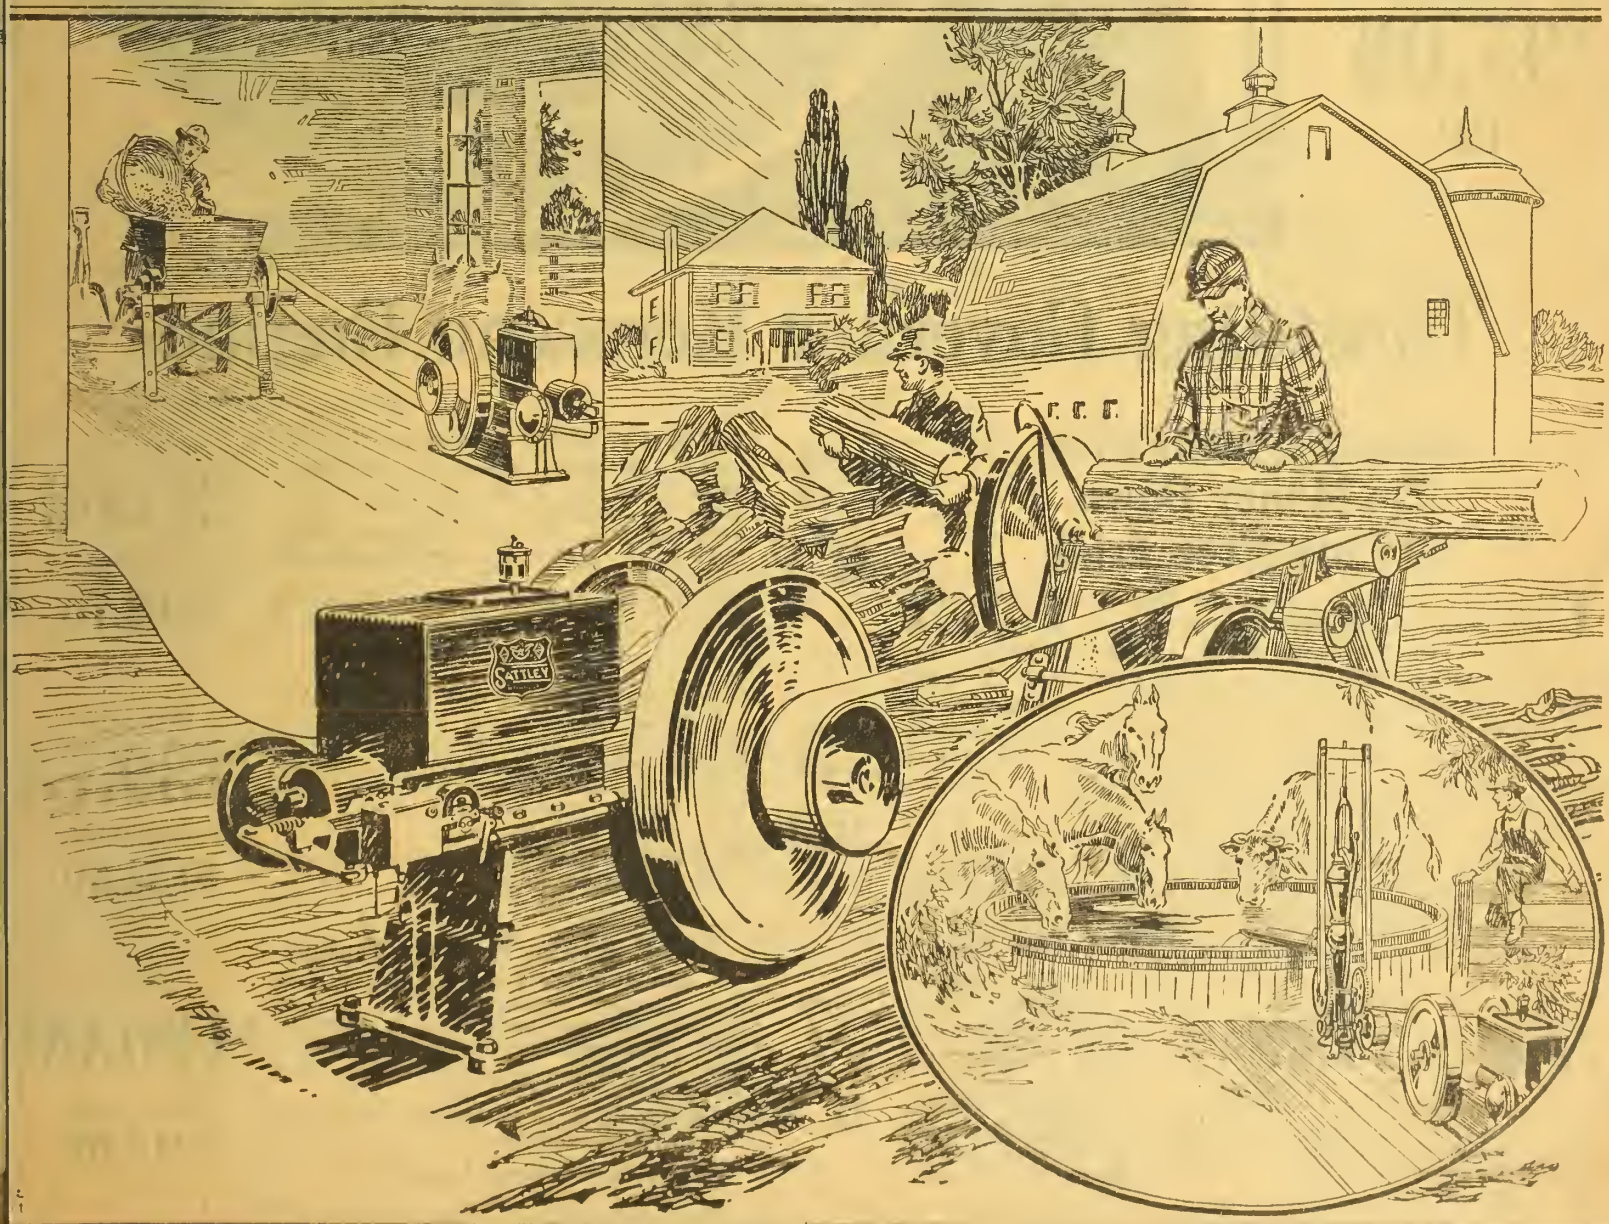
You can depend on our durable Champion post drills

Use Power and Save Your Back

Machine Power Costs Less Than Man Power
It Does Faster and Better Work



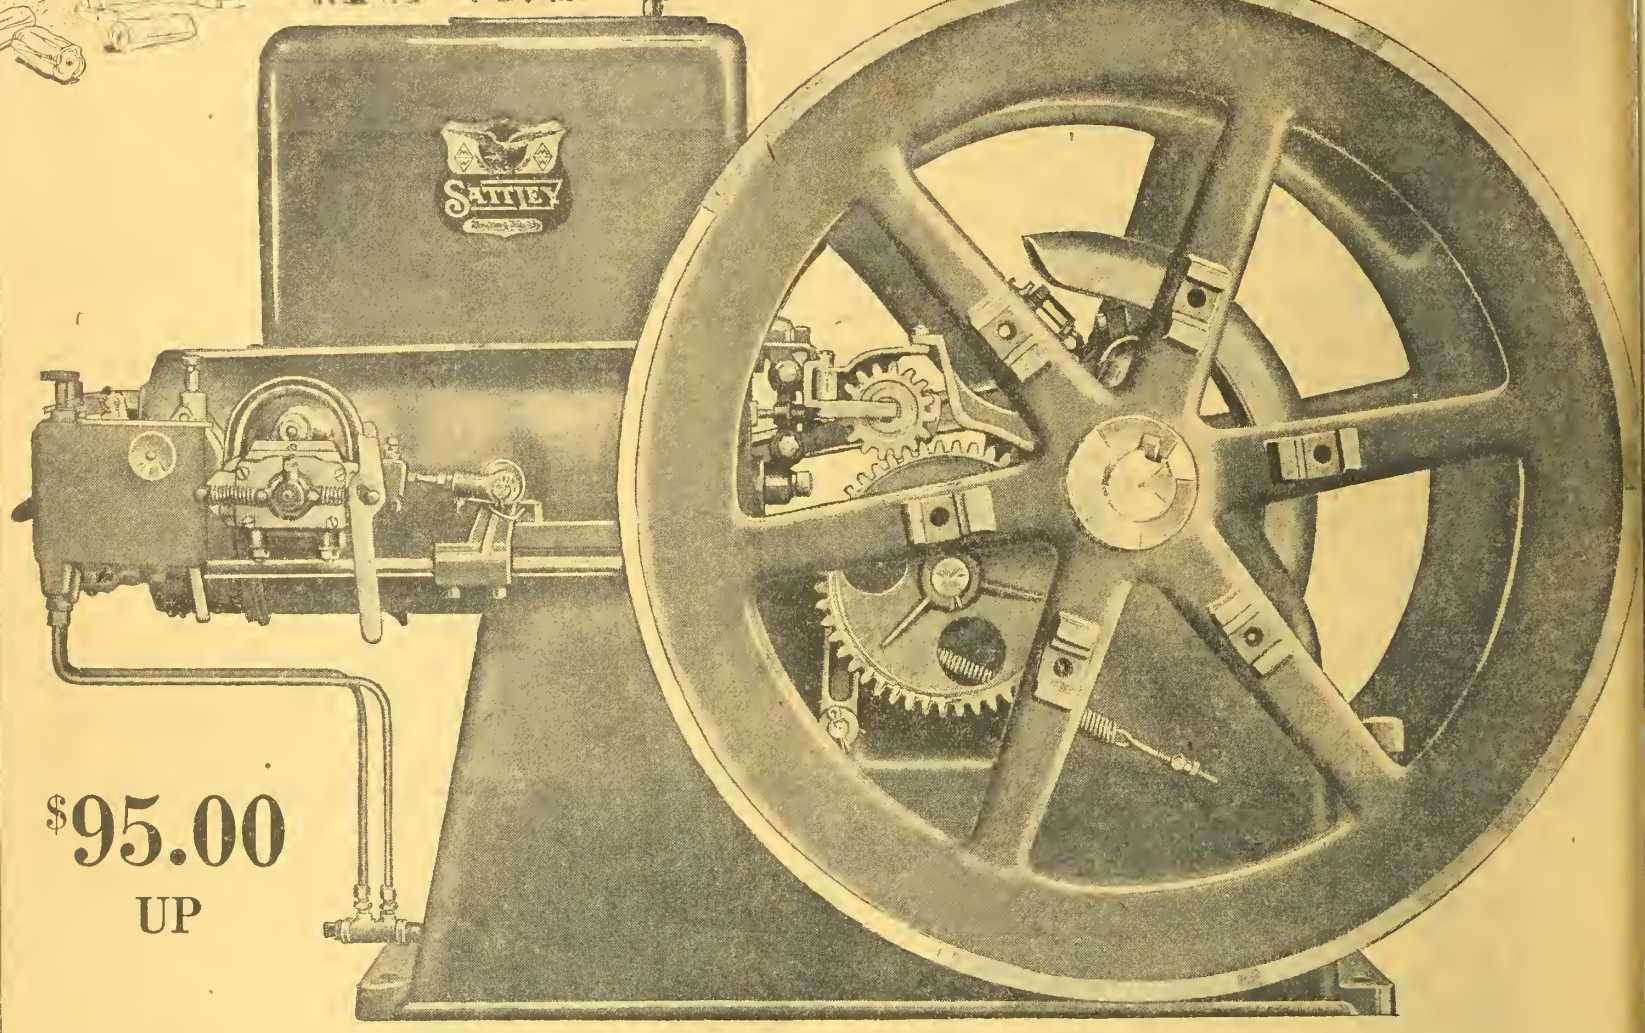
MACHINE POWER will run your feed grinder, pump, shearing machine, feed cutter, concrete mixer, cream separator, washing machine, wringer, saw mill, churn, grindstone, silo filler, electric light plant, and electrical equipment, such as, electric irons, toasters, heaters, lights, motors, vacuum cleaner, sewing machine and many other farm devices.



Power on the farm means more work in less time. Thousands of farmers are installing gas engines and electric motor driven machinery and becoming independent of hired help.

Power-operated labor-saving devices will cut your chore time in half; they will put a hard washing on the line an hour earlier and without an ache; they will eliminate drudgery and make life happier.

All of our farm machinery and power equipment is designed by practical farm engineers and built right in every particular.



Also they are priced right. The mail order factory-to-you system makes low prices possible. Many are sold on easy payments. Study the power equipment in this book and make a start toward a power-operated farm.

Throttling Governor Kerosene Engines

Easy Payment Plan
No Money Down
30 Days Free Trial

YOU do not need to send any money with your order. By taking advantage of our easy payment plan you may use the engine for thirty days on your work before it will be necessary for you to send us any payment whatever. During this thirty days' time you will have a chance to try the engine thoroughly and satisfy yourself that it is exactly what you want. Use it on your wood saw, grinder, or feed cutter, or on the pump jack, washing machine or churn, give it a good test and notice how well it does the work. Learn for yourself how easy it is to start and operate and how much power and service you can get out of each gallon of fuel used. We want you to be entirely satisfied with your purchase. When you are convinced that the engine is exactly as represented, send us your first payment which need not exceed one-tenth of the purchase price. By spreading the remainder of your payments over a period of several months, as is possible under this plan, you will have a chance to make the engine do considerable work of a profitable nature and in that way help pay for itself.

Just use the order blank which you will find on page 870. Indicate the engine you want, showing the catalog number and easy-payment price. As soon as the order is in proper form and all information supplied, the engine will be sent to you. Try to get your order in early.

THROTTLING GOVERNOR Engines

Easy Payments No Money Down 10 Months to Pay

14 Reasons Why You Should Buy a Sattley

Number 1. Ample cooling capacity in every size. No danger of Sattley Engines becoming overheated.

Number 2. The Throttling Governor economical in fuel consumption.

Number 3. The Oiling System that you cannot overlook or forget. Automatic Sight feed lubricator supplies oil to piston, cylinder and wrist-pin bearings.

Number 4. Kerosene Mixer with mechanically operated fuel pump.

Number 5. Webster Oscillator Magneto. Insures easy starting. No wiring or short circuits.

Number 6. Large Cylinder Bore and Stroke for every size. Ample power at moderate speeds. Smooth finish insures long life and smooth running.

Number 7. Fuel Tanks Inside Base, Safety First. Completely protected from damage by the heavy iron base. No danger of fire.

Number 8. Heavy Cast Base high enough to support the flywheels clear of the guard.

Number 9. Adjustable side rod pull back spring.

Number 10. Extra heavy Crankshaft made of drop forged steel. Ground and polished.

Number 11. Wide Main Bearings adjustable. Wick oiled.

Number 12. Connecting Rod especially designed of "I" beam section. Wide bearings to take up wear.

Number 13. Heavy, Strong Cast Shield, not thin sheet steel as is sometimes used

Number 14. Large Heavy Flywheels properly counterbalanced, insure smooth steady running without vibration.

Built So You Can Easily Understand It

Made of the Best Materials

IN constructing the Sattley engine we put into it the best we have in both workmanship and material. The castings are made from close-grained grey iron and each casting is inspected when received from the foundry to detect any flaws which may have occurred in the molding. Great care is used in machining and fitting the various parts

3 and 5-horse power, casting is made in one piece. For the 7-horse power engine we use a double base so that when this engine is mounted on a truck the lower base may be removed. This base casting is designed to support the engine and withstand the weight and vibration through all the years the engine will be in use. We believe you will appreciate the fact that a substantial base of this kind is far superior to wooden skids.

Bearings

All bearings are provided with suitable oil holes or grease cups so that they may be properly lubricated. The crank shaft bearings are babbitted with the best grade of babbitt metal we can get. The bearings are made of sufficient length to give the crank shaft plenty of bearing service.

Cylinder

The cylinder and base are made separate. If you wish to replace the cylinder at any time this can be done without changing the base casting. The cylinder head is bolted to the cylinder by four heavy studs with a carefully cut gasket in the joint, to make the connection absolutely tight.

The Fuel Tank

The fuel tank is inside the base. There it is protected from injury and practically eliminates the danger of fire. Each fuel tank is tested under pressure to be certain that there is no leakage. Filler pipe is provided for putting in the gasoline or kerosene which the engine uses for fuel.

Reliable Ignition

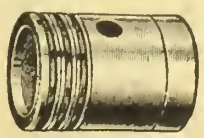
You want your engine to start easily in cold weather and to run steadily without missing explosions. That is why each Sattley Engine is equipped with a Webster Oscillating Magneto. It not only saves the expense of dry cells but it produces a better and more regular spark than you could get with various other types of magnetos. The matter of ignition requires special consideration in a kerosene engine. The action of the spark points on the Webster Igniter Plug keeps these points from becoming encrusted with carbon and thereby avoids a condition so often met with in high tension ignition using a spark plug. Misfiring means wasted fuel and loss of power. The Webster Magneto furnishes a good hot spark even on the coldest days. This means that your engine will start easily even when the metal is cold and fuel vaporizes slowly.

Valves

The valves are located in the cylinder head where they can be easily reached for regrinding when necessary. The valve-in-the-head method of construction is particularly desirable in kerosene engines as it avoids valve pockets. This means that there is much less opportunity for carbon to accumulate and the valves can be more readily cooled. Each valve is carefully ground and fitted and the valve springs are set at the right tension to give the best results.

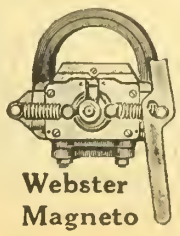
Flywheels

The flywheels are properly balanced and are of just the right size to conform with the speed and power of the engine The flywheels on the 3-horse power size are frequently used for belt purposes to drive lighting plant generators.



Let the Sattley Prove Its Worth Before You Pay for It

We have described these details of construction briefly but we want you to see the engine for yourself in order to judge of its quality. Sattley engines are built to last for many years. When you invest the price of an engine you will want assurance that the engine will continue to give you service long enough to earn the price you paid for it. Sattley engines may be depended upon to make full returns for every dollar invested in them.



If you buy your engine on our Easy Payment plan you will have thirty days' time in which to try it before sending us any money. If you take advantage of our cash price you may send your remittance with the order or deposit the money in your local Bank. Either method will be satisfactory to us. In case you wish to have the money remain in the hands of your Banker during the trial of the engine, just give us the name of your Bank and the bill of lading will be sent there where you can secure it by depositing the purchase price of the engine. This money will remain in the hands of your Banker for thirty days. If by any chance the engine does not please you, let us know and we will send you the necessary shipping tag for returning it. When this bill of lading showing return shipment is presented to your Banker your money will be immediately refunded. This test will cost you nothing as we will reimburse you as well for all freight charges paid.

Ward's Sattley

Sattley Three-Speed Gasoline Engines

THE patented Three-Speed Regulator is the simplest and most perfect speed changing device on the market. It is a marked improvement over the common type of governor, which can work accurately only at one speed. It is very simple and effective.

Simply push the hand wheel in or pull it out, and while the engine is running you can thus change the speed to meet the requirements of the job. A cream separator can be hooked up to the engine that has been running a grindstone by simply changing the speed. And it is all done without the use of extra pulleys, gears, shafting or other expensive equipment.

1½ Horse Power Actual horse power at normal speed 1½. Hit or miss governor. Bore, 3½ inches. Stroke 4 inches. Ignition, Webster magneto. Normal speed 550 revolutions per minute. Pulley, diameter, 4 inches; width, 4 inches. Crank shaft, diameter, 1¼ inches. Flywheel, diameter, 15½ inches. Has regulator for changing speed without stopping. Shipping weight, 245 pounds.

Friction Clutch Pulleys for Engines

Our hug grip clutch pulley with contracting band is constructed of only 11 parts, simple to operate and adjust. The wide friction band worked by a single toggle lever secures positive action and insures long life. The entire adjustment is made by tightening or loosening one nut. The hand wheel is a one-piece casting without joints or lugs, and cannot injure operators' hands or fingers. The extra wide pulley bearing fitted with grease cup, and the simplicity of construction and adjustment makes this one of the best friction clutch pulleys on the market.

We furnish plain engine pulleys regularly with all Sattley Engines but a Friction Clutch Pulley performs better, enabling the operator to start or stop the engine independent of each other, saving wear and tear on both.

For Belting and Transmission See Page 822.

287 E 5280

These sizes are bored for Sattley Engine Crank Shafts and are the same size as the regular plain pulley listed with each size engine. The prices quoted are to be used only when Friction Clutch Pulleys are ordered and shipped in place of the regular plain pulley with new Sattley Engines.

Shipped with your engines.

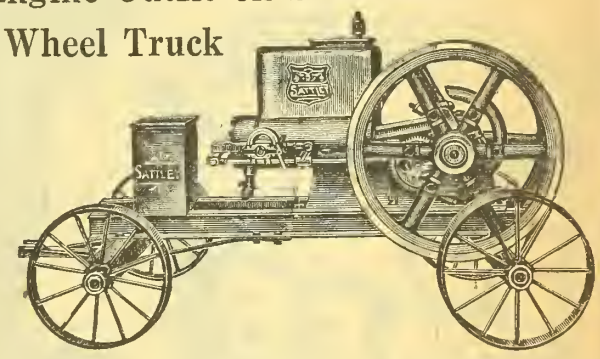
Sattley Power Saw Rig Outfit

THE saw frame and table of the Sattley Saw Outfit can be removed from the truck in a few minutes, then you have a complete portable engine. The 5 H. P. engines with single base, are mounted direct on the truck beams, but the 7 H. P. engines are mounted with the engine bed directly bolted to the beams, the 7 H. P. sub-base removed, with the 7 H. P. fuel tank fastened by steel strap between the truck beams so that the whole engine and flywheels are lowered to avoid top-heaviness on the road when transported.



The truck has heavy 5-inch channel steel beams 8 feet long with 1⅝x 62-inch front and rear round solid steel axles strengthened by 3-inch I beams 42½ inches long bolted above the axles with braces from the beams to rear axle and fifth wheel. Front wheels are 24-inch diameter with 4-inch grooved tires ⅜-inch thickness. Rear wheels are 32-inch diameter with 4-inch grooved tires, ⅜-inch thickness. The tilting table saw frame has all steel frame and braces with standard 60-pound balance wheel and shaft for saws with 1¾-inch arbor hole. Standard steel cordwood cutoff saw furnished, filed and se ready for use, 26-inch diameter with 5 H. P. Outfits, 30-inch diameter with 7 H. P. Outfits. Complete outfit includes truck and engine with Webster magneto, tool and seat box, saw frame, belt, saw and standard 2-horse pole. (Neckyoke, single and doubletree not furnished).

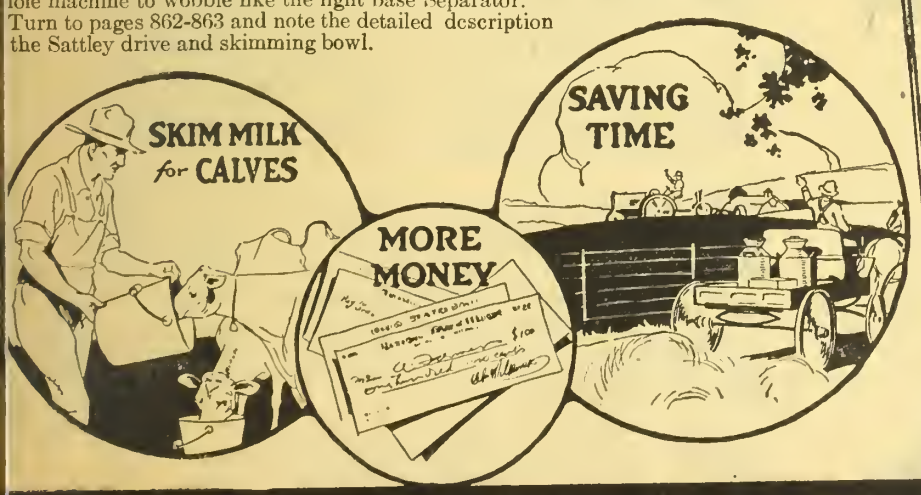
Let the Sattley Prove Its Worth Before You Have to Pay a Penny of the Purchase Price

Quality at Economy Price

THE Cream Separator is no longer an experiment or a luxury—it is an absolute necessity on every farm having two cows or more. The estion you must decide, however, is what make of Separator to buy. You know it is to your advantage to buy the best—you also want get it at a reasonable price. The Sattley Cream Separator solves ese problems for you in a Satisfactory and Economical way—for e Sattley is guaranteed to skim as close and last as long as the best parator made, regardless of price, and is sold to you at a figure that remarkably low for the exceptionally high quality. Read the de-led description on pages 862–863 and you too will realize that there no other Separator made—high priced—cheap—or medium priced that offers to the farmer as much Separator Value for every dollar vested as does the Sattley!

It is built so you can easily understand and operate it. No com-cated or unnecessary parts, to get out of order. A boy or girl can n the Sattley Separator just as efficiently as an experienced farmer. ıe simple directions sent with each machine are easy to follow. ıere are thousands of satisfied Sattley Separator users, some, of ıich may be friends of yours. Ask your neighbor about the Sattley, may have one or write us and we will send you the name of a Sattley er in your district that will tell you what he thinks of the Sattley parator.



NOTE: the detailed description of the mechanism of the Sattley as ustrated below.

Know the Separator You Buy

In deciding upon the merits of a Cream Separator there are three important points to ep in mind above all others: the Frame, the Drive, and the Skimming Device. A eam Separator frame is called upon to support machinery which runs at the highest eed attainable and it must withstand considerable rack and strain. Should the base d frame be lightly built or perched on a high or narrow base with the bulk of the ight above the center, its life is necessarily short. A spindly, top-heavy or lightly ilt frame or base cannot be kept from being strained out of plumb by the fast whirling wl. To skim milk properly, the bowl must at all times be level.

Everyone experienced with Cream Separators knows this to be true and that is ıy the Sattley Separator is built with a heavy square base. It stays solidly on the or and does not pull and tug on the lag screws until they become loose and cause the ıole machine to wobble like the light base Separator.

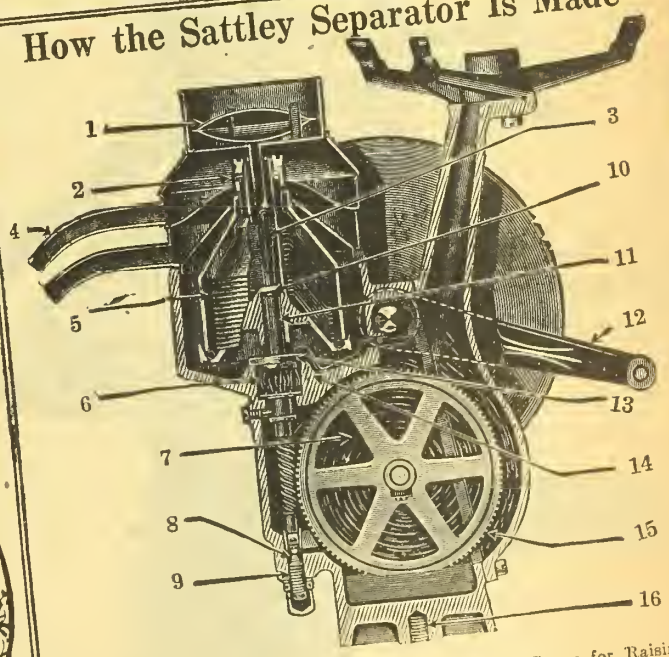
Turn to pages 862-863 and note the detailed description the Sattley drive and skimming bowl.

Bigger Cream Profits with Less Work

Buy a Sattley and Get All the Profits Out of Your Milk

IF you have no Separator, or have an old machine that is worn out and does not skim clean, then right now, before you suffer any further losses, get a new Sattley Separator.

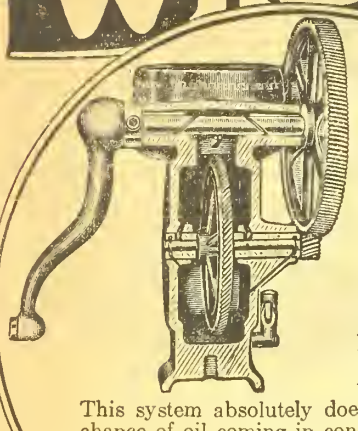
You will get a high grade, up-to-date, close-skimming Separator with many new mechanical, skimming and sanitary features. The Sattley skims so closely that it takes a Babcock Test to detect the trace remaining.



That is the kind of Separator you want.

Sattley Separators are built by men who are experts in this line, and every machine, although as accurately built as it is possible to build a Cream Separator, is subjected to severe tests right in our own factories, as explained below, so that we may be positive that every part of the machine will give the best service when placed in the hands of our customers.

Every Sattley Separator before leaving our factory is fully assembled, run for several hours, taken apart and examined by experts and then assembled again and put through skimming tests. Every bowl is put through this test and is guaranteed to skim to 3/100 of 1 per cent or better, no matter what density of cream is desired.



A certificate of inspection is enclosed with each machine showing exactly how it performed under rigid factory tests before being shipped.

How the Sattley Separator Is Made

1. Reversible Float with Smooth Surface.
2. Easily Adjustable Cream Screw.
3. Patented Distributing Blades.
4. Extra Heavy Tinware.
5. Only 30 to 33 Sanitary Discs.
6. Simple Spring Bearing. Durable and Easy to Adjust.
7. Splash Oiling System, Oiling All Gears, Bearings and Shafts.
8. Hardened Steel Points, on which Spindle Revolves.
9. Adjustable Screw for Raising or Lowering Bowl.
10. Center-Balanced Bowl.
11. Detachable Bowl Spindle.
12. Short Crank, Easily Turned.
13. Bearing for Spindle, Oiled by Splash Oiling System.
14. Bearing Case, Protecting Gears from Water and Milk.
15. Bronze Helical Tooth Worm Gear.
16. Screw Holding Frame, Drip Shelf and Base Together.

What You Get When You

Self-Oiling Splash System

No oil cups to fill or adjust.

One supply of lubricant is sufficient for three to four months.

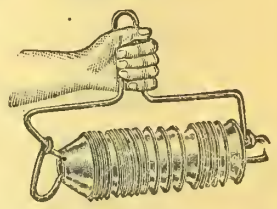
This system absolutely does away with any chance of oil coming in contact with the milk or dripping on the floor; prevents hot bearings; saves time, money and trouble.

Simplicity—

SIMPLICITY in construction is the key note of Sattley Separator success with farmers and dairyi throughout the United States. There are no unnecessary parts in the Sattley to clog the mechanism make it hard to clean and operate. Note the superior features illustrated on this and following pag they show you the Self-oiling Splash System, Patented Tubular Shafts, Self-balancing Bowl and o features of the Sattley Separator that are the result of many years of planning, designing and perfec features that mean long life, satisfactory service, skimming to a trace and easy running.

The Skimming Bowl is the heart of the Cream Separator. All other parts are solely for the purpose of making it possib turn the bowl rapidly in order that it may perform its work properly. Our separator engineers, after spending years i signing and experimenting, have perfected the Sattley Bowl, that for close skimming qualities cannot be excelled by any s rator on the market. The Bowl Center or tubular shaft is made from a solid piece of steel and takes 42 separate mac operations to make it. 3 wings are scientifically placed inside the bowl center, which distributes all the milk in a thin st over all the discs, not over only a few, making each do its maximum work, thereby separating more thoroughly and ge practically all the butter fat from the milk, and does it in two-thirds less time than other separators on the market. That reason why the Sattley Cream Separator is well known for its close skimming.

Superior Neck Bearing

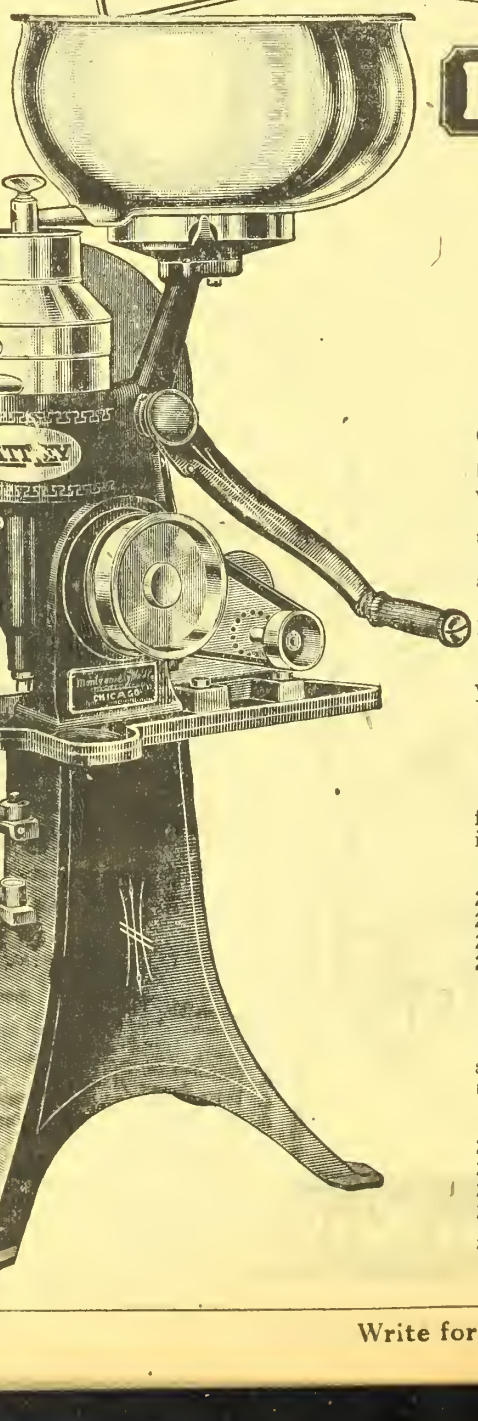


The new top bearing is the simplest and most satisfactory ever devised for the purpose, possessing every advantage and none of the disadvantages of all other top bearings. The bearings are special die castings accurate to 10/1000 of an inch, are made of an anti-friction metal that is far superior to a babbitt bearing and is almost frictionless, which means long life.

How the Sattley is Different and Why it is Better

The Sattley center balanced Bowl is supported by a spindle midway between top and bottom avoiding top-heaviness and wobbling. Spindle is detached from the bowl, is always in machine, therefore danger of springing is removed. Sattley bowl runs only 6000 to 7000 revolutions per minute to get same skimming effect produced by other bowls running at 9000 to 15000. This low speed bowl means less wear and longer life. Spindle is made of special alloy steel accurately ground to 4/1000 of an inch, revolves on specially hardened steel points, which are easily replaced at small cost after years of service.

Easy to Keep Clean and Sanitary



This feature will appeal to every woman who uses a Separator—and to every man also. Note the simple way in which skimming discs are removed from bowl and shaft and how easily they are washed and sterilized. Takes only two to four minutes to give them a thorough scalding and dr them. Each disc is pressed from on piece of steel, is heavily tinned and elec trically welded.

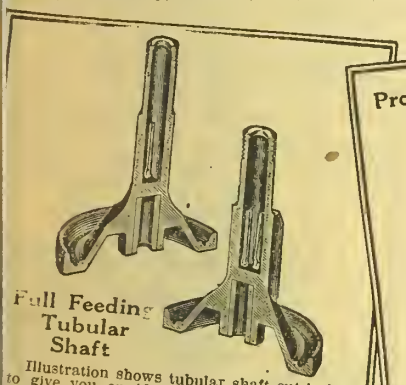
Buy a Ward Sattley Separator



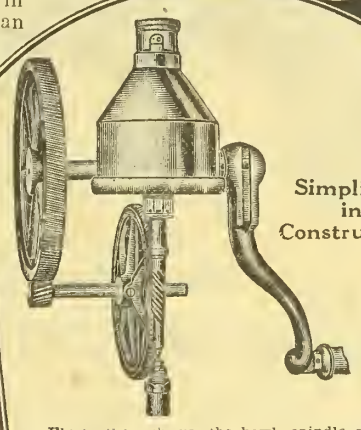
Economical in Operation

HERE are many reasons why the Sattley Separator makes friends on the farm. It is low in price for the exceptionally high quality, economical in day to day operation and represents increased fits in cream yield. It is easy to operate, a child can run it. Accuracy of bearings, improved s, self-balancing bowl, self-oiling system—all these mean easiest running. Because it is self- g, no oil cups or lubricators are necessary. Every bearing is perfectly oiled every time the handle perated by the positive, constant circulation of fresh oil, supplied by the Sattley Automatic Oil tem. Because it is the right height—easy to fill without spilling milk and less tiresome for women perate than most separators on the market. Because it has a low speed bowl, half the speed of rs, does not break up the butter-fat, yet separates it perfectly. Finally, because the drudgery of m separating disappears when the Sattley is used. You, too, will say there's a world of satisfaction sing the Sattley. TRY IT.

Quick Service on Renewals and Repairs

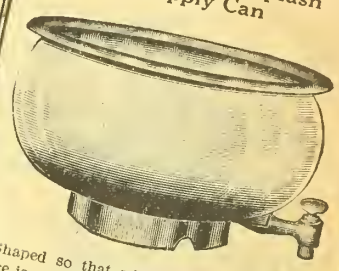
ocal dealers often say you should buy a separator of them because if you have any trouble they help you out. Separators are past the experimental stage and the Sattley is simple in construction a woman or boy can easily operate it and keep it in fect condition. No shrewd and economical buyer will pay a fancy price for an red service that is seldom ever used.

epairs Always: Sattley Separators are made in our own factory. You will always be to get repairs. A stock of every part is always carried ready for immediate shipment hicago, Kansas City, Portland, Ore., Fort Worth and in our factory at Springfield, Ill.



Full Feeding Tubular Shaft

Illustration shows tubular shaft cut in half to give you an idea of inside construction. Three slot openings in the shaft feed from top to bottom. All of the milk is thus fed to all of the disc. Three wings on the inside break up the whole milk wall, insuring cleaner separation. This is a patented feature, designed by the builder of the Sattley for this machine exclusively.



Profit Making Skimming Device

There are but 30 to 33 Discs in a Sattley Separator and every one is a producer—each one skimming 100% from the entire surface. This means increased profits. Discs are of pressed steel, heavily tinned. Steel discs tinned, are more efficient in skimming and more sanitary than the nickel-plated discs, used in some separators.

Simplicity in Construction

Illustration shows the bowl, spindle and gearing as they would look with frame removed. Note the simple, strong, direct gearing, the improved noiseless clutch, etc. Gears are wide faced and accurately cut. The faces of all gear teeth are ground and polished after cut to insure faultless operation.

Sanitary Anti-Splash Supply Can

Shaped so that when milk is poured in there is no splashing or slopping over. Made of extra heavy pressed steel of one piece, heavily tinned, no seams or bends to catch dirt. Sanitary and easily cleaned. Can deliver full capacity to the last drop of milk.

EASY TO RUN EASY TO CLEAN SKIMS TO A TRACE

Easy to Run—Easy to Buy

The Following Ways of Ordering Are for Your Convenience:

ull Purchase Price with Your Order

EARLY all our customers send cash with their order, if you wish to order on this n, send a Post Office or Express Money er, Bank Draft or Personal Check, for separator you desire and we will ship nce.

When it arrives at your station you then the freight charges, take the separator ne and use it for 30 days before deciding keep it. Then should you decide not to p the Separator, write us for return pping directions. We will gladly return ir money and the freight charges you d.

Pay After 30 Days' Trial

Should you want to take advantage of liberal 30-Day Free Trial to see and the Sattley before paying for it, just give the name of your Home Banker or ask n to give you a letter saying that he knows n are reliable, which he unquestionably l gladly do. Then send this letter with ir order.

After you receive the Separator try it for days and after assuring yourself that the ttley is perfectly satisfactory send us ment in full at the end of your 30-day al.

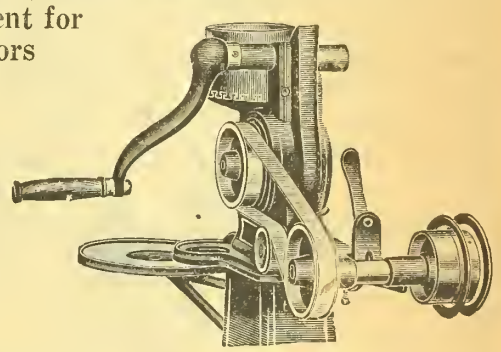
Our Easy Payment Plan—No Money Down

If it is more convenient for you to pay in monthly installments, we will ship the Sattley to you on easy monthly payments, so small you won't feel the cost at all. No deposit is necessary at the time of ordering and you pay the full purchase price in easy monthly payments, beginning 30 days after you have received the Separator, until you have paid in full. You use the Sattley while paying for it. You give it a chance to earn its own cost and more before you pay.

Renewal parts are often needed right in the busy season, a time when prompt shipment is of vital importance. At such a time users of Montgomery Ward & Co.'s machinery will appreciate the protection of our Renewal Service.

You can avail yourself of this protection now by buying your machinery here, where you can always get renewal parts promptly.

When ordering parts give name and article number and date of purchase of the machine and part number of the piece required as it appears cast on the original.



Repairs for Other Machines

Whenever renewal parts are required for other articles of machinery shown in this Catalog which we do not manufacture, we have arranged for an ample stock of renewal parts so that prompt shipment of such parts is assured.

This applies to such machinery as: Windmills, Pumps, Pump Jacks, Concrete Mixing Machinery, Feed Cutters, Corn Shellers, Grinders, Scales, Spray Pumps, Stump Pullers, etc.

Use Power Attachment for Sattley Separators

$13.50 Cash Price

Power Attachment Complete

With the extended use of power machinery on the farm and in the dairy has come a gradual demand for a power attachment by owners who have run their machines by hand. Primarily a hand-operated machine, the 1920 Sattley Cream Separator, by means of a simple attachment, becomes a power-driven unit.

It is important that the transmission of power to a hand separator be uniform and regular, entirely free from shock or jerky motion.

The new Sattley Power Drive is one of the simplest and best means of power driving a hand separator yet devised. It is designed for and is used exclusively on Sattley Separators. Especially recommended for power drive for No. 21 Sattley Separator.

The power is transmitted by belt to the tight and loose pulley set provided with a belt shifter, thence from the short countershaft pulley by an endless belt to the pulley on the special extended lower or worm wheel shaft of the Separator. The novel feature is the idler pulley belt tightener which automatically absorbs by a coiled spring all shocks resulting from irregularities of speed which occur with practically every kind of power. Outfit consists of power drive frame with set screws, with tight and loose pulleys, belt shifter, idler pulley and spring, driven pulley, short leather belt as shown, extended pinion shaft for worm gear longer than regular so as to extend to take pulley. The crank is left on so that it can be run by hand or power as desired.

It is advisable to have the Power attachment built into the Sattley Separator at the factory. If you have a Sattley on your farm and want the power attachment it will be necessary for you to ship your Separator to the factory for this work.

239 E 4658—Power Attachment for Sattley Separator. (State size, number, bowl number, and capacity of separator). Shipping weight, 30 pounds..... Easy Payment Price **$14.75** Cash Price **$13.50**

Shipped from our Factory at Springfield, Ill., with extended pinion shaft, or built into separators which are shipped from our Factory at Springfield, Illinois.

Friction Clutch Separator Pulley

Designed to operate cream separators by power. Should be used in connections with a governor pulley when belting up to engine power.

Diameter, 12 inches; face, 2¼ inches. Number 387 E 4670 pulleys for ⅞-inch shaft and Number 387 E 4672 for ¾ and 1-inch shafts are regular stock. Other sizes require 5 days' delay to make to order.

When ordering be sure to state size of crank shaft of separator; also name, serial number or bowl number, size, number, capacity and name of separator and date of purchase.

7 E 4670—For Golden Harvest Separators sold before January 1, 1917, or for any separators lt with low tank at side. (State bore.) ce..... **$4.65**

7 E 4672—With extended Sleeve Hub for Sattley Golden Harvest or other separators with high ks in same position. (State bore.) ce..... **$5.35**

Weight, 15 pounds.

Rubber Bowl Rings for Sattley Separators

Sold only in packages of 6 rings.

87 E 4660—Rubber Bowl Rings for Sattley Separators Nos. 15, 17, 19 or 21. **(Be sure to state size, number, serial number and bowl number of your Sattley Separator.)** Per package of six rings, shipping weight, 4 ounces. Price..... **39c**

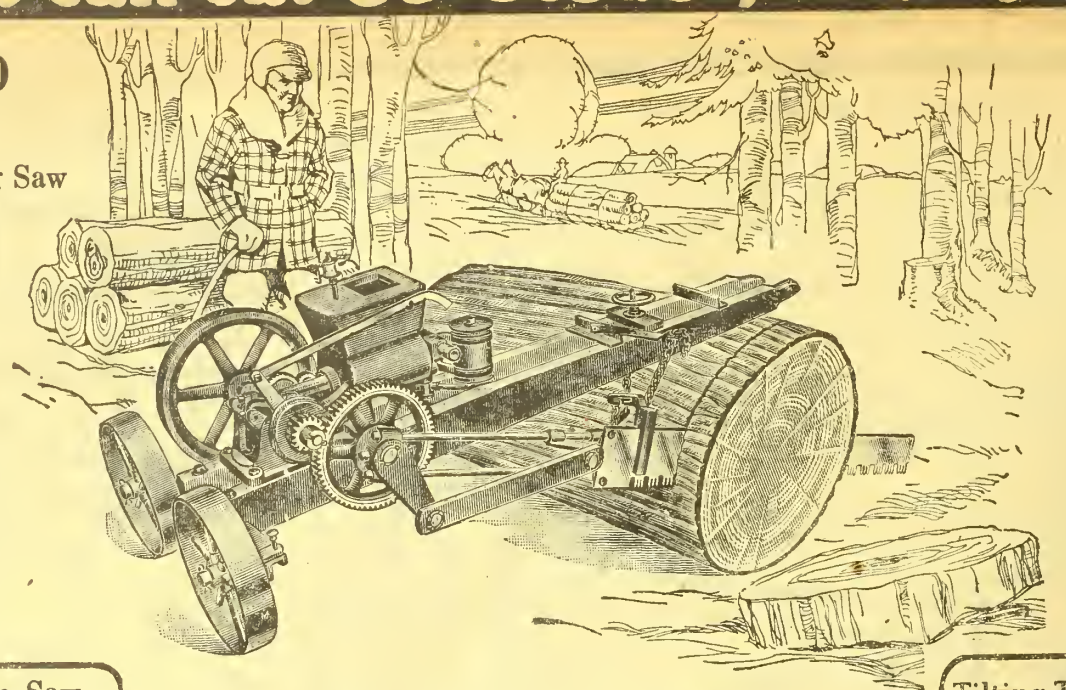
87 E 4666—Rubber Rings for separators bought previous to January 1, 1917. Be sure to state serial number of bowl stamped on bowl-nut or bowl cover or bottom of bowl. Serial number also stamped on edge of bowl casting surrounding bowl; also state capacity and size, number and date of purchase of separator. Per package of 6 rings, shipping weight, 4 ounces. Price..... **48c**

One Man can cut 35 Cords per Day With This Outfit

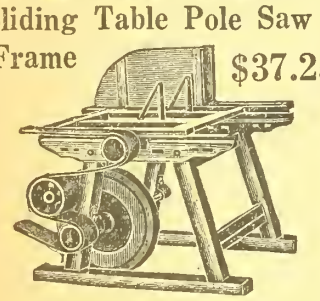


$147.00

Climax Portable Log Saw

Average Cost to Operate 10 Cents Per Hour

One Gallon Gasoline Sufficient to Cut 8 Cords of Wood



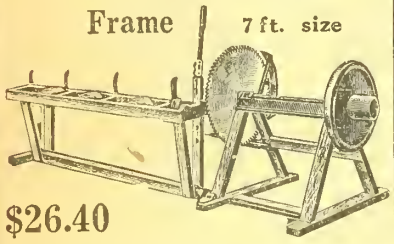
Get a Climax log saw to do your wood sawing for you. It is built so you can easily understand and operate it. When the wood sawing season is over you can use the engine for pumping water, running a grinder or doing any other 4-Horse job you may have. It is designed specially for use on the log saw outfit but we furnish a 4x4 pulley with it so it can be used for belt purposes, developing 4 full horse power.

One Man Can Saw 35 Cords of Wood a Day with a Climax Drag Saw

The machine is a fast worker as the saw blade makes over 300 strokes each minute. The outfit may be loaded onto a sleigh or wagon and taken wherever the wood is to be sawed. It can be trailed behind a wagon if you prefer, as it rides on two large wheels. It can be moved from one cut to the next or from one log to the next by balancing the weight on the wheels. The saw is started or stopped by means of a hand lever, and if the blade is pinched in the cut the clutch will slip. The engine may continue while the blade is released. The operator is never in danger of being injured. The saw blade is of the finest grade, crucible saw steel, 10 gauge of either Simonds, Disston or Atkins make with teeth filed, set and ready for use.

Sliding Table Pole Saw Frame

$37.25



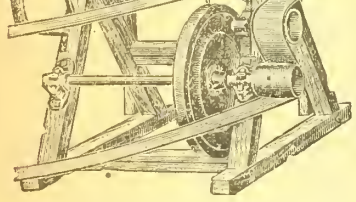
For sawing poles and cordwood. Sliding table pattern. Balance wheel on separate shaft, allowing sawing of poles as well as cordwood. Belt tightener pulley on heavy bracket shaft box prevents belt slipping and insures even steady motion. Frame seasoned hardwood, strongly bolted and thoroughly braced. Safety hood over saw blade. Diameter of arbor and mandrel pulleys, 5 inches, 6-inch face, 95-pound balance wheel, all bearings well babbitted, 1½-in. cold rolled steel mandrel with 1⅜-in. arbor. Speed 750 to 1,000 revolutions per minute. Saw blades extra. Shipping wt., 430 lbs.

287 E 6442—Right Hand Pole Saw Frame. (Cut-off wood drops to your right hand.) Price..... $37.25

Shipped from Factory near Chicago.

Swing Table Pole Saw Frame

7 ft. size



$26.40

Frame made of seasoned hardwood well braced. Bearings long and well babbitted. Diameter mandrel, 1⅛ inches, cold rolled steel turned down to 1⅜ inches at arbor. Diameter of pulley, 5 inches with 6-inch face; 95-pound balance wheel. Suitable for saws 20 to 30 inches diameter. Speed 750 to 1,000 revolutions per minute. Tilting table is fitted with 3 rollers. Compression spring returns table to position. Steel lever fitted with dogs holds pole in place. Saw blades are extra. Shipping weight, 350 lbs. Right hand only.

287 E 6444—7-ft. Swing Table Pole Saw Frame Complete. Price..... $26.40

Shipped from Factory near Chicago.

Swing Table Wood Saw Frame

Works equally well with cordwood or poles. Speed, per minute, 750 to 1,000 revolutions. Balance wheel is low down, and out of the way of long poles, giving machine steadier motion than if attached to mandrel. Diameter of mandrel, 1½ inches, cold rolled steel; length, 49 inches, turned at arbor to fit saws with 1⅜-inch hole. Tightener pulley in center hung on strong bracket box. Diameter of pulleys, 5 inches with 6-inch face. All bearings babbitted, 95-lb. balance wheel. Shipping weight, 400 lbs. Saw blades are extra.

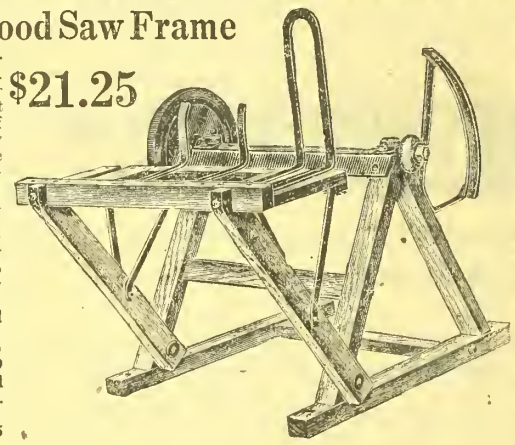
287 E 6440—Right Hand only. Wood drops to your right. Price..... $30.50

Shipped from Factory near Chicago.

Climax Portable Log Saw

The Climax engine is of the four-cycle, water cooled type, equipped with a Webster magneto. It operates on gasoline only, so the speed can be reduced or changed as often as desired and the pull may vary without making any difference in the conduct of the engine. It is easy to start on the coldest day and will run smoothly and steadily.

287 E 5004—Climax log saw outfit complete with 5-ft. blade. Actual weight, 450 pounds. Shipping weight, 490 pounds. Price..... $147.00



287 E 5005—Climax log saw outfit complete with 6-ft. blade. Actual weight, 455 pounds. Shipping weight, 500 pounds. Price..... $148.90

287 E 5007—Climax log saw outfit complete with 7-ft. blade. Actual weight, 460 pounds. Shipping weight, 510 pounds. Price..... $150.80

Shipped from Factory near Kansas City, Mo.

Tilting Table Wood Saw Frame

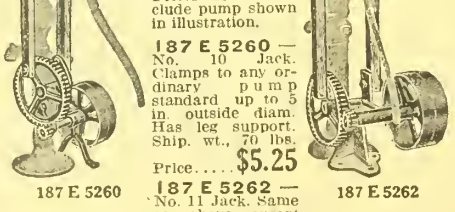
$21.25

1½-inch cold rolled steel, mandrel bolted frame, extra strong. Well braced. Made in 2 styles for cordwood only and with attachment for use with long poles. Frame is of dry hardwood full size, thoroughly ironed and braced. Bearings are long and well babbitted. Diameter of saw arbor, 1½ in.; length, 49 in., cold rolled steel turned down at ends to fit saws with 1⅜ in. holes. Belt pulley, diameter 5 inches, with 6-inch face. Heavy iron saw guard. Speed 750 to 1000 revolutions per minute. Saw Blade is extra. Right hand only.

287 E 6432 — For cordwood only as in large Illustration; 60-lb. balance wheel. Ship. wt., 275 lbs. Price..... $21.25

287 E 6434 — For cordwood only, as in large illustration; 95-lb. balance wheel. Ship. wt., 310 lbs. Price..... $22.75

With Pole Extension



287 E 6436—Saw Frame, with pole extension for cordwood or poles, with 60-pound balance wheel. Ship wt., 300 pounds. Price..... $22.50

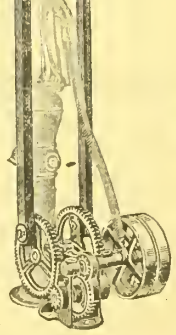
287 E 6438—Saw Frame, with pole extension for cordwood or poles, with 95-pound balance wheel. Ship. wt., 335 pounds. Price..... $23.95

Shipped from Factory near Chicago.

$5.25 Climax Pump Jacks $8.95

187 E 5260

187 E 5262



For attaching to Ordinary Well Pump Standard. Back-geared jacks, to operate by belt, with small gasoline engine or belt power. Can be attached to any ordinary pump with windmill top. Back geared 4¼ to 1. 3 strokes, 5 in., 7½ in., 10 in. Diam. of tight and loose pulleys, 12 in. for 2-in. belt, furnished with clamps and bolts to attach to pump standard. Prices do not include pump shown in illustration.

187 E 5260 — No. 10 Jack. Clamps to any ordinary pump standard up to 5 in. outside diam. Has leg support. Ship. wt., 70 lbs. Price..... $5.25

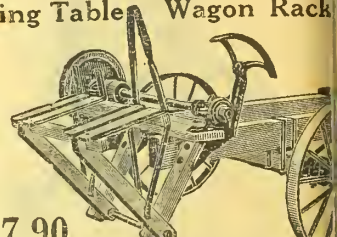
187 E 5262 — No. 11 Jack. Same as above except with sub-base which supports itself independent of pump instead of clamp and bolts. Necessary where jack can't be clamped to pump. Can be used on floor, wall or ceiling. Shipping weight, about 80 pounds. Price..... $6.90

Shipped from Chicago Stock

Double Back Geared

This is an excellent all-around jack to use with gas engines, all sizes. Pulleys make 341 r. p. m. while pump is making 35 strokes per minute. Can be belted direct to small engine without slowing engine down.

Double back-geared. Furnished with tight and loose pulley. Back geared — 9¾ to 1. Three strokes — 4½, 7 and 10 in. Pulleys, 12 in., diameter for 2-in. belt.



Heavy duty pump jack that will operate any pump with upright standard and windmill head. Ship. wt., 95 lbs.

Pump not Furnished.

287 E 5264 — Climax Type B Pump Jack..... $8.95

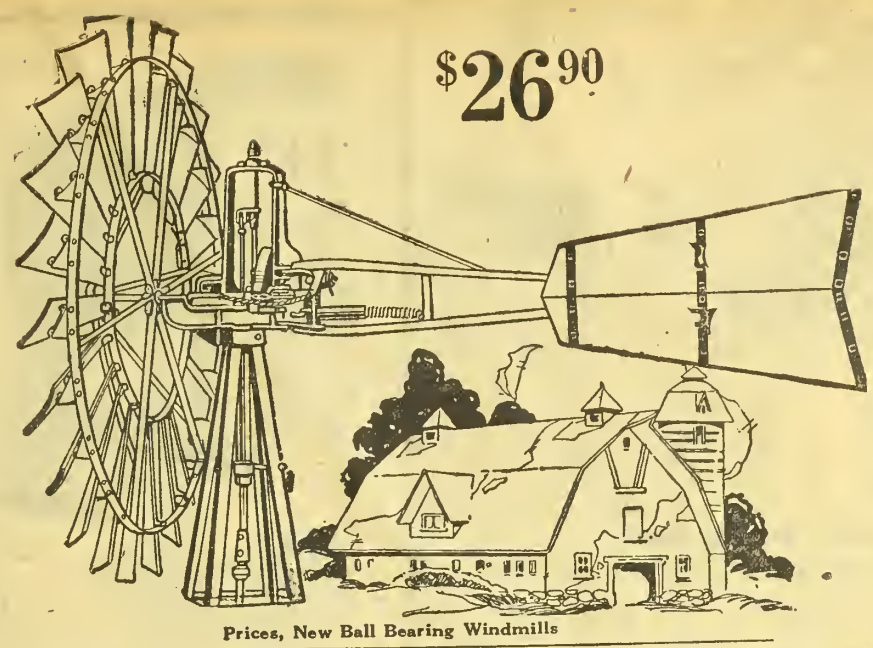
Shipped from Factory near Chicago.

Cordwood saws to fit our saw frames, page 793.



Ward's New Ball Bearing Windmills *They Work Quietly*

THERE is a great satisfaction in owning a Ward's Ball Bearing Windmill because of its easy, quiet running and heavy, rigid construction.

These Windmills do not squeak and clatter, disturbing the quietness of the surroundings. They work quietly and in perfect balance because they are made right. These mills are equipped with ball bearings in the turn table.

Wind Wheel is made up in 6 sections in all sizes except the 6-ft. mill, which is made in 4 sections. Our mills have 4 sails to each section; each section is rigidly supported by heavy anchor steel braces.

Vane is made of heavy galvanized sheet steel and heavy steel bracing and is provided with an effective spring governor, which by its action on the vane holds the wheel at the proper angle to develop only the required velocity for work in heavy winds and causing it to face lighter winds full.

$26.90

These New Ball Bearing Windmills are backgeared 2½ to 1, wind wheel making 2½ revolutions to each upstroke of the pump. An effective brake operated through governor spring, automatically holds wheel when locked out of wind. Pump rod connection has a swivel joint through center, through which the pull-out wire passes and allows mill to turn freely without becoming entangled. 32 ft. of pump rod supplied to connect pump.

We recommend the purchase of mill and tower together as the tower caps to receive mill are perfectly fitted and the entire outfit can be erected with little trouble. When specified we can supply mast fittings with mills in place of wood or steel tower caps. Prices given are for mills only, complete with tower caps ready to set on tower. When mills only are ordered we always furnish cap for wood tower unless the steel tower cap is especially ordered.

If ordered for steel tower, state whether for 3 or 4 post.

Your name or the name of your farm stenciled on the vane if so ordered, without charge.

Prices, New Ball Bearing Windmills

Article Number	Size of Wheel	Shipping Weight	Price
287 E 5101	6 ft.	280 lbs.	$26.90
287 E 5102	8 ft.	380 lbs.	39.75
287 E 5103	10 ft.	470 lbs.	56.50

Graphite Bearings for 1921

Ball Bearing Windmills Will not Fit Old Mills

When desired, we can supply at prices quoted below a set of Graphite bearings for our ball bearing Windmills. Graphite bearings do not require oiling and thereby save you the task of oiling the mill. This bearing has sleeve of phosphor bronze metal with graphite in grooves on inside. If you want one of our ball bearing Windmills with graphite bearings, be sure to allow extra price quoted for the size Windmill you order.

287 E 5105—Extra price for Graphite Bearing, 6 foot Mill **$7.00**

287 E 5106—Extra price for Graphite Bearing, 8 foot Mill **12.00**

287 E 5107—Extra price for Graphite Bearing, 10 foot Mill **16.75**

Shipped from Factory in Southern Wisconsin.

Galvanized All-Steel Windmill Towers

Our towers are built of strong steel and made to withstand the severest storms. Corner posts, braces, bandgirth, bolts and nuts are galvanized after all cutting and punching is done, leaving no rough edges unprotected. Made in 3 styles or weights, each properly proportioned for the mills they are designed to support. A set of cross girts is provided for every 10-ft. section, last set being close to ground and just above the anchor post joints. Each 10-ft. section is firmly braced by 4 sets of round steel brace rods with an eye turned at each end so as not to reduce the size. Two rods on each side of the tower cross each other at a point near center of the section, where they are clamped and can be tightened so each pair of rods bear same tension, making tower rigid and firm. Also have diagonal cross rods from corner post to corner post in every 10-ft. section by means of which the tower is squared up. Ladders are made of steel, firmly riveted, making them safe to climb. Pull-out lever attached to left post is furnished when mill and tower are furnished together.

Note the weights of our towers indicating the heavy construction and material used, insuring strength and rigidity.

Model No. 1. For 6-ft. and 8-ft. Mills

Windmill Quadrants

187 E 5250—Price, without Wires. Each **$6.30**

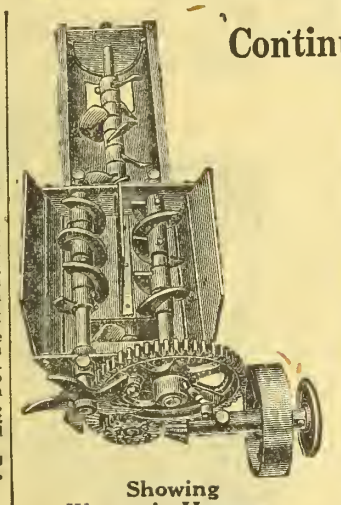
Shipping weight, about 53 lbs.

For either pumping or power mills.

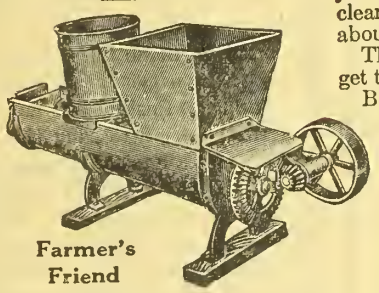
Used to transmit power from mill when mill is some distance from the pump. Two levers with two wires drawn tight by take-up bolts. Pump connection, 8 feet of wood pump rod, pivot plates and center bolts included.

187 E 5251—Quadrant galvanized wire for connecting. Price, per rod **8c**

Steel Tray Cement Barrow



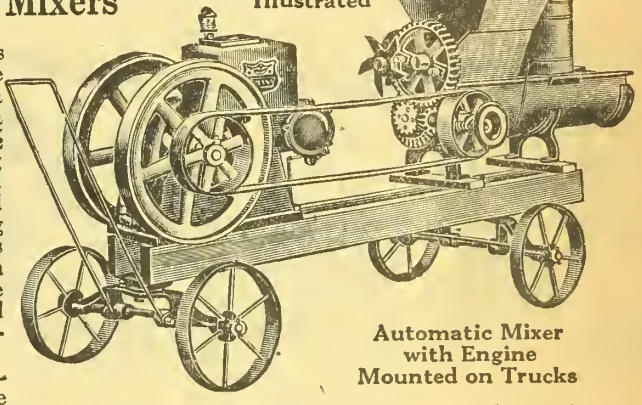
$8.75



Equipped with wood extension handles to allow load to be dumped over wheel. Size of Tray: Top, 24 inches wide by 36 inches long; depth at handles, 8 inches; at wheel, 14 inches. Handles, 1¼x2½ inches.

Tray elevated in front with wooden risers bolted to the frame to prevent the load from slushing while wheeling. Weight, 73 pounds each. Capacity, 3 cubic feet, wet.

184 E 5612—Price **$8.75**



Showing Worms in Hoppers Automatic Mixer

Farmer's Friend Mixer

Continuous Concrete Mixers

$118.90 As Illustrated

Automatic Mixer with Engine Mounted on Trucks

Made in two styles as quoted below. The Farmer's Friend is a plain mixer with a capacity of about 2½ Cu. Ft. The mixing drum is about 4 ft. long and is equipped with worm for mixing the concrete. Has plain pulley, 12 in. in diameter, 3 in. face and should be operated at about 220 revolutions per minute.

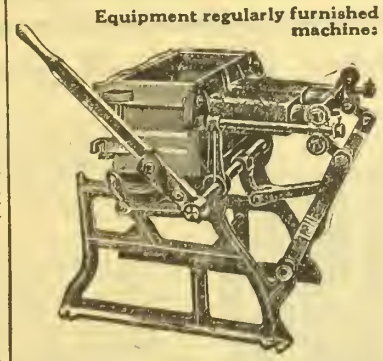
The Automatic Mixer is the same as the Farmer's Friend, but has an additional hopper built on top. This extra hopper has two worms in the bottom for forcing the cement and gravel to the main drum. The sand hopper has a capacity of 2 cu. ft., and the cement hopper holds two sacks of cement. Star wheels are furnished which can quickly be put on or taken off and will enable you to get any mixture you wish from 2½ to 1, to 8 to 1. Hopper easily removed for cleaning. Has 12x3 pulley with clutch for throwing in and out of gear. Should be run about 200 revolutions per minute.

These continuous mixers have a water tank with shut-off valve so that you can always get the proper moisture.

Both machines are strongly built and are absolutely guaranteed.

287 E 5850—Farmer's Friend Continuous Mixer. Weight, about 300 pounds. Price **$36.40**

287 E 5852—Automatic Continuous Mixer. Weight, about 350 pounds. Price **64.40**



287 E 5857—Complete Outfit consisting of Automatic Mixer with 1½-H. P. Sattley Gasoline Engine and Belt (No Truck). Shipping weight, 850 pounds. Price **$118.90**

287 E 5860—Trucks only. Weight, about 200 pounds. Price **19.60**

Shipped from Factory in Iowa.

Concrete Block Machine

Equipment regularly furnished with each complete machine:

1 Rock Face Plate for Whole Blocks.
1 Rock Face Plate for ½ and ¼ Blocks.
1 Rock Face Plate for ¼ Blocks.
1 L. H. Rock End Door.
1 L. H. Core End Door.
1 R. H. Core End.
1 Core Plug.
1 Pallet Plug.
2 Dividing Plates for ½ and ¼ Blocks.
1 Graduating Bar.
1 Steel Plate for Inside Corners.
1 Steel Plate for Gable Blocks.
2 Joist Attachments.
1 Steel Carrier.
1 Steel Stripper.
1 Double End Tamper.
1 Sample Iron Pallet.

287 E 5900—Complete 8x8x16-inch block outfit. Ship. wt., 400 lbs. **$84.00**

Other styles of Blocks that can be made on the Diamond and for which we can supply Plates and Doors. Panel Face, Plain Face, Cobblestone Face, Broken Ashlar. Will equip machine with either of above style plates in place of rock face plates if so ordered.

End doors. State style face and whether Right or Left End.

287 E 5910—End Door. Price, each **4.00**

287 E 5914—Iron Pallets. Price, each ..... **.85**

Shipped from Iowa Factory.

Concrete Batch Mixer

Strongly constructed throughout so as to withstand any amount of hard service and is just the right size for all kinds of farm work. Will pay for itself quickly on any farm for such jobs as building granaries, sidewalks, foundations, feeding pens, walls, etc. Pulley is 16 inches in diameter, with 3 inch face and should be run 150 to 200 revolutions per minute. Can be operated with any gasoline engine, 1 H. P. or up. Crank is also furnished so that it can be run by hand when desired.

Frame is strong angle steel. Heavy steel drum. Cone shaped to give best results. Three blades inside get perfect mix. Capacity, 2½ to 3 cubic feet.

Loads on either side and dumps on either side. The yoke is held in the frame by bearings which bolt securely to the frame casting. Perfectly balanced so it can be tilted easily with full load. The gear ratio is 5¼ to 1. Bearings have hard oil cups.

287 E 5862—Batch Mixer with pulley. On skids. Weight, about 240 pounds. Price **$39.25**

287 E 5863—Batch Mixer on skids with sprocket, 8 feet of chain and sprocket board to fit your engine. Weight, about 260 pounds. Price **$49.00**

287 E 5860—Steel wheel truck for mounting mixer. Weight, about 200 pounds. Price **$19.60**

Shipped from Iowa Factory.

Corn Shellers

Peerless Self Feed Two Hole Corn Sheller

A Big Sheller for Big Jobs

Our Peerless is a sheller that can be operated at its fullest capacity at a very low power cost. Capacity, 50 to 75 bushels per hour with 3 horse power and 75 to 100 bushels with 4 or 5 horse power.

Frame, shafting, chains, gears and mechanism are extra heavy. Powerful fan cleans the shelled corn. Shifting clutch allows throwing feeder in or out of gear instantly. Height, 5 ft.; width, 30 in.; length over all, 55 in. Made of selected hardwood. Solid center balance wheel, weight, 60 lbs. Diameter, 18 in.; 12x4 in. pulley.

287 E 2752—Peerless Self-Feed Sheller without elevator or stacker. Shipping weight, 700 pounds. Price.....**$93.35**

287 E 2754—8-ft. Straight Out Cob-Stacker. Ship. wt., 70 lbs. Price.....**$14.00**

287 E 2756—8-foot Swivel Cob-Stacker delivers cobs at any angle from Sheller. Ship. wt., 140 lbs. Price.....**$24.35**

287 E 2758—5-foot Sacking Elevator. Ship. wt., 110 lbs. Price.....**$20.00**

287 E 2760—Wagon Box Elevator. Ship. wt., 170 lbs. Price.....**$28.00**

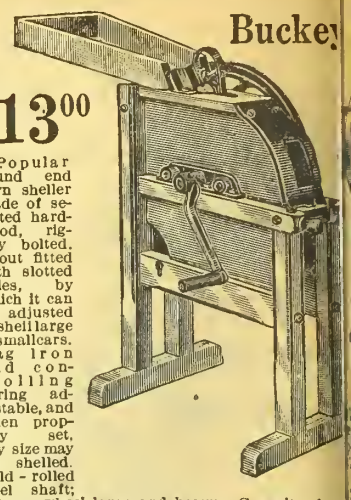
287 E 2764—Mounting trucks with pole (no neckyoke or doubletrees). Ship. wt., 500 pounds. Price.....**$53.35**

Shipped from Factory near Chicago.

Climax

$11.65

Framework is hardwood strongly joined together with mortised and tenoned joints. Low gear and heavy balance wheel make it easy to operate. Cold rolled Steel Shaft. Large spout fitted with slotted holes by which it is adjustable for small or large corn. Ample feed table attached to large throat. Delivers cob on end. Furnished complete with fan and feed table, or plain, as desired. Capacity, about 10 bushels per hour.



287 E 2730—Sheller complete with fan, feed table crank and balance wheel. Ship. wt., 120 lbs. Price.....**$11.65**

287 E 2732—Without fan or feed table, otherwise complete. Ship. wt., 105 lbs. Price.....**$10.50**

Two-Hole Corn Sheller
Hand and Power

$25.00

Thousands of these shellers in use throughout the Corn Belt

No corn too big for it

No work too hard for it

No job too fast for it

Hand or Power Sheller for general farm use. Frame is heavy hardwood, firmly fastened together. Shaft is heavy cold-rolled steel, and runs in iron bearings, bored through and bolted. Shelling Wheels geared high to give good capacity. Feed Spout directly over shelling wheel. Rag iron and Springs adjustable to any size corn. Cob-Carrier separates shelled corn from cobs, delivering the cobs at a distance from the foot of the sheller. Has a Fan for cleaning corn and putting it in a marketable condition. Complete with Fan, Feed Table, Crank and 8-inch Pulley. When run by power the pulley on balance wheel shaft should make 300 revolutions per minute. Can be operated with any small engine. Capacity, 20 to 30 bushels per hour. Shipping weight, about 250 lbs.

287 E 2742—Price Complete With Cob Carrier, Fan, Feed Table and 8-inch Pulley.....**$25.00**

Shipped from Warehouse near Chicago.

$45.50

Big-Four Triple Geared Sweep Mill

Grinds ear corn rapidly either coarse or fine, also shelled corn, wheat, rye, kaffir corn, etc. Burrs make three revolutions to each round of the horses. Easy running and good capacity.

Diameter of burrs, 16 inches; height, 3⅛ inches; made of white metal so hard that with ordinary care set should grind from 6,000 to 8,000 bushels of grain. With corn in fair condition and team making 3½ revolutions per minute, will grind 12 to 20 bushels per hour, to a medium degree of fineness. Capacity for oats is about one-half of corn, but half and half oats and corn or other hard grains, gives good capacity. A hand lever at top allows tightening and loosening of burrs when hopper is full of grain. Made with coarse burrs for shelled corn and cob corn, and fine burrs for shelled corn and small grains. Coarse burrs regularly furnished. Shipping weight of mill, 600 pounds; burrs, 40 pounds.

287 E 3050—Big-Four Sweep Mill, with sweep, wood platform and one pair burrs. Price.....**$45.50**

287 E 3052—Coarse Burrs, per set..... 4.75

287 E 3069—Coarse Burrs, Price per pair..... 4.85

Shipped from Factory in Iowa.

Fanning Mill for Cleaning, Grading and Separating Grain

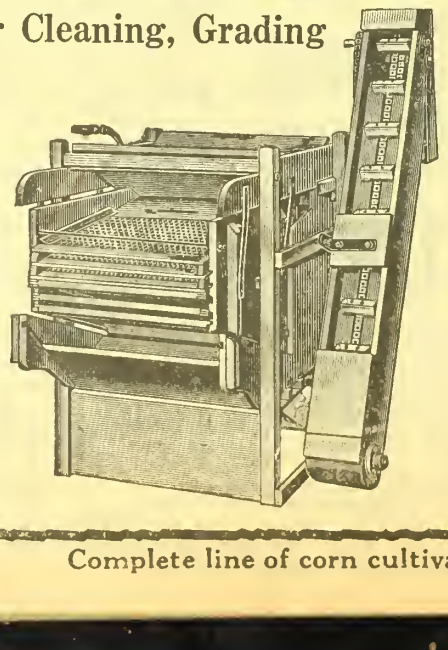
Our Fanning Mill with the proper attachments, will grade and clean any kind of seed, will separate grass seed from grain and throw out all weed seeds, dirt, vine and trash.

Special—Seed Corn—Seed Oats—Seed Barley

The special Grading Attachment 287E6190 quoted in the extra outfits consists of one long mesh sieve with heavy metal sheet attached, and one square mesh screen for cleaning and grading corn, also one special mesh screen. The special screen will take out the small grains in oats and barley and leave the big strong healthy grains for seeding purposes.

Each mill regularly furnished with 3-gang wheat hurdle with perforated metal-top sieve, wheat grader, side spout, wheat screen, barley sieve, oat or corn sieve and chess board. This outfit is sufficient for cleaning or grading wheat, oats, rye, barley, peas, beans, corn, cotton, buckwheat, kaffir corn, broom corn. **This mill will do any ordinary work with the regular equipment. The extras quoted are for special work. You do not have to buy a lot of screens which you mey never need.**

Number 1 size has a capacity of 40 to 60 bushels of grain per hour. Number 2 size has a capacity of 60 to 80 bushels of grain per hour.



Posts and cleats are maple—extra heavy. Body very strong, being made from heavy selected hardwood. With ordinary care will last a life time.

Heavy sheet steel drum will never warp or crack—is practically indestructible.

Gearing on inside of mill, therefore protected from injury.

Elevator made of same material as mill—stronger and more durable than ordinary elevators used on other mills—has two bag holders. Driven direct from main shaft—nothing to get out of order.

Regular No. 25 Malleable Chain used on elevator.

Prices

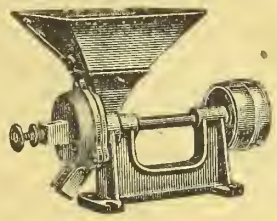
Feed Grinders

Flour and Meal Feed Grinder

$14.95



Grinds meal fine enough for table use. Balance wheel and pulley outside of frame, easy to remove or replace belt. The bolting attachment makes the flour or meal suitable for family use. Grinds more, lasts longer and costs less for repairs than many other mills of its size. Burrs can be adjusted for either coarse or fine grinding. Burrs are the "Crowfoot" shown on this page and each mill furnished with both fine and coarse burrs.

Requires 1 to 4 horse-power to grind from 6 to 20 bushels per hour, depending on quality of grain and fineness of grinding. Diameter of burrs 5½ inches, regular pulley 6½ inches, diameter 4½-inch face. We can furnish 8x4, 10x3 or 12x3 inch pulleys in place of regular upon request. Speed, 200 to 600 R. P. M.

287 E 3004—Complete with bolting attachment, legs and balance wheel and pulley. Ship. weight, 125 pounds. Price..... **$14.95**

7 E 3006—Extra Burrs, fine or coarse. State h wanted and give numbers on old burrs. wt., 3¼ lbs Price, per pair..... **$1.10**

Shipped from Factory or Stock at Chicago.

Crowfoot Burrs

This burr is used in the three-metal burr Power Mills and the Stand Hand Mills shown on this page. Self sharpening, fast grinding and durable.

Oats. No other style burr can grind oats so well because the Crowfoot cuts up the hulls.

It also does splendid work grinding ear corn, shelled corn, wheat, rye, barley or any dry grain.

Notice. These Crowfoot burrs will not fit in old mills. Do not order Crowfoot burrs unless your mill was fitted with Crowfoot burrs when received. When ordering any kind of new burrs, always give numbers on old burrs.

Grinds corn on cob, shelled corn, kaffir corn, milo maize, wheat, oats, barley, rye and other grain separately or mixed.

Climax Feed Mill

$23.80

Frame, single casting; designed to resist six times ordinary strain. Heavy riveted corners. Steel legs with cross braces. Spiral concave, cob breakers of hard chilled iron bolted to frame. Cob crushers secured to shaft by safety break pin. Extra long bearings. Large oil wells. Main shaft heavy cold rolled steel, 1¼ in. on the 8-inch No. 1 Mill and 1½ inch on the 10-inch No. 2 Mill. Should be operated with from 4 to 7 H. P. for No. 1 Mill and 7 to 12 H. P. for No. 2 Mill, and run at from 400 to 700 revolutions a minute, according to power No. 1 will grind from 10 to 35 bushels, and No. 2 from 20 to 60 bushels per hour, depending entirely on the power, speed, kind of grain and its condition, whether dry or damp and also whether grinding coarse or fine. The grain should be dry and clean to get full capacity out of any mill. Prices include balance wheel and two sets of burrs.

Burrs

The Crowfoot burrs used on these mills will outgrind and outwear any ordinary burr and are especially good for oats because they cut up the hulls. These burrs will not fit in old mills so do not order Crowfoot burrs unless your mill was fitted with them when received.

If so ordered will fit 8-inch mill with pulley 8x6 or 12x6 and 10-inch mill with pulley 10x6 or 14x6.

Climax Stone Burr Mill

Will grind finest table meal without heating the meal. Cleans corn perfectly. Stones dressed for corn meal but can be used for general work and will handle crushed ear corn, wheat, oats, rye, barley, etc. Suited for farm or custom grinding. The body is built of selected stock carefully fitted and bolted. Hopper is large with a two-screen shoe. Latest improved Folding Mill Bolter, which can be folded up out of the way when not needed. Burr stones are of the very best Burr-stock carefully mated and will give long service, and are so arranged that they cannot be set up too close so as to injure or dull the grinding faces of the burrs or drift together when the grain runs out. Scraped metal bearings and well designed oiling arrangements at every point where necessary. Full directions for setting up, operating and dressing the stones sent with each mill. Floor space required 2x5 to 3½x 5½ feet.

Power and Hand Driven Feed Cutter

$35.50

Especially adapted for poultry on account of its fine cut. Three knives length 10½ in. Cuts ⅛, ¼, or ⅜-inch lengths. Powerful fast-cutting feed and ensilage cutter that can be operated with very light power. Safety Stop Lever, Pulley to run by power. Safety Flywheel, Reversible Cutting Bars. Heavy Hardwood Bolted Frame. Capacity for 10 to 20 head of stock and easy to run by hand, when a small amount of feed only is desired. Has sliding cone gear for changing length of cut. 1 to 1½ H. P. required at 300 to 400 R. P. M. Diameter, driving pulley 10 inches; face, 3 inches. Capacity per hour, dry fodder, 800 to 1,200 lbs.; green fodder, 1,200 to 2,400 pounds. Shipping weight, 300 pounds.

287 E 6568—With pulley and crank, at warehouse near Chicago..... $35.50

$17.60

Hand Driven Feed Cutter

Has heavy balance wheel which, with the shearing cut of knives make the machine very light running. Frame heavy hardwood, strongly bolted. Shaft is heavy, cold-rolled steel. The two knives are oil tempered tool steel and so constructed as to make a downward shearing cut. Feed rolls are large and driven by expansion gearing.

Safety lever stops feed roll instantly while the machine is running.

When both knives are used the cuts on smaller machine are ¼-inch, ⅜-inch or 1-inch in length. Cuts can be made twice as long by removing one of the knives.

Ward's Sattley Riding and Walking Plows

Gang and Sulky Plows

Single Bail Makes Light Draft Quality of Plowing.

The bottoms of the Sattley plows are carried in the frame upon a single bail which allows the plow bottom to be carried in the ground at a uniform depth, not being affected by the wheels or the plow frame in running over the unevenness of the surface of the ground, thus insuring a level plowed field under all conditions.

Lightness of Draft Upon the Horses

The bell crank works with a free, rocking motion, preserving at all times the perfect flexibility of the plow in the soil and at the same time carrying the pressure from the moldboards directly to the rear wheel, thus relieving the landside pressure and lessening the draft upon the horses.

Equalizer Gives Furrow Horse More Room

The Sattley equalizer gives the furrow horse more room. This prevents the rub of the tugs and side straining which tires the furrow horse and naturally results in tendeney on his part to lag and thereby causc imperfect plowing.

Hinged Arm for Steering Rod Prevents "Side Thrust"

The Steering Rod attached to the tongue post clings closely to the side of the post, when plowing straight ahead, thus throwing the pressure of the rear wheel directly against the post.

In turning around in either direction, this hinged arm swings out automatically at right angles with the tongue post, bringing the rear wheel around in exact time with the front one and then drops back against the tongue post as before, locking the rear wheel rigidly in position in the corner of the furrow.

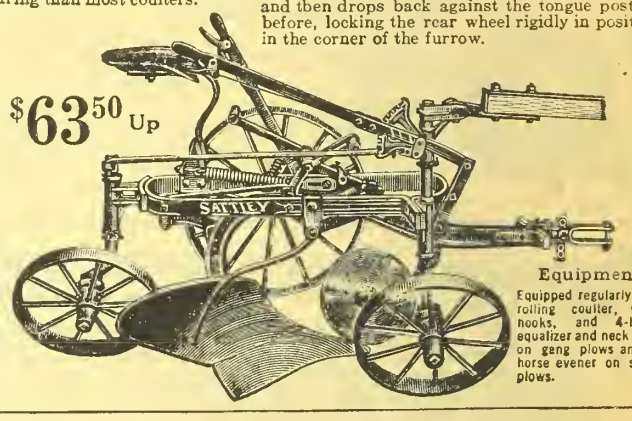
Perfect Suction at Any Depth

An adjustable connecting rod keeps the plow bottom in proper relation to the bail, thereby maintaining the perfect suction of the bottoms. This rod is adjustable so that the suction can be adjusted as the shares become worn, making it possible to do perfect work even as the plow wears from long, hard service.

Bottoms

Shares and moldboards of highest grade soft center steel especially tempered to produce good scouring qualities. Sattley bottoms have double shin which consists of a piece of high carbon steel welded on top of moldboard to give added wearing qualities. This shin is about 25 per cent larger than that on other plows. Share is reinforced by having a piece of high carbon steel welded on top of the point.

Sattley Rolling Coulter



Tempered Steel Blade of best quality, equipped with long malleable hubs riveted by wide flanges to either side. The hubs on each side are 2½ inches long, having a greater bearing than most coulters.

Equipment

Equipped regularly with rolling coulter, weed hooks, and 4-horse equalizer and neck yoke on gang plows and 3-horse evener on sulky plows.

Plows Furnished with Three 14-inch Bottoms, Either Stubble, Turf and Stubble or Breaker Bottoms, Rolling Coulters and Traction Lugs.

Ideal One Man Outfit

A single cord and one crank lever, both within easy reach, enable the operator to manage this tractor plow with ease. One pull of the cord operates a strong rugged clutch on the land wheel and this raises the bottom five to fifteen inches.

$172.80

Sattley Tractor Gang Plows

Universal hitch fits any tractor. Adjustable up and down or side to side.

With the rigid form of hitch, these plows may be backed by the engine when circumstances make it necessary to do so. This is also helped by the fact that these plows carry no caster wheel in the rear.

By means of a hand lever, one bottom may be raised when only two bottoms are to be used in extra deep plowing, or when soil conditions render traction for engine below normal. In raising or lowering plow, no adjustment of hitch is necessary.

Stubble and turf and stubble bottoms made of soft center steel. Breaker bottoms are solid steel.

Maximum strength is secured with the least possible weight. The entire weight of the plow is directly above the bottom, which insures an even depth in the most stubborn soil.

Unusual clearance. One very striking feature is the remarkable clearance under the beams which makes it practically impossible for trash or stalks to accumulate and clog the bottom.

The new system of bracing and reinforcing the beams with heavy, high carbon steel, removes nearly all strain from the bolts. All bolts are extra large and lock-washered. Weight, about 1050 pounds.

Bean Harvester

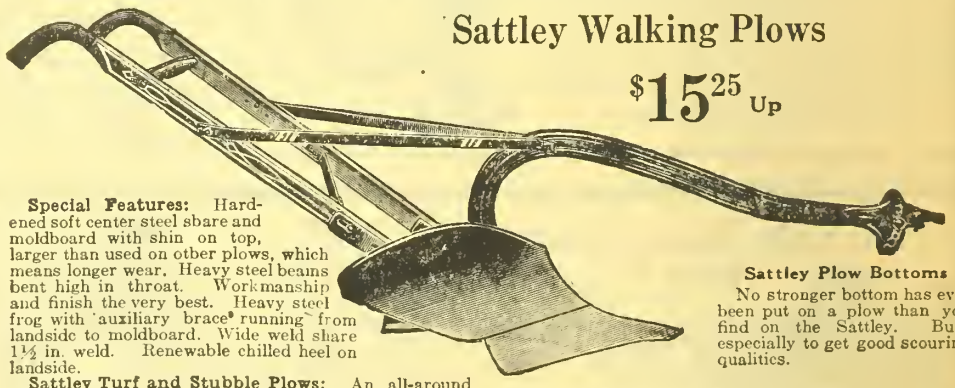
Wood Frame or Steel Frame

$25.00 and $27.00

For Harvesting Beans, Cow Peas, etc.

For harvesting beans, cow peas, etc. Furnished in either wood or steel frame. Is extra strong throughout. Wheels 30 inches high, 4-inch concave face. Wheels track, 4 feet, 10 inches outside to outside edge of tires. Can be set out to track 5 feet 4 inches. This, together with the adjustment of the blades, makes the machine adaptable for rows of any practical width.

Axles are cone shaped and protected from dust by cap. Cleaners are steel rods attached to the guards. Blades are best extra heavy tempered steel beveled and sharpened at cutting edge and highly polished.



Each harvester furnished with evener bar and neckyoke. Shipping weight, about 500 pounds.

287 E 1091—Wood frame Bean Harvester. Price..... $25.00
287 E 1092—Steel frame Bean Harvester. Price..... 27.00

Shipped from Missouri Warehouse.

Sattley Walking Plows

$15.25 Up

Special Features: Hardened soft center steel share and moldboard with shin on top, larger than used on other plows, which means longer wear. Heavy steel beams bent high in throat. Workmanship and finish the very best. Heavy steel frog with 'auxiliary brace' running from landside to moldboard. Wide weld share 1½ in. weld. Renewable chilled heel on landside.

Sattley Turf and Stubble Plows: An all-around general purpose plow. Very satisfactory in clover sod, grass, etc. The long graceful curve of the moldboard lays the sod flat in even regular laps, which presents an excellent surface for harrowing. Also used for work in old ground.

Sattley Stubble Plow: For plowing in stubble land, or old ground and particularly efficient in weedy, trashy land. The easy turn of the moldboard inverts the furrow in such a manner as to cover trash perfectly and leave land level.

Sattley Plow Bottoms

No stronger bottom has ever been put on a plow than you find on the Sattley. Built especially to get good scouring qualities.

Complete line of cultivating tools in our spring catalog

Ward's Sattley Harrows and Potato Diggers

Three-horse eveners furnished with 6-ft., 4-horse eveners furnished with 7 ft., 9 and 10-foot harrows. Neck yokes are not furnished.

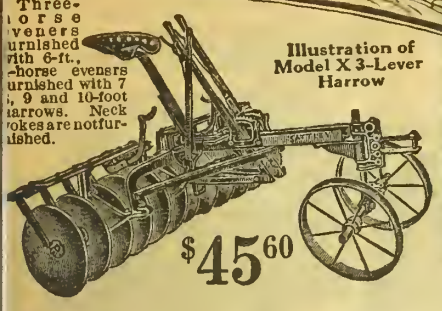

Illustration of Model X 3-Lever Harrow

$45.60

Sattley 2- and 3-Lever Disc Harrows

The 2-lever has all of the splendid features of the Sattley three-lever Model "X" Harrow, except the third lever, a different frame and stub pole. Has powerful triangle steel frame, and extra strong wood stub pole, and is equipped with the well known Sattley oscillating scrapers and finely tempered steel discs, together with the Sattley Harrow Truck and double seat spring.

The polishing of the inside of the discs so they scour like plowshares adds greatly to their penetrating ability as they do not accumulate dirt so readily. The frame is made of heavy steel throughout and rigidly braced where necessary.

Either gang can be set at any angle desired without interfering with the other. Levers are conveniently placed within easy reach of the operator.

Bearings run in dust-proof maple boxes. Axles are solid steel, ⅞-inch square.

Our **Model X Harrow** is provided with third lever to regulate the pressure on the discs. This special lever enables driver to change the amount of pressure on discs from center to ends without stopping or leaving his seat—very desirable in discing uneven ground, corn land, etc. Furnished with high arch heavy steel frame and steel stub pole.

$36.00

2-Lever Harrow

Two-horse eveners furnished with 4 and 5-foot three-horse with 6-foot, and four-horse evener with 7 and 8-foot harrows. Neckyokes are not furnished.

Digs, Shakes, and Cleans Potatoes from Dirt and Vines

Sattley Rustler Potato Digger

The 18-inch shovel is particularly well shaped to insure the best possible penetration, and is very heavily reinforced for several inches up from the point. The bars of shaker grate are made of heavy steel. The grate receives a constant shaking motion by the revolving of the large star wheel underneath, which thoroughly shakes the potatoes free from the soil and leaves them clean and sound upon the surface of the ground.

A large revolving wooden spool mounted above a heavy malleable point clears the vines and trash from in front of the shovel. The point picks up the vines and the revolving spool allows them to roll off on either side instead of accumulating in front.

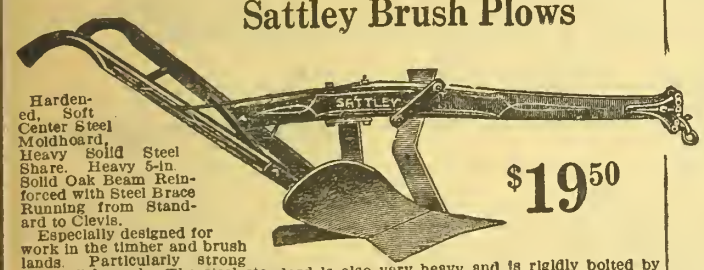
289 E 665—Digger with double-gauge wheel. Ship. wt., 146 lbs. Price..... $22.50

Shipped from Factory at Springfield, Ill.

Climax Junior and Senior Potato Diggers

Main frame has channel steel sides; easier to handle, stronger and more durable than cast frame diggers. Elevator chain of 7/16-inch crucible spring steel loosens soil from potatoes before they reach back of elevator. Lever at operator's right raises and lowers shaker screen while digger is in operation.

Width of elevator inside, 20 inches on the Junior and 22 inches on the Senior. Fork rower adjusted from main gear. Plow point high carbon, soft center steel, thickness 5/16-inch, beveled to avoid going too deep.



Shaker Fork has spring steel tines, diameter 7/16 inch; fastened to frame by threaded ends and nuts. Furnished with lead tongue truck. Adjusting levers convenient to operator. 30-inch drive wheels with malleable traction arms.

287 E 1800—Climax Junior 2-Horse Digger. Weight, 625 pounds. Price..... $96.65

287 E 1805—Climax Senior 4-Horse Digger Weight, 975 pounds. Price..... $123.35

Sattley Brush Plows

Hardened, Soft Center Steel Moldboard, Heavy Solid Steel Share. Heavy 5-in. Solid Oak Beam Reinforced with Steel Brace Running from Standard to Clevis.

$19.50

Especially designed for work in the timber and brush lands. Particularly strong and well-braced. The steel standard is also very heavy and is rigidly bolted by two large bolts to both beam and landside. The entire construction of the bottom is exceptionally strong and well designed to meet the requirements of this kind of work. Note our brush plow is furnished with a Solid Steel Share, that can be hammered out when worn by hard work. Equipped with reversible cutter. Made in right hand only.

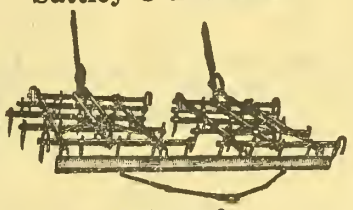
Sattley 4- and 5-Horse Equalizers

Sattley Plow Equalizers give the furrow horse plenty of room. He is not crowded out on the soft ground.

These Patented Sattley Equalizers are guaranteed to overcome all tendency toward side draft. They are for use with Gang Plows, Sulkies, etc. If turned upside down can be used on left-hand plows. Are well made throughout, of the very best hardwood, malleable iron and steel, and have been designed for heavy work.

In order that they may fit any plows theese Equalizers are furnished with a Special Hitch for attaching to frame hitch plows or plows having a small frame on ends of beams. For plows with regular beam clevis this Special Hitch is not necessary.



289 E 1284—Sattley Four-Horse Equalizer, Complete with Special Hitch. Weight, 75 pounds. Price..... $11.15

289 E 1287—Sattley Five-Horse Equalizer. Complete with Special Hitch. Weight, 105 pounds. Price..... 14.85

If Special Hitch is not wanted on either of these, deduct..... .75

Sattley U-Bar Harrow

$18.70

The strong heavy construction and the very high grade of steel used makes this harrow one of the most durable on the market. Heavy "I" beams are used in conjunction with the "U" bars.

½-inch teeth tempered and headed. The teeth are carefully arranged and spaced on the bars so as to cover the ground thoroughly and not to track. They are held together by specially designed clamps which bolt directly through the bar.

The levers which regulate the slant of the teeth are amply long and conveniently placed to permit of easy operation while the harrow is in motion.

Article No.	Width of Cut and No. Sections	No. of Teeth	Ship. Weight	Price

Sattley Strungout Eveners

$15.95

The Sattley 5-Horse Strungout Evener is a very convenient Combination Hitch, and can be changed around for a 3-Horse Abreast or a 4-Horse Strungout Hitch. Made throughout of the best hardwood, malleable iron and steel. In order that it may fit all plows, this evener is furnished with Special Hitch for attaching to frame hitch plows or plows having a small frame on ends of beams. For plows with regular beam clevis, this special hitch is not needed. Weight, about 100 pounds.

289 E 1290—Sattley 5-Horse Strungout Evener. Complete with Special Hitch. Price..... $15.95

If Special Hitch is not wanted, deduct..... .75

Sattley Manure Spreader Pays Big Profit Return

Special Features

EASY to load—only 42 inches to top of box. Bolster reinforced with extra heavy steel bar.

Heavy spring on end of gear lever rod acts as shock absorber when starting suddenly, or if anything should get into the beater and stop it.

Square shafts prevent sprockets slipping.

Frame always lined up — can't twist if one wheel drops down—front truck forms third point of support.

All working parts built on steel frame so they can't get out of line, if wood box warps or breaks (see illustration at bottom of page).

Cut-under front wheels allow short turning.

High arch front axle and exceptionally large fifth wheel with cup for hard oil.

Wide Turn-over seat.

Specifications

Width of Track—Front wheels, 28-inch; rear wheels, 61 inches; outside to outside rear wheels, 72 inches.

Wheels—Front wheels, 28 inches diameter with 4½-inch face. Rear wheels, 40 inches diameter with 5½-face.

Size of Box—Height, 17 inches; width, 40 inches, length, 10 feet, 6 inches.

Capacity—60 to 65 bushels. 70 bushels if well loaded.

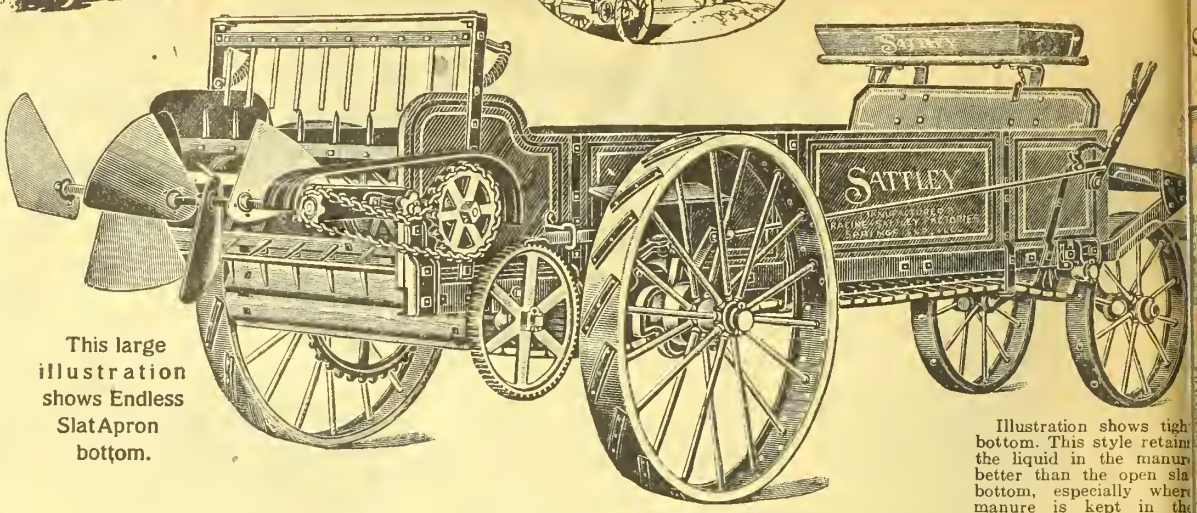
Beater—All Steel. Moves fast enough to thoroughly pulverize the manure.

Distributor Blades—All steel paddles catch manure thrown from beater and spread it to a width of 6 or 7 feet, or 6 inches beyond track of spreader.

Trucks—All steel. Malleable iron castings.

Seat—Large and roomy. Tips forward out of way.

Conveyor—Two Styles. The endless slat apron of closely spaced, narrow wood slats or the tight bottom with steel conveyor.



Feed—4 Adjustments.

Equipment—Combination two and three-horse steel equalizer with each machine. It is all steel except the single trees.

Sprockets Cannot Slip

The apron shafts, beater shafts, and wide-spread distributor shafts are of square or hexagon steel to which the parts are carefully broached and fitted, doing away with keys and keyways which often cause trouble. Ratchet and sprocket wheels are easily and quickly removed by withdrawing cotter pin. With keyways it is often very hard to remove wheels—while set-screws slip and cause trouble.

Malleable Castings—We are using malleable and steel castings instead of the clumsy gray iron castings wherever possible so as to reduce the weight of the spreader and make it stronger.

This large illustration shows Endless Slat Apron bottom.

Illustration shows tigh bottom. This style retain the liquid in the manur better than the open sla bottom, especially where manure is kept in the machine several days while a full load is being accumulated.

Low Down, Wide Spread, Light-Draft

ENDLESS Apron With Smooth, Even Drive. Its construction is simple, carries the load perfectly and distributes the fertilizer evenly.

The apron slats are linked together with heavy malleable chain, making an endless and almost solid bottom.

The screw adjustment at the front end of the apron reduces friction by getting the right tension on the apron. Binding of the apron is unknown on the Sattley. The strong, all-steel construction prevents this.

Combination 2 and 3-Horse Evener — The Sattley all-steel equalizer does away with the troublesome set-over pole method of hitching. Can easily be changed from 3-horse to 2-horse.

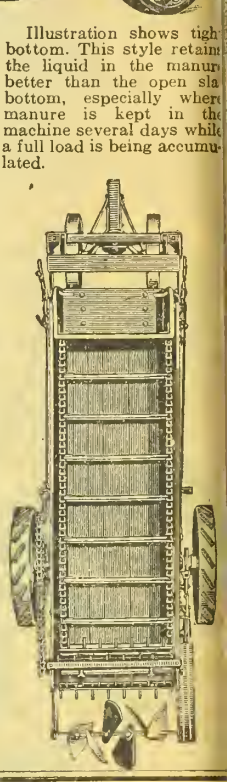
The narrow turn-under front truck enables the operator to turn the spreader in its own length. This is a great advantage when loading and getting in and out of barn yards.

Wide-Spread Distributor. It requires only a few minutes to attach or detach the wide-spread distributor. All you do is to bolt the wide-spread arms to the main frame with four heavy bolts.

The paddles are set at the proper angle to distribute the manure to a total spread of between 6 and 7 feet, about six inches on each side of the rear wheel track. You don't have to drive over the spread manure in order to cover the entire field, but stay away from the outside edge of the last strip at least 6 inches and get the field covered evenly.

The Sattley wide-spread has no equal for top-dressing growing corn.

All Steel Frame Construction. Every piece of mechanism is built on the steel frame.



There is not a piece of wood in the underframe and the all-feed mechanism is mounted on the steel parts, insuring their always holding in line, regardless of what the weather and many years of hard use may eventually do to the wood parts of the box.

The force feed and all other moving parts are built on the steel frame. This keeps the bearings in line and makes light draft even after the wood box is warped and worn from long, hard usage.

The frame consists of two extra heavy channel steel side sills rigidly braced with trussed channel steel cross members. The cross members are securely fastened to the side sills by means of wrought steel corner brackets. Added strength is given by two diagonal braced rods that are fastened to the frame.

Conveyor—Two Styles—The endless slat apron bottom, as shown in large illustration, is made of closely spaced, narrow wood slats.

The tight bottom, as shown in small illustration, has steel conveyor which is chain driven on both sides.

289 E 1275—Sattley Spreader, slat bottom, with combination 2 and 3-horse equalizer but without wide-spread distributor. Shipping weight, 1,550 pounds		$159.75
289 E 1276—Same as above but with wide-spread distributor. Shipping weight, 1,750 pounds		174.00
289 E 1273—Sattley Spreader, tight bottom with combination 2 and 3-horse equalizer but without wide-spread distributor. Shipping weight, 1,550 pounds		165.50
289 E 1274—Same as above but with wide-spread distributor. Shipping weight, 1,750 pounds		179.00
289 E 1277—Extra for wide-spread distributor to fit Sattley Spreader. Shipping weight, 200 pounds		14.25

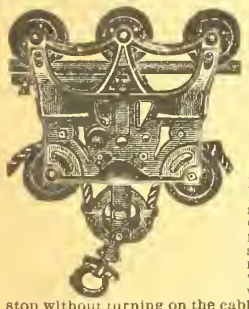
Paint For Your Farm Machinery

See Page 747

Ward's Haying Tools Save You Time and Labor

Hay King Large Mouth Carriers



$7.05

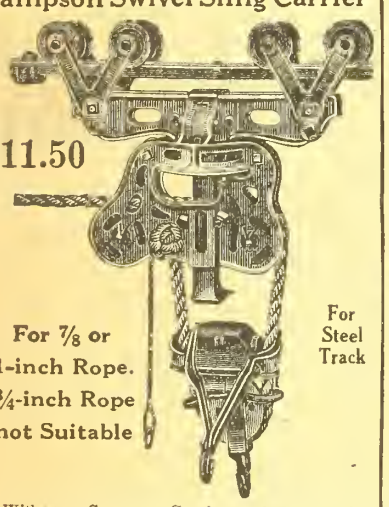
Large, open mouth, allowing fork pulley head to pass well up into car; strain of lock device placed where carrier is strongest, avoiding friction or twisting strain; fork being close to track permits filling space to high point. Double swivel. High-grade malleable iron.

Rope Sheaves take ¾-inch. or ⅞-in. rope Fork pulley has loop head, insuring sure lock, and clevis to attach fork. Made in two styles, for regular 4x4 in. dressed wood track, or to run on our steel track. Carrier furnished with pulley for fork and stop Without Rope, ship. wt., 37 lbs., ea. **$7.05**

187E346—For wood track..... **$7.05**
187E347—For steel track..... **7.10**
87E348—Extra stops for wood track **.50**
87E349—Extra stops for steel track **.52**

Champion Cable Carrier

$4.95



Made Entirely of Malleable Iron

For stacking hay in the field. Is exceptionally strong. Has the Champion automatic trip without springs. Made of malleable iron and will work either way from the stop without turning on the cable. Furnished with stop to fit either ½, ⅝ or ¾-in. cable. Fork Pulley with clevis always furnished. (No Rope.) Ship. wt., 30 lbs.

187E355—Price with trip or stop for ½-inch cable **$4.95**

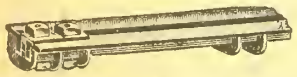
87E356—Stop for ½-in., ⅝-in., or ¾-in. cable (state which). Wt., each, about 2 lbs. **35c**

Sampson Swivel Sling Carrier

$11.50

For ⅞ or 1-inch Rope. ¾-inch Rope not Suitable

For Steel Track



With our Sampson Carrier, a load may be raised to any point desired and tripped before it reaches stop. This saves time when the space is empty.

Made of malleable iron. Has swivel head. Can be run in either direction without changing ropes on carriers. Has eight track wheels, extra heavy frame that prevents jumping on track. Made to run on steel track. Prices include pulleys and stop, but not rope.

187E361—Steel Track Sling Carrier. Shipping weight, 67 lbs. Price **$11.50**

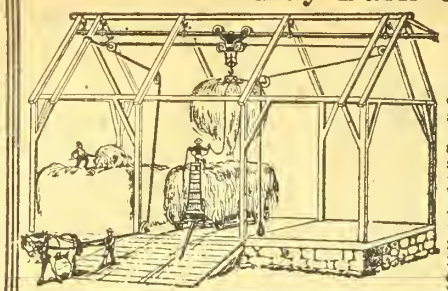
87E363—Extra stop for steel track .. **.55**

Angle Steel Track

Double Angle Steel Track, in 5 and 10-ft. lengths only; 5-ft. lengths used at ends to break joints. Made of 2 pieces of 1-in. angle steel rail, held together by malleable joint and hook clamps. Ship. wt., about 2 lbs. per foot. Hook clamps are extra. See No. 87E107. Joint clamps included.

187E398—Price, per double foot, including joint clamps only **12c**

Sling Pulley



For our Champion or Hay King carriers. Used with our Western or Standard Hay Slings. No rope furnished. Positive lock. Ship weight, 13½ lbs. Malleable iron.

187E365 — For Champion carriers. With rivet ...ad as shown at left. Price..... **$3.00**

187E366 — For Hay King Carriers. With loop head as shown to the right. Price..... **$3.05**

Hay Barn Outfits

$17.30

Equip your barn with one of these outfits. They are a big saving in labor and time.

The steel track is made of 1-in. angle steel, 2 pieces held together with malleable clamps. Track is cut in 10-ft. length with two 5-ft. pieces to each outfit to break joints. The wood track should be 4x4 in. timber. (We do not furnish the wood track timbers.) Steel Track Outfits — complete with Hay King large mouth steel track carrier, one 25 inch double harpoon fork, 3 floor hooks and 3 knot passing pulleys.

Wood Track Outfits (without track) consist of Hay King large mouth wood track carrier, one 25 inch double harpoon fork, 3 floor hooks and 3 knot passing pulleys. Rafter brackets, hanging hooks and rope are included with every outfit.

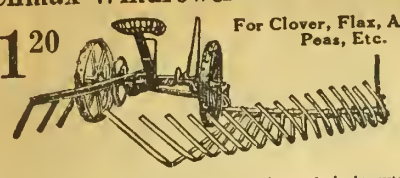
87E105—Wt., 1 lb. Each..... **12c**



Sanitary dairy barn equipment. See page 875.

Machinery You Need For Good Haying Crops

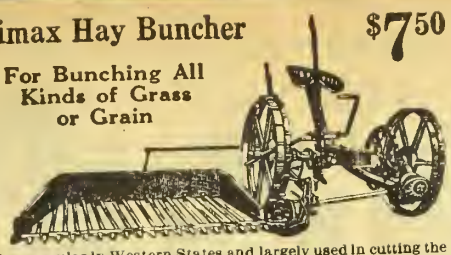
Climax Windrower and Buncher

$11.20

For Clover, Flax, Alfalfa, Peas, Etc.

Will attach to any mower without boring a hole in cutter bar. For windrowing it delivers the cut crop out of the way of team for next round. It gathers only the crop that the mower cuts, avoiding the dead grass and weeds that a rake picks up. Any crop can be bunched or windrowed as desired. The buncher gate is necessary for bunching. The gate is attached to seat spring and is operated with a foot trip, and can readily be removed entirely when windrowing. The gates are quoted extra, as some farmers have no use for them.

Bunchers are made of flat, high carbon steel rods adapted especially for this purpose. Attached to the cutter bar with three clips to the guard bolt. Space between rods is 3 inches. Made in four sizes to fit 4½, 5, 6 or 7-ft. Mowers.



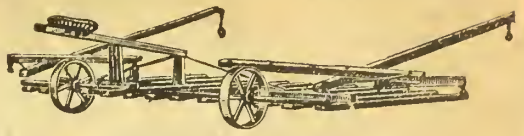
287 E 1516—4½-ft. size. Ship. wt., 70 lbs. Price.. **$11.20**
287 E 1517—5 -ft. size. Ship. wt., 75 lbs. Price.. **11.50**
287 E 1518—6 -ft. size. Ship. wt., 80 lbs. Price.. **12.95**
287 E 1519—7 -ft. size. Ship. wt., 85 lbs. Price.. **13.65**
287 E 1520—Buncher gate for any of the above sizes, weights, 15 to 25 lbs. State size, price..... **$3.15**

Shipped from Factory in Southern Minn.

Climax Hay Buncher

$7.50

For Bunching All Kinds of Grass or Grain



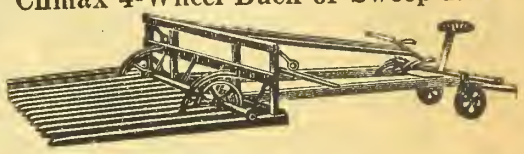
Very popular in Western States and largely used in cutting the very short hay which cannot be picked up with the rake, or where windrower cannot be used. Many in use in the cattle ranching sections to gather the short hay in bunches for stock to feed on during the Winter months. It avoids the lodged dead grass and weeds that a rake picks up, and the grass retains more nourishment and color than when gathered with a rake.

Especially designed for Prairie Grass and suitable for bunching all kinds of Grass or Grain. Attaches to any make of Mower without boring a hole. Adds but little weight to the machine. Spring Steel Pick-Up Bars. Convenient Foot Lever permits operator to dump easily. Light and easy to operate. Space between bars, 2¼ inches.

287 E 1511—To fit 4½-ft. mower. Ship. wt., 40 lbs. Price..... **$7.50**
287 E 1512—To fit 5-ft. mower. Ship. wt., 45 lbs. Price..... **7.60**
287 E 1513—To fit 6-ft. mower. Ship. wt., 50 lbs. Price..... **8.00**

Shipped from Factory in Southern Minn.

Climax 2-Wheel Sweep Rake



$25.90

Non-springing pivot tongue. Metal pointed teeth. Made of carefully selected material throughout, carefully dried and seasoned. Built to stand up under hard usage. Regular 12-ft. rakes, measuring 11 ft., 8 in. across points of teeth. Easily handled, well balanced, and will stand as much hard work as any similar rake. Shipping weight, 300 pounds.

287 E 1502—Price, complete with extra strong well made steel wheels..... **$25.90**

Shipped from Factory in Missouri.

Climax 4-Wheel Buck or Sweep Rake

Used in all of the alfalfa sections of the West.

Strong and durable. Excellent lever control. Made of select material, well seasoned, carefully constructed teeth and frame. Fully equal in strength, durability and ease of lever operation to any other rake you can buy. Superior to many well known makes, especially in the lever arrangement, which allows the operator to handle the load with less labor on self and team. We recommend it especially in heavy crops. Is mounted on 18-in. diameter main wheels with wide tires, caster wheels in rear. Removable boxing easily replaced when worn. Width, 12 ft., length of teeth 8 ft., metal pointed.

287E 1504—Price, complete. Ship. wt., 500 lbs..... **$52.00**

Shipped from Factory in Missouri.

Hay Presses

WE are prepared to quote attractive prices on Hay Baling presses.

Write and tell us the quantity of hay you want to bale and we will quote you on the size and kind of Hay press best suited to your needs.

Bale Ties. Prices quoted on application.

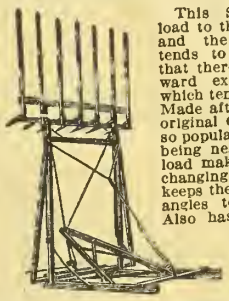
Climax Hay Rack Brackets

Broad cast bearing top plates which lie diagonally across top of timber. Bolts fit over the top plate and pass down along the side of timbers where they are secured to the bottom cross timber by nuts against washer clamp. Plates to fit between the first and second timbers. Complete set with directions, all packed in box.

487 E 392—No. 1 size, with 14-in. bolts. Ship. wt., per set boxed, 12½ lbs. Our price, per set of eight **$1.95**

487 E 393—No. 2 size with 16-in. bolts. Ship. wt., per set, boxed, 13½ lbs. Price, per set of eight..... **$2.15**

Hemm's Hay Rack Fixtures



You can make any size or style hay rack with these fixtures.

No vertical holes to bore. By placing upright stakes in openings a stock rack can easily be made. Can be used for any width of timbers desired. Flanged on the inside. Made of malleable iron. A set consists of 8 fixtures, as shown in cut. Ship. wt., per set, fixtures only, 18 lbs.

487 E 395—Price, per set of 8, without bolts. **$4.35**

487 E 396—Price, per set of 8 fixtures and 24 bolts, 8, ⅝x3, 8, 2⅜x2¾; 8, ¾x6, complete outfit. Price. **$4.70**

Overshot Hay Stacker

This Stacker delivers the load to the center of the stack and the constant pounding tends to bind the center so that there is no settling afterward excepting at the end, which tends to shape the stack. Made after the patterns of the original Champion type that is so popular. The lift at the start being nearly directly over the load makes an easy start and changing as the load rises, keeps the pulley at nearly right angles to load at all times. Also has side braces on the arms, which prevent swaying when the load reaches the top. Can be adjusted to elevate from 12 to 17 ft. in height. Has recoil spring, which gives the pitching effect when discharging load on stack.

287 E 1506—Ship. wt., about 800 lbs. Price..... **$67.20**

Shipped from Factory in Missouri.

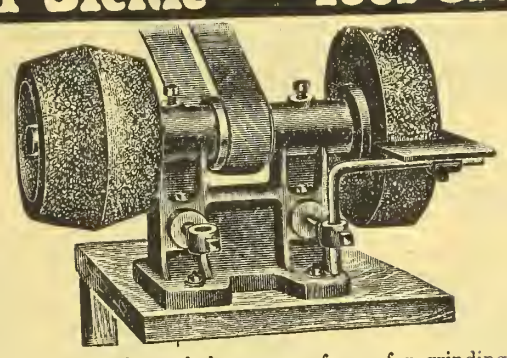
Monarch Disc and Coulter Sharpener for 15 to 20-Inch Disc

$6.75

Keep your discs sharp and make them pull easier and do better work. It is easy to remove blades by turning disc bottom up.

If the disc blade is bent or warped it can be straightened with this machine. Has centering device to accurately center any disc. No clattering or jumping of the cutter. Improved roller carrier steadies discs. Double gear makes disc revolve slowly and gives great power to the machine. All cast working parts, steel shafts. Full directions with each machine. Can be bolted to bench or plank or upright post. The position of the machine makes it convenient to put on the disc.

Not malliable.



487 E 1020—Price, ship. wt., about 42 lbs. **$6.75**

487 E 1021—Extra Tool Steel Knives, Each, wt., 4 oz. **.30**

487 E 1022—10x2¼-in. pulley to use with power. Weight, 10 lbs. **$1.25**

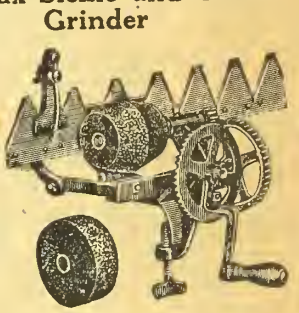
Power Sickle and Tool Grinder

Grinds All Kinds of Farm Tools

$7.25

Runs as Smooth as a Top

A power grinder that is needed on every farm, for grinding farm tools. Requires very little power. Any size engine or power motor will run it.



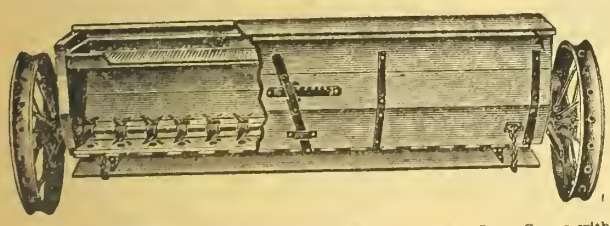
Has disc holder for grinding harrow and plow discs 14 to 18 in. diameter.

Bolts to bench or table, ⅝-in. main shaft is machined steel. Wheels of vitrified corundum. One disc or tool grinding wheel furnished, 6 in. diameter, 1¼-in. thick; also one bevel, or sickle grinding wheel, diameter in center, 5½ in., tapering to 4½ in.; 3½ in. thick at the ends. Knuckle-jointed tool rests, may be set at any angle; a sickle or mower knife holder and disc sharpening attachment. Diameter of pulley, 2 in., with 1½-in. face. Ship. wt., 36 lbs. Complete with sickle and disc holders; one tool and one bevel stone. **$7.25**

487 E 325—Price..... **$7.25**
487 E 326—Extra Tool Wheel. Price..... **1.75**
487 E 327—Extra Bevel Wheel. Price..... **2.15**

Climax Sickle and Tool Grinder

$3.65



For grinding farm tools and mower knives.

Adjustable clamp at bottom to conveniently attach to wheel on harvester or mower, for sickles; and to bench or table for grinding tools. Mower Knife Holder adjustable as desired, and firmly holds the mower knife with two guides or rests, adjustable for any width or thickness of knife backs. Clamp allows shifting of knife to any position while grinding. Weight of knife is carried by holder and operator has full view, and easily controls the pressure and governs the grinding of nicks, gaps and any width or length of bevel.

Grinding wheels are vitrified corundum. Price includes one sickle or bevel wheel, one tool wheel, diameter, 4 in., face 1¾ in., one tool rest and mower knife clamp. Ship. wt., boxed, 14 lbs. **$3.65**

487 E 331—Extra Tool Wheel. Price. **.95**
487 E 332—Extra Bevel Wheel. Price..... **1.05**

Fertilizer and Lime Sower

Many thousands of farmers have used this Fertilizer and Lime Sower with great success. They have found that it is better for broadcasting Lime, Ashes, Plaster, Phosphates, Nitrate of Soda, or some other commercial fertilizer, and enables them to secure maximum yields from their fields so treated.

Has double lid screen and scattering board. Throws out of gear from either wheel. The screen insures against trouble from foul substances entering the machine, mixing with the lime or fertilizer. It sows evenly, has a light draft and the quantity to be sown can be instantly changed by changing the position of the feed lever at the rear and bottom of the hopper. Length of the hopper is 7 ft. 7 in. All feed openings at the bottom are square. It is adjustable to broadcast from 1000 to 6000 pounds of lime per acre. Commercial Fertilizer 500 to 6000 lbs. per acre.

Has cold rolled steel axle. Diameter, 1¼ inches. Wheels are of steel, diameter 30 inches; concave tires, width, 4 inches. Combination force and agitator feed. Complete with sowing dial, steel shifting lever and all steel, rust resisting hottom and tongue for two horses. Shipping weight, about 420 lbs. Extra charge for doubletrees and neckyoke.

287 E 1403—Lime and Fertilizer Sower without Doubletrees and Neckyoke. Price..... **$49.50**

287 E 1405—Doubletrees, Singletrees and Neckyoke for above. Ship. weight, 30 lbs..... **4.30**

Shipped from Factory in Ohio.

Stump Pullers and Accessories

287 E 4936—Price..... **$7.90**

Shipped from Factory in Southeastern Minn.

Climax Stump Puller

Simplicity is one of the features of our Climax. Few working, therefore, few wearing parts.

Light weight increases the value of our Climax over similar stump pullers. Easily and quickly shifted about.

V-shaped Iron Drum winds the rope like thread on a spool and preserves its life so that it cannot chafe as rope would on a grooved drum. The first three coils act as a bed, equalizing the pressure to the next three coils. There is no flattening or breaking of the wires. One rope on our V-shaped drum will outwear two ropes on many other styles of stump pullers.

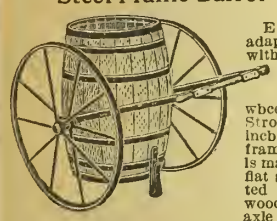
Butter Churns and Dairy Barn Equipment

Interior Working Parts



Perfection Sanitary Churn

This churn is made of metal instead of wood and you can always get the right temperature for best churning by placing it in hot or warm water to suit conditions. In winter, place the churn on top of stove and turn dasher a few times. This makes churning easier.

Churns the best butter in 5 minutes. Made of extra heavy XXX tin-plate; rounded bottom inside; small quantities of cream can be easily churned even in largest size churn. Removable clear ash dasher easily and instantly taken apart. Special nickel-plated faucet for drawing off buttermilk. Special crank shaft packing box prevents leaking. Full directions with each churn. Packed in cartons.

Climax Stock Feed Cooker

$10.50 up

For Cooking Feed for Hogs, Poultry, Sheep, also invaluable on farm for heating water, rendering lard, making soap, scalding hogs and innumerable other uses.

The jacket is made of one continuous sheet of cold rolled steel, which leaves no joints to open up and take in air, and is supported at bottom with a heavy, wrought iron band. The kettle is made of smooth cast iron, is easily cleaned. The inside arrangement includes a cast iron flame deflector set so that the fire and smoke pass around the kettle before going into the smoke pipe, thus bringing the entire bottom of kettle in direct contact with the heat and fire. Coal grates, elbows and pipe are extra.

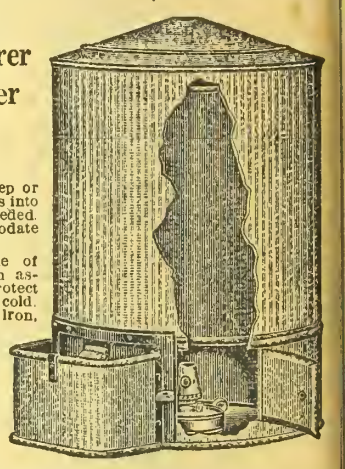
Farmers' Choice Feed Cooker

$14.95

A big capacity cooker with low fuel cost.

An excellent economical heater for cooking large quantities of stock feed, boiling water for scalding hogs, etc. The bottom of the furnace extends the full length covering ash pit. All joints are perfectly made, so that the boiler can be set up in any building just as safely as a stove.

Boiler is made of 20-gauge galvanized steel. Bottom edge of boiler has 1-inch flange projecting below bottom, so that the boiler sets down over the upper edge of the furnace. The upper edge of the boiler is supported with 1-inch angle steel, making it very rigid and durable. The fire box has a heavy cast iron grate and back wall. Will burn wood, coal or cobs. All boilers are made removable.



First 3 sizes have grate 12½x22 inches. Large size 12½x26 inches.

Shipped from Factory in Northern Indiana.

Climax Hog Waterer and Heater

$19.50

Suitable for hogs, calves, sheep or other small animals. Water feeds into drinking pan automatically as needed. Pan is large enough to accommodate two animals at a time.

Outer casing of tank is made of galvanized steel and lined with asbestos paper which helps to protect the water in tank from heat or cold. The drinking pan is made of cast iron, easily removed for cleaning. The water from tank is fed down through an opening at bottom of tank into the outside cast iron pan. The flow of water from tank to drinking pan is regulated by a vacuum. No valves required. Water pan is heated with an oil lamp with large fount, holds oil enough to run 36 hours.

Height of tank, 37 inches. Diameter, 30 inches. Made in two sizes—50 and 70-gal. cap. Ship. wt., about 165 lbs.

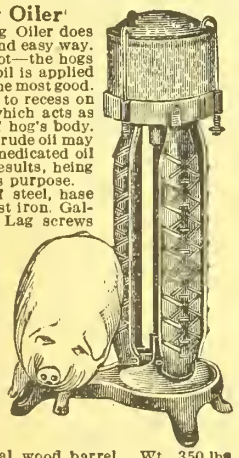
Improved Furnace Caldron



$16.50

Cooks feed, renders lard, heats water, etc. Drum is made of boiler steel. Lower part and fire box of smooth cast iron. The construction is such that it allows the heat to instantly surround the drum making it a quick and economical heater and cooker. Equipped with large fire box and tight fitting doors. Inner container or kettle is made of heavy iron and may be removed for other uses when desired. Prices include furnace complete with kettle but no pipe (requires 6-inch pipe). Coal grate fixtures are extra.

Valveless Hog Oiler

The New Climax Hog Oiler does the work the simple and easy way. Set one up in the hog lot—the hogs rub against it and the oil is applied exactly where it will do the most good.

Surplus oil is drained to recess on top of projecting leg which acts as rubber for under part of hog's body.

Use any kind of oil. Crude oil may be used. Our special medicated oil will get the quickest results, being especially made for this purpose.

Main standard is of steel, base and rubbing bars of cast iron. Galvanized steel oil tank. Lag screws furnished for fastening down. Height, 31 inches. Ship. wt., 35 pounds.

287 E 3320—New Climax Hog Oiler..... **$5.35**

Climax Medicated Hog Oil.

For use with any hog oiler or rubbing post.

Automatic Stock Fountain

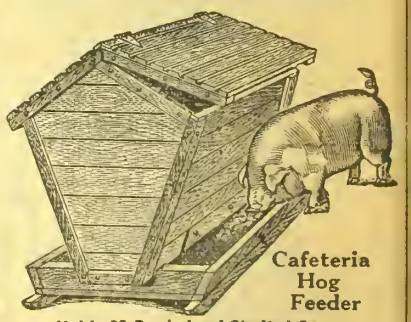
Easily attached to barrel or tank and held in place by strong lock nut on the pipe, and one bolt. The body is made of cast iron with double drinking chamber. The float rail is made of brass and will not rust. Float enclosed within covered chamber outside the barrel, open at the top, leaving it easy to get at, but well protected. Shipping weight, 14 lbs.

487 E 3306—Price..... **$2.25**

Climax Cast Iron Hog Troughs

Art. No.	Length	Ship. Wt.	Each
487 E 3380	2 feet	28 pounds	$2.15
487 E 3381	4 feet	58 pounds	3.95
487 E 3382	6 feet	78 pounds	4.75

Climax Galvanized Steel Hog Troughs



In sizes from 2 to 8 feet inclusive. The 2-foot size is especially desirable for breeding pens and farrowing houses. The 4, 6, and 8-foot sizes are popular in the hog yards. Where longer troughs than 6 and 8 feet are desired we recommend purchasing two, on account of the unwieldy large size. Have rounded bottoms for easy cleaning. Freezing cannot affect them. Heavy iron cross bars one foot apart prevent the hogs shoving along in the trough.

Made of 20-Gauge Galvanized Steel

87 E 3823—Price, per dozen..... **1.28**

Climax Poultry Fountain Heater

$3.50

Helps to keep the hen-house warm for chicks taken from the brooder.

Tank holds 8 gallons of water, sufficient for flock of 75. Made entirely of heavy galvanized steel. Supplies water automatically to trough extending clear around the tank so that a dozen chickens or more may drink at once. The top of the tank is concave, the center being about one inch lower than the outer edge, permitting easy filling with water, by removing filler plug. Heater lamp has large brass burner. Oil reservoir holds three pints and has ½-inch flange around top edge to fill with water preventing all danger of explosion. The fountain is made in two pieces. The bottom part is complete with galvanized bottom which prevents any possibility of floor catching fire from the lamp. By removing the bottom section the top part of fountain can be set directly on the ground, making an ideal waterer for the summer months. Shipping weight, crated, 27 pounds.

287 E 3750—Price, complete..... **$3.50**

Shipped promptly from Warehouse near Chicago.

Aluminum Leg Bands

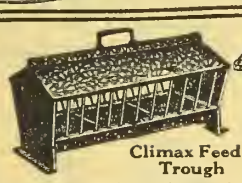
New Climax Oats Sprouter

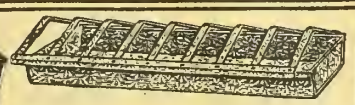


$3.75

Grows tender, green oat sprouts quickly. Helps increased production and insures plenty of green food at a time when none other is available.

You will get more eggs by feeding your chickens green food. Oats soaked 24 hours, then placed in the pans and sprinkled a few times a day will quickly sprout and supply green food or your chickens during the entire winter season. Consists of 8 galvanized pans, 11x14½ inches, and 1½ inches in depth. The upper 7 pans have perforated bottoms to allow the proper drainage while the bottom or drip pan is solid to catch all extra moisture.

Will grow sufficient oats at one time to care for 100 to 150 hens. Frame is made of galvanized steel, about 40 in. high. Shipping weight, about 20 lbs.



187 E 3755—New Climax Green Oats Sprouter. Price..... **$3.75**

Climax Feed Trough

23 in. long 8 in. wide. Feeds 24 chickens at a time. Three compartment feed box. Top and sides are hinged and can be turned back to fill feed trays. Galvanized steel. Ship. weight, crated, 10 lbs.

187 E 3907—Two in a package. Shipping weight, 4½ lbs. Price..... **$1.92**

Chicken Roosts

All poultry raisers agree that the greatest drawback to successful poultry raising has been lice.

We don't care how many there are or how badly they are scattered, our Sure-Catch Mite Traps will catch them all and keep the fowls free of mites, and that part of the blood which has been feeding them will be turned into eggs and flesh.

Roosts are made of clear seasoned timber fitted with bent iron hanger at each end and are easily erected in any hen house. Roosts are furnished with two traps, one at each end.

187 E 3915—Length, 4 ft. Weight, 3 lbs. Each..... **39c**

Cider Mills and Farm Necessities

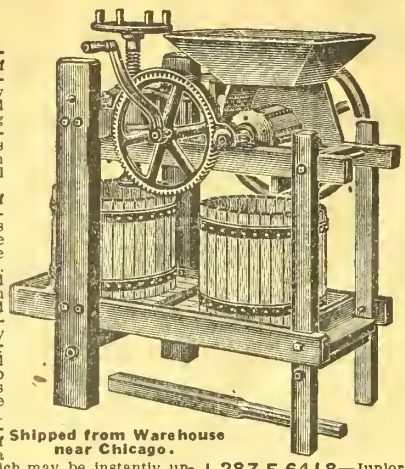
Senior Cider Mill

$34.15

Capacity, 50 to 60 bushels or 125 to 150 gallons per day. Strictly high grade, carefully constructed. Will grind large or small apples. This mill with its rapidly revolving wood cylinder, with sharp edged steel pins, quickly crushes the fruit thoroughly thereby breaking all the juice cells and making certain that the grinder will extract every drop of juice. Two cranks, one on each side enable two boys to run the machine.

Heavy hardwood frame, bolted. Press screw heavy steel. Large size hopper, force feed. Tubs of hardwood slats with bands. Diameter of Press tubs 14 in., height, 13½ in. Shipping weight, 330 pounds.

Shipped from Warehouse near Chicago.



287 E 6419—Senior cider mill complete. Price $34.15

Clamp pulley 10x4 for belt power extra. Price 1.40

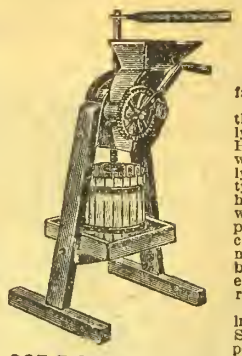
Junior Cider Mill

In this illustration a part of hopper is removed to show the cylinder and inside working parts. The Complete hopper is same as shown on Senior mill No. 6419.

Here is one of the most popular cider mills made. Just the right size for the average farm. The strong wood cylinder with sharpedged steel pins is positive in rapidly reducing either large or small apples to a pulp so that the press will readily take out all the juice. Hopper is fastened to top of frame with a strong latch, which may be instantly unlatched, and entire hopper removed to allow quick and easy cleaning of all inner working parts.

$17.95

Has two tubs: you can press one while filling the other. Heavy hardwood frame securely bolted. Mill parts are iron and steel. Press screw is steel. Tubs are of hardwood slats rivited to iron bands, well made in every way. Diameter of press tubs, 9½ in. Height 10½ inches. Shipping weight, 155 pounds.



Capacity 25 to 35 bushels or 60 to 70 gallons.

Shipped from Warehouse near Chicago.

287 E 6418—Junior Cider Mill complete. Price $17.95

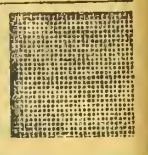
Clamp Pulley 8x4. Extra Price. 1.10

Force Feed Cider Mill

$13.95

High grade single tub family mill.

Geared cylinder crushes the apples and automatically forces them through. Has larger hopper and wider throat than is usually found in mills of this type. Has cast iron frame hopper. Wood cylinder with sharp edged steel pins work on same principle as Junior and Senior mills. Steel screw. Large balance wheel makes it run easily. Capacity 1½ barrels of cider per day.



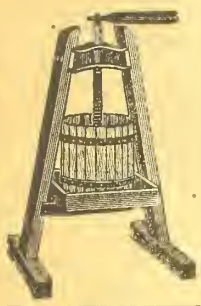
Diameter of the tub, 9½ inches. Height, 10½ in. Shipping weight, about 130 pounds.

287 E 6417—Force Feed Cider Mill $13.95

Shipped from Warehouse near Chicago.

Clamp Pulley 8x4. Extra Price $1.10

Cider Press Cloth



Made of 6-ply Cotton Cord expressly for straining juice in Cider Mill Tubs. Better and stronger than cheese cloth. With care will last several seasons. In 3 sizes, each size having stitched selvedge on four sides. Made heavy and strong. All woven of 6-ply cotton cord.

87 E 6414—Size, 40x40 in. Wt., 1¼ lbs. Price, each 85c

87 E 6413—Size, 50x50 in. Wt., 1¾ lbs. Price, each $1.25

87 E 6412—Size, 66x66. Weight, 2½ lbs. Price, each $2.15

Fruit Press

$7.35

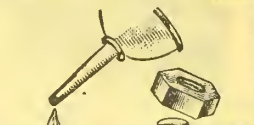
Strong substantial Fruit Press with heavy wood frame securely bolted. Heavy cast cross head and steel screw smoothly finished. Tub is made of smooth hardwood slats with wrought iron hoops riveted. Size of tub, 9½ in. diam. and 10½ in. high. Ship. weight, about 60 lbs.

287 E 6416—Fruit Press. Price $7.35

Folding Delivery and Field Crates

39c

Capacity, one bushel level full. Folds into small space when not in use. Made of smooth wood. Corners are wired. Will stand an unusual amount of rough handling. Length, 18 inches; width, 13½ inches, depth, 12 inches. Ship. wt., 7½ lbs.



187 E 2610—Heavy Field or Delivery Crate. Price 39c

Don't Strain or Tug with Rusted Bolts or Nuts Don't Break Parts

Use Rustsolvo

The Product with a Thousand Uses

Rustsolvo cuts Rust, Carbon, Red or White Lead, Shellac, Paint, Tar, Dried Grease also Green Corrosion on Batteries—without injury to Metal, Rubber, Wood, Cloth, or the hands.

Rustsolvo is a free flowing liquid, non-inflammable and with a non-offensive odor.

There is no need to strain and tug with parts stuck from rust and then break them. A few drops of Rustsolvo and the parts can be removed—easily—without spoiling the threads or parts. How many times have you tugged and strained to loosen a rusted nut? How many times have you broken a rust bound bolt or some other part and then found you didn't have another and couldn't finish the job until you could get one.

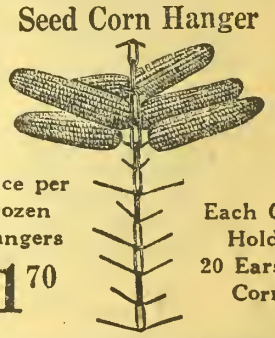
No need to break parts. No more need for delay.

Simply apply a few drops of Rustsolvo direct to the threads, allow it a few seconds to penetrate and soften the rust, and the bolt, nut or part can be removed without trouble; also, the threads will be free from rust.

A can of Rustsolvo should be on every farm, to quickly and easily free rusted bolts and nuts on any farm machine.

For Automoblie, Tractor and Truck use for freeing and placing in good order; Generator, driving clutch valve cages, piston, spark plugs, pet cocks, etc., around the home there are many places Rustsolvo can be used successfully.

Plumbing and Steam fitting work; will free elbows, tees, flanges, valves and general fittings.



Test it— Prove its Merits by Actual Use.

Try Rustsolvo. See for yourself how much time and trouble it will save for you. It takes just a few drops on a rusted nut to convince you that RUSTSOLVO does the work.

Engine Power Cane Mills

For Sugar Cane or Sorghum

Strongly built and thoroughly well made. A strictly high-grade cane mill in every way. Large rolls are flanged so as to give full width of rolls for pressing. Rolls are also corrugated to insure a positive and regular feed and are adjustable by means of set screws for large and small cane. Steel shafts, machine turned. Shaft boxes are babbitted with hard engine babbitt. The frame consists of very heavy castings, held together with heavy bolts extending through from one side to the other, all forming a very strong and rigid structure. Mill is double back geared to adapt it for use with small gasoline engines from two horse power upward.

Long Roll Engine Power Cane Mills

The gears are keyed to the rolls instead of being cast onto them, the breaking of a cog is easily remedied at small expense by simply replacing a gear wheel. The gears being on the inside of the side plates makes the squeezing surface of the rolls 2½ inches larger and increases the capacity of the mill. Rolls are made of hard tough iron, flanged and lathe turned. Main roll is stationary, small rolls are adjustable. Mills are double back geared, thus adapting them to be run direct from gasoline or steam engines.

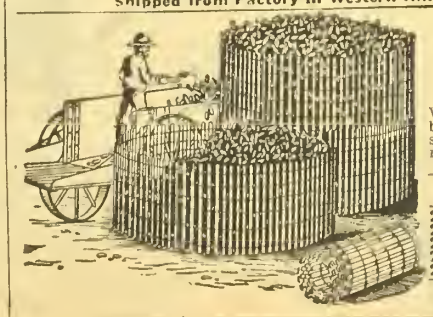
Horse Power Western Cane Mills

For Sugar Cane or Sorghum



Have 3 vertical rolls, steel shafts and brass bearings. The cog gears are cast separate from the rolls, and made very heavy.

Top and bottom journals run in brass lined boxes, permitting the mill to work smoothly and easily. Steel shafts with turned bearings; turned rolls with serrated faces, enabling a regular and constant feed to be maintained. The main rolls are flanged at top and bottom. Sweeps not furnished. Not intended for tropical cane.

Spray for Bigger Better Crops

Power Spray Outfit

$2.80

Can be used with any gas engine 1½ h. p. or more. Can be mounted on any farm wagon and used with any tank or barrel B. F. type.

Two men can work with this sprayer at the same time as it will supply two large spray nozzles at from 100 to 200 lbs. pressure. This is a great time saver in spraying large orchards, gardens, etc., and in whitewashing a large area of space.

All brass cylinder pump 2¼ inches in diameter. Equipment includes 10 feet of ½-inch high pressure hose and couplings, 6 feet of suction hose with strainer, 4 feet of relief valve hose and 3 feet of spray pipe with large spray nozzle. Also a sweep agitator of flat iron and fitted with wooden paddle, adjustable for different height barrels or tanks. Shipping weight, about 160 lbs.

187 E 6072—New Climax Sprayer Outfit, complete..... **$47.75**

Brass Bucket Sprayer

Fits any Pail or Bucket

No matter how little spraying you have to do, the brass bucket sprayer is the one for long and efficient service.

For spraying trees, shrubbery, vegetables, as well as for whitewashing, spraying disinfectants, washing automobiles, wagons, windows, etc.

Double acting, that is, it works on both the up and the down stroke, giving a continuous spray or stream.

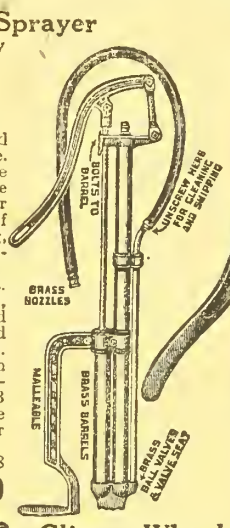
Supplied with fine nozzles to throw a horizontal stream 40 feet. Solid brass ball valve and adjustable foot brackets. Brass cylinder and plunger, 3½ ft. hose. For all kinds of spraying or for fire fighting. Combination fine and coarse spray nozzles.

487 E 6000—American Bucket Pump. Ship. wt., 5½ lbs. Each..... **$2.80**

87 E 6006—Bordeaux Nozzle for whitewashing. Ship. wt., 4 oz. Each..... **72c**

Climax Combination Sprayer

For all Spraying Purposes, fits any Pail, Bucket or Barrel



$6.60

A good combination sprayer and whitewasher built for hard service. Fits any pail or bucket and may be attached to barrel by bolting to the staves through casting provided for this purpose. Adapted to all kinds of garden, field and orchard spraying, whitewashing and spraying disinfectants, etc.

Made almost entirely of brass. Easy to operate. Produces a steady, unbroken flow. Will throw a solid stream 40 feet. May be regulated from the finest to a very coarse spray.

Furnished with a malleable iron stirrup for use with bucket. Also connecting plate for use on barrel; has 3 ft. of ½-in. hose with brass hose clamps and a combination nozzle for fine mist spraying or stream.

487 E 6004—Shipping weight, 8 lbs. Price..... **$6.60**

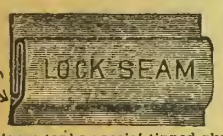
Galvanized and Wooden Tanks

Underground Storage Gasoline Outfit — $37.50

For economy and absolute safety a well-equipped farm or age cannot be without proper handling facilities for gas- ne. We show here a dandy little outfit that can be easily talled. The pump works very easily and will fill an auto- bile tank quickly. The faucet can be locked, preventing mpering or theft.

Outfit consists of a heavy galvanized steel welded tank mp, 2 inch filler pipe 24 inches long, 10 feet of ¾ inch vanized pipe with elbow and street elbow and one piece ¼ inch pipe 30 inches long. Tank may be installed under or of garage or in ground outside. The suction lift should be greater than 20 feet.

Tank is equipped with 2-inch flanged opening for filler pe, a ⅞-inch opening for suction pipe and 1-inch opening vent pipe.



You will find the pump simple, powerful and durable, pped with brass cylinder, piston rod, valve and ground key b with hose connection.

Every outfit carries the complete indorsement of the National ard of Fire Underwriters, your guarantee that this is a del apparatus, fulfilling legal requirements.

Outfit	Size Tank Gallons	16 Gauge	14 Gauge	12 Gauge	Ship. Wt. 14 Gauge

37 E 6908—Gasoline pumps when ordered separately. Shipping weight, 20 lbs. Each..... $11.00

Shipped from Factory near Chicago.

How the Lock Seams on our Tanks are Made

Rust-Resisting Lock Seams are used in all the small tanks, and in the riveted seams of large tanks special tinned rivets are used, thus making our tanks as near rust-proof as it is possible to make them because liquid can come in contact with the black iron.

Covers and Connections for Tanks

37 E 6820—¾, or 1¼ inch pipe connections. State size..... 40c

37 E 6822—For ½ or ¾ inch faucet. State size. Extra..... $1.40

Square, Wagon and Barrel Tanks

Climax Steel Barrel

Made of Black and Galvanized steel.

A strongly made steel barrel that will withstand the roughest usage. The seams are welded, rolled chimes, and no solder is used in their construction. Danger of leaking is eliminated. Stands an interior air pressure of 10 lbs. to square inch. Draw-off faucet with each barrel.

Ideal for storing oil thus having a large quantity always ready for use. Also for transporting oil by wagon or truck. The shipping barrel has ¼-inch thick rolling ring reinforcements, making it best for railroad shipping.

Threshermen's Wagon Tanks

Made of 20-Gauge Galvanized Steel

For transportation of water, oil and other liquids there is no better tank made at anywhere near our price.

It is carried on wooden frame with cross sills notched to fit bolster. Iron braces extend up sides from cross sills. Has galvanized flange extending up 6 inches high around top of tank, making it possible to carry buckets, tools, etc., without danger of falling off. Is fitted with covered manhole near center. Front of tank and frame are so constructed as to form driver's seat with foot rest. When ordering be sure to give width of bolster between standards.

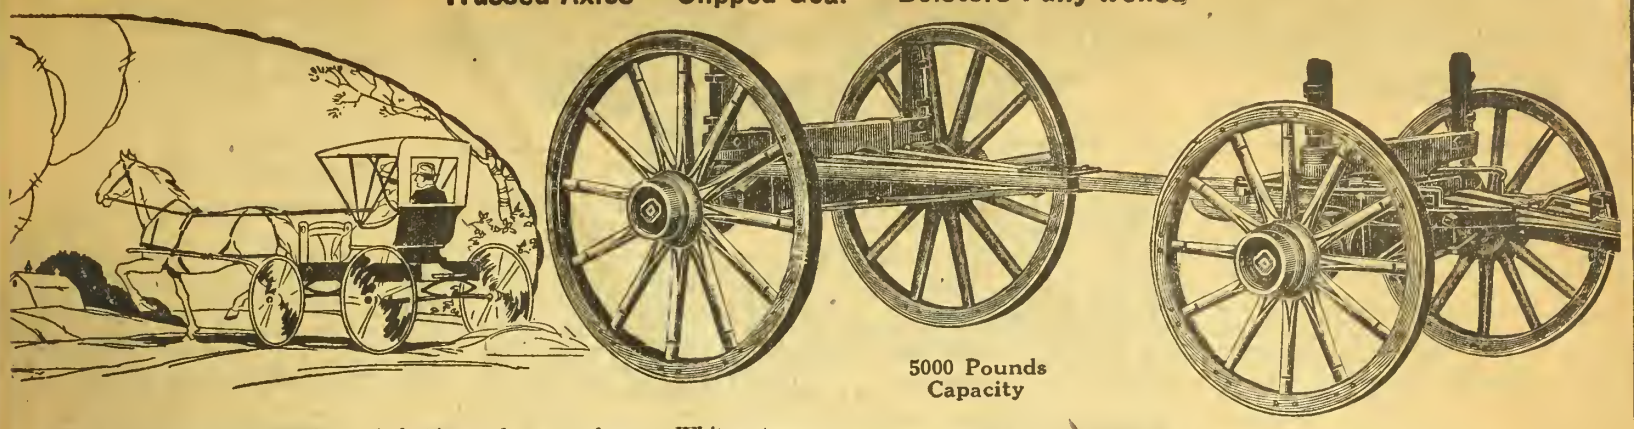
$4.75

Made to fit wagon boxes 38 inches and 42 inches wide. Bolts to the outside of the wagon box and therefore does not interfere with unloading in anyway. Is grain tight when closed. Can be opened at the bottom for dumping the corn out of the wagon or can be opened from the top for shoveling out the corn.

Shipping weight, about 50 pounds.

287 E 7671—Whitewater Shoveling Board to fit 38-inch box. **$4.75**



287 E 7672—Whitewater Shoveling Board to fit 42-inch box. **$5.50**

Shipped from Warehouse in Southern Minnesota.

For good wagon harness see page 839.

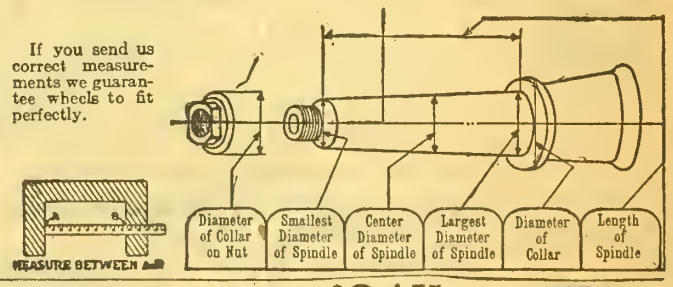
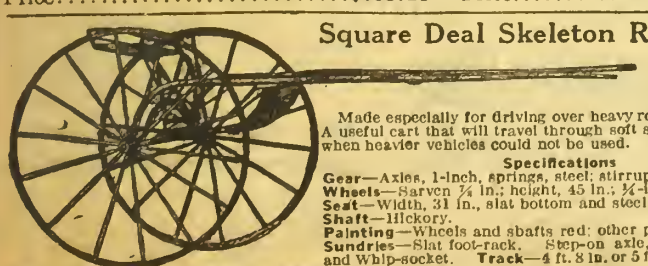
Shipped from Illinois Factory.



Shipments

Metal wheels are made to order only and shipped direct from factory in Central Illinois. Shipments usually made in 7 to 12 days after receipt of order.

How to Order and Measure Steel Wheels.



The number and size of spokes, also hub pattern, vary according to size of skein or axle and capacity of wheels. Send all measurements indicated. Measure from skeins only, not from your old wheels. Factory will allow for play. Do not send circumference measurements. Give height of both front and rear wheels, width and thickness of tires. If you have no calipers, cut a slot in cardboard as shown in illustration to fit over part to be measured, then measure across slot as shown. Measure from side to side of spindle, not from top to bottom. Measure both front and rear axles.

If you send us correct measurements we guarantee wheels to fit perfectly.

Square Deal Skeleton Road Cart

$29.40

Made especially for driving over heavy roads in emergencies. A useful cart that will travel through soft soil in rainy weather when heavier vehicles could not be used.

ALL-YEAR NEVER-RATTLE TOP FOR FORDS

$147.50

Special Features

- Top complete as described for Ford Touring Cars.
- Year Models 1914-1921.
- Storm tight, Water tight.
- Glass windows 3/16 inch thick. Permanently built and cemented into panels; never rattle.
- Does not rattle. Quickly changed from open to closed car.
- Keeps out rain, snow and wind.
- Is much lighter than a Sedan top.
- A beautifully finished high-class top that will add greatly to the appearance of your car.
- Complete, including **door handles**, screws, etc.

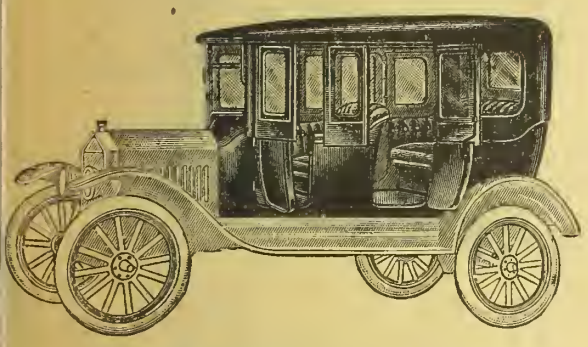

Illustration of Top with Doors Open

PUT one of these new tops on your Ford and have a Summer or Winter Car that will give you the same comfort you can get from the higher-priced cars. Strongly built and designed for durability, lightness, beauty, and freedom from noise. It will give you splendid service for either Winter or Summer use.

How the Never-Rattle Top is Made

Outside is an extra fine grade of fabrikoid, inside is lined with regular head lining. Between the inside and outside layers of the panels and sides is a double layer of strong flexible material to give the necessary strength and durability for long hard service.

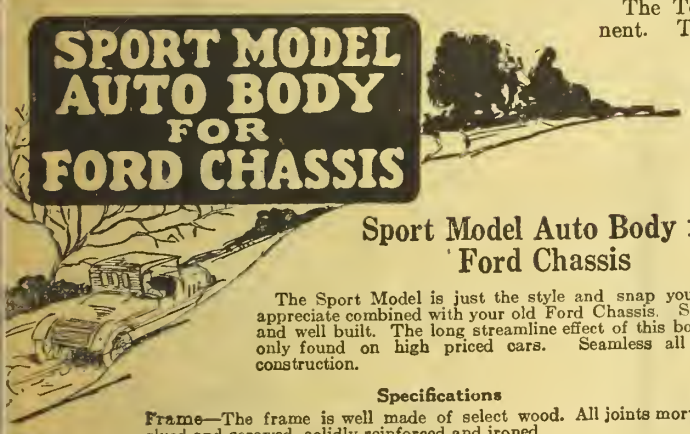
The Glass is 3/16 inch thick and set in wooden frames which are permanently cemented and built into the Sash or Panels and therefore CAN NEVER RATTLE

The Tonneau Sash and rear Sash are permanent. The other three on either side are easily detachable and are independent of each other so you can remove one without disturbing the others.

Frame is selected wood, solid and sound. All joints mortised, glued and screwed. Solidly reinforced and ironed. Rounding parts of frame covered with light steel and padded, giving it a perfectly smooth soft surface.

Door handles and inside attachments are furnished for opening door from outside.

Side Curtains



When the Panels or Sash containing the glass are removed they cannot be carried around in the car but we supply side curtains to be used with the open top.

287 E 7205—All-year Top for Ford Touring car. Weight, crated, about 300 lbs. Price..... **$147.50**

287 E 7206—All-year Top for Ford Roadster. Weight, crated, about 225 pounds. Price..... **$112.50**

Shipped from Michigan Factory.

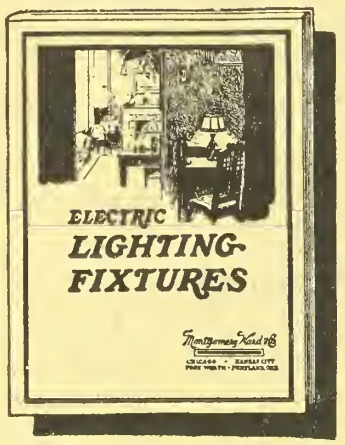
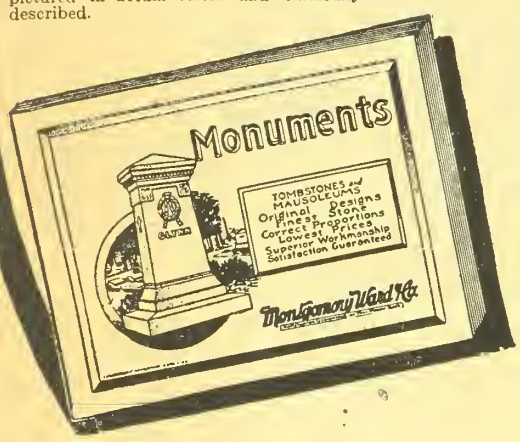
FREE SPECIAL CATALOGS

STUDY this big catalog; consult the index pages; you will find almost everything needed. However, some of our lines are too large to be shown in detail in the big catalog, so we issue special books to cover them.



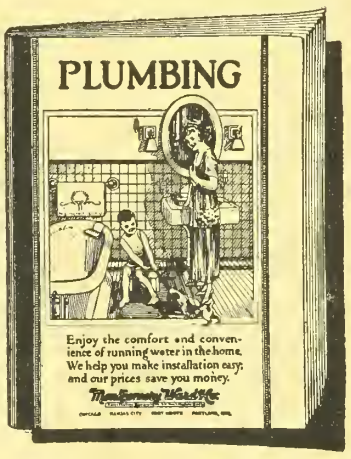
If you are thinking of purchasing any of the merchandise shown in the special catalogs described on this page write for the ones you want.

OUR Free Grocery Catalog issued every 60 days is a dependable marketing guide to high-grade foods at prices that will save you money. All our prices are so low that the careful housewife can effect a considerable saving on every meal. If you are not on our mailing list, and wish the book, just send in your name and address and say you want our "Grocery Catalog." You will like its interesting pages.

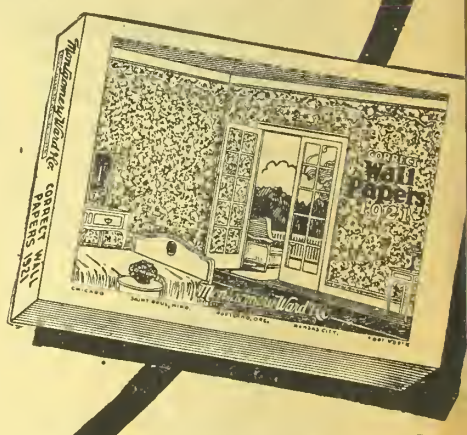


IF you are planning on buying a piano or a player piano and want more information about our Windsor pianos than is contained in this catalog, send for a copy of our beautiful Windsor Piano Book. Every model of the famous Windsor is pictured in actual colors and faithfully described.

WHETHER in need of a single lighting fixture or a complete modern lighting equipment for your new home, it will mean money saved if you send for this Book and see our prices before purchasing. We will gladly assist you in planning any installation you have in mind.



OUR Special Building Material Book offers a full line of just the material you would want if you are planning on building this fall. You will notice the great saving that is afforded you if you buy from this book.



IT is a splendid custom to erect an enduring monument on the family burial lot.

If you are interested in the selection of a monument or marker, send for this Monument Book. It will enable you to select just what you want and at the price you feel you can afford. We offer a choice selection of beautiful designs.

WE offer you a wide choice of Plumbing and Heating equipment at very moderate cost. Complete instructions for doing your own installation work are furnished in this book. It is carefully illustrated to enable you to picture your home with thoroughly modern plumbing and heating equipment.

Use this order blank as a reminder of the things you will need soon. Write down the various articles as you think of them. Then, when you are ready to send us your order, you will be sure not to overlook anything.

Tear Off on Dotted Line

ORDER BLANK

Remember When Ordering:

Use the Index

We have tried to make the index of this book complete and simple. Always use it when preparing an order or when "catalog shopping." Goods shown in the catalog generally are classified according to their uses and similar things are placed close together. However, some items which are closely related are separated and if you do not use the index, you will not get full advantage of the broad selection the catalog affords. So when "catalog shopping," always turn first to the blue pages in the middle of the book.

Give Size and Color

Sometimes in making up an order the customer forgets to state the size or the color desired. That makes it necessary to delay the order while we write to the customer for the necessary information. Before ordering clothing, be sure to turn to page 523 and read the measurement instructions. You always will be well fitted if you give the measurements as requested. When ordering shoes, use the chart on page 240. You help us to give you good service when you remember to give size and color.

Give Shipping Instructions

Pages 505 and 506 give detailed shipping information. Look over these pages before ordering. If your order is to be shipped by parcel post, be sure your check or money order includes the shipping charges. The weight of each article is given with its description and by referring to the parcel post rate information on page 506 you can tell exactly what the shipping charges on your order will be. For your convenience in ordering we have given parcel post charges to your home on clothing and kindred lines.

Special Catalogs

The size and nature of certain lines of merchandise, such as wall paper, auto supplies, monuments, plumbing and heating and paint, make it impossible to show properly in this big catalog everything we sell. Turn to page 888 and read about the many special catalogs we publish. If interested in any of the lines described there, send for the special catalog covering it. A note on the bottom of your next order or a postcard will bring any of these books to you.

Order in One Name Only

You will help us keep our records clear and accurate if the entire family will order under one name, preferably that of the head of the house. If we now are sending more than one of these large catalogs to your house, please tell which of the names to take off our mailing list.

Write When You Move

We like to get our catalogs to you as promptly as possible, so you may obtain full value of the bargains offered. You will prevent any delay if you write and tell us of your new address in case you move.

Our Guarantee

It is our intention that every article illustrated or priced in this book shall reach you precisely as described, in perfect condition, and give entire satisfaction.

You take no risk in sending us your order, for we absolutely guarantee satisfaction in every detail. Unless you are fully satisfied with the goods and with the saving you have effected through your purchase, you are at liberty to return the merchandise at our expense. Not only will we refund the money you have sent us but we will gladly reimburse you for the transportation charges you pay.

Write Your Order *in* Your Own Language

We Can Always Read It

Norsk

Skriv til os paa Deres eget sprog. Om det er lettere for Dem at benytte et andet sprog end det Engelske, saa kan De skrive Deres breve og bestillinger paa Deres eget sprog, og vore kontorister af samme nationalitet vil läse dem. De vil besvare Deres breve, og Deres bestillinger vil blive hurtigt og omhyggeligt ekspederet.

Hollandsch

Indien de Engelsche taal minder gemakkelijk voor U is, aarzel niet, maar schrijf on in Uw eigen taal. De brieven worden in Uw eigen taal beantwoord en de bestellingen prompt afgezonden.

Italiano

Scriveteci nella vostra lingua se questa vi riesce più facile dell'inglese. Nella nostra casa ci sono degl'impiegati della vostra nazionalità, i quali risponderanno alle vostre lettere, e così i vostri ordini avranno pronta ed esatta attenzione.

Deutsch

Wenn es Ihnen leichter oder mehr bequem ist dann schreiben Sie uns in Ihrer Muttersprache, Wir koennen Ihre Briefe und Bestellungen uebersetzen und in Ihrer Sprache dieselben beantworten, sodass Ihre Bestellungen sorgfaeltig und auf das genaueste erledigt werden.

Français

Si la langue anglaise est trop difficile pour vous, écrivez nous en Français. Nous employons des correspondants français parmi notre personnel qui seront heureux d'apporter tous leurs soins à vos commandes en donnant leur bienveillante attention à la bonne exécution de celles-ci et répondront a toutes questions posées.

Español

"Escríbanos en su propio idioma. Contamos con un personal de empleados de todas las nacionalidades del mundo que contestarán sus cartas y atenderán sus órdenes con eficacia y prontitud."

Portuguez

Escrevei-nos na vossa lingua mãe. Temos um pessoal de empregados de todas as nacionalidades do mundo, e elles responderão as vossas cartas e encarregar-se-hão das vossas encommendas com o maximo cuidado e promptidão.

Suomea

Kirjoittakaa meille omalla kielellänne. Jos se on teille helpompaa kirjoittaa Suomeksi kuin Englannin kielellä niin käyttäkää Suomen kieltä. Me vastaamme kirjeisiinne Suomenkielellä ja täytämme tilauksenne huolellisesti.

Cechoslovácky

Jestli jest to Vám lehčí psát po česku, pište nám česky, nebo slovácky. My rozumíme Vaší řeči dobře a Vaše objednávka bude vyřízená se stejnou pozorností jako by byla psáná anglicky.

Svenska

Skriv till oss på Edert eget språk, och våra kontorister av Eder nationalitet skola läsa dem. De skola besvara Edra brev, oeh Edra orders skola bliva skyndsamt och omsorgsfullt utförda.

Polski

"Proszę pisać w swoim języku. Jeżeli jest łatwiej pisać w innym języku jak w Angielskim, to można napisać list i wypisać zamówienie w swoim języku. Zamówienia będą wypełnione uważnie i z szybkością."

По Русски

"Пишите намъ на своемъ родномъ языкѣ. Если Вамъ удобнѣе и легче писать по русски, то не задумывайтесь обращаться къ намъ на своемъ родномъ языкѣ. У насъ имѣются русскіе корреспонденты, съ помощью которыхъ русскія письма отвѣчаются съ той же поспѣшностью какъ и англійскія и заказы на этомъ языкѣ выполняются такъ же быстро и аккуратно

HAVE YOU STATED SIZE AND COLOR?

Write Your Name in Full

Note: In This Illustration No Attempt Has Been Made To Give Exact Article Numbers or Prices

Simple, Isn't It?

In fact there's nothing to it but writing the necessary information in the spaces provided as shown in the sketch above. A pen or pencil and a few minutes time is all that is required. A simpler and easier way of shopping could not be devised. You can sit right in your chair and buy supplies of every kind. No hours of tiresome walking and waiting in stores

It is well before mailing your order to check it over to see that you have given all necessary information such as article numbers, sizes, colors, etc. Be careful to enclose remittance and tell how you want your goods shipped—it saves delays.

If you've run out of order blanks any piece of plain paper will do. A post-card will bring you a new supply.

Make Your Order Complete

For instance: at the time you order the materials for any garment—coat, suit or dress, blouse or skirt, order everything you will need to complete it. By so doing you will save yourself both time and money.

MATERIALS. From these pages you can choose not only dress goods in woolens, silks, linens or cottons, but complete supplies to fill every home sewing need. From thimble to sewing machine, and from patterns to buttons you can buy all at one time and without stirring from your chair.

PATTERNS. After you have made your choice of materials, turn to our pattern pages. There you will find a good variety of attractive patterns. Nearly all style garments are represented. These patterns have been skillfully designed to insure ease in following, as well as good fit in the finished garment.

TRIMMINGS. The pattern question settled, trimmings are next to be chosen. In this book you will find rich fur bands, braids suitable for different designs; beautiful embroidery threads; beads, both glass and steel, buttons of many sizes and kinds and a big variety of laces and embroideries.

FINISHING TOUCHES. Other things worth remembering are the collar and cuff sets and the smart leather belts that we show. These are little things that settle big questions in style, consequently we have chosen them very carefully. They will provide at little cost the final touch that so often is just the one needed to complete a new garment.

DRESS FORMS. Besides materials, trimmings and accessories we offer many things that make sewing easy—a dress form for instance. Once you enjoy the help in fitting provided by one of our dress forms, you will never make a garment without pressing it into service.

MACHINES. On our sewing machine pages you will find many small devices of big help. From still other pages you can choose needles, thread, scissors, thimbles, tape measures, etc.

We suggest that you look this book through carefully, then check your order so as to be sure that you have everything you need.

We assure you that you will receive prompt and careful service in filling and shipping your order so that when you receive it you can set promptly to work without delay or interruption.
